LIST OF APPENDICES ...................................................................................... 235
CHAPTER 1 - INTRODUCTION

Scope and Purpose

This Manual comprises the Uniform Massachusetts Accounting System (UMAS). The scope of the Manual is the operation of an accounting system for a local governmental entity in Massachusetts. Its purpose is to provide a reference for the City Auditor, Town Accountant or official with similar responsibilities in accounting for financial transactions and reporting results of municipal financial operations. The Manual is based on Generally Accepted Accounting Principles (GAAP), but is written to meet the particular needs of Massachusetts local accounting officials.

Massachusetts General Laws (M.G.L.) Chapter 44, §38 requires the Director of Accounts in the Department of Revenue to prescribe uniform accounting systems for local governmental entities. Accounting for municipally owned electric light plants is prescribed in M.G.L. Chapter 164 and is regulated by the Department of Telecommunications and Energy; accounting for retirement systems is prescribed in M.G.L. Chapter 32 and is regulated by the Public Employment Retirement Administration Commission.

This Manual deals solely with accounting policies. Municipal financial issues such as budgeting or audit procurement are not included. Other publications of the Division of Local Services address such subjects.

Presentation

Much of the information is presented in general journal form to acquaint the Massachusetts Accountant/Auditor with the basic entries to be made. If followed, the Manual will allow the Massachusetts Accountant/Auditor to prepare a Balance Sheet and Schedule A, and will serve as the basis for using the Division’s GASB 34 Guide to convert to the government-wide financial statement format.

Revisions

Future revisions will be announced on the Division of Local Services web-site subscription service for downloading. Revised pages will be numbered as “76 - revised February 2004” and additional pages will be numbered as “76A - revised February 2004.” A list of revised and new pages will be maintained in Appendix A to this Manual.

Effective Date

Accounting standards contained in this Manual are effective for fiscal years beginning on and after July 1, 2003. This Manual supercedes all earlier publications, including exposure drafts.
GAAP Publications

- Codification and original pronouncements of Governmental Accounting and Financial Reporting Standards, published by the Governmental Accounting Standards Board (GASB) (2002-2003);
- Audit and Accounting Guides/Statements of Positions (SOPs) published by the American Institute of Certified Public Accountants (AICPA), especially: “Audits of State and Local Governments (GASB 34 Edition)”, dated, September 1, 2002;
- Governmental Accounting, Auditing, and Financial Reporting, published by the Governmental Finance Officers Association (GFOA) (“The Blue Book”), GAAFR 2002;
- Other publications by these organizations, including Implementation Guides, Concepts Statements and periodicals such as GAAFR Review Newsletter and the Journal of Accountancy.

Additional Division of Local Services Publications

- A Practical Guide for Implementation of GASB Statement 34 for Massachusetts Local Governments;
- Enterprise Fund Manual;
- Developing a Capital Improvements Program: A Guide for Massachusetts Communities;
- Costing Municipal Services: Workbook and Case Study;
- A Guide to Financial Management for Town Officials;
- Municipal Finance Glossary;
- Informational Guideline Releases (IGRs) provide specific policies and procedures to implement new or changed legislation or annual requirements; and
- Bulletins provide policies and procedures necessary to reflect changes due to governmental actions or economic conditions.

Division of Local Services Web-site

All of the publications may be found on our web site at www.mass.gov/dls.

Gerard D. Perry
Director of Accounts

August 2007
CHAPTER 2 - UNIFORM ACCOUNTING CODES

In order to classify each financial transaction, an account classification and coding scheme must be developed. All cities, towns, regional school districts, educational collaboratives and special purpose districts using UMAS are required to use a standard system for classifying and coding accounting transactions.

Account Classification

Account classification is the arrangement of accounts by a definite scheme. It serves as the basis for budgeting, accounting, reporting and administrative control. UMAS classifies financial data in a three-level, hierarchical fashion as follows:

- First Level - Fund Account;
- Second Level - Type of Account and Reporting Category; and
- Third Level - Subcategories.

For more on these levels, see Account Coding Structure below.

Uniform Chart of Accounts

Classification information must be recorded on the source document. This is done by developing an account coding scheme. The UMAS account coding scheme is called the Uniform Chart of Accounts.

The Uniform Chart of Accounts has been designed to improve the financial reporting, budgeting, accounting and management reporting of local governments in Massachusetts. The Chart provides a comprehensive, flexible and systematic arrangement of accounts for use in classifying and reporting financial transactions.

Account Coding Structure

The Fund account code has three digits; the first digit identifies the fund type and the remaining digits identify specific funds within the fund type. Below, there is a listing of fund codes and a short description of each fund and group of accounts.

The Type of Fund and Reporting Category account code has four digits; the first digit identifies one of the five major types of accounts: “1” Assets, “2” Liabilities, “3” Fund Equity, “4” Revenues, “5” Expenditures. The remaining digits identify the nature of the item (in the case of Assets, Liabilities and Fund Equity), the source of the revenue (in the case of Revenues), the function and organization (in the case of Expenditures). Chapters 3 through 7 of this Manual detail these account codes.
The **Subcategory account code** may have three or four digits that identify additional detail where the local government desires such detail. For Assets, Liabilities, Fund Equity and Revenue accounts, these codes may be omitted. For Expenditure accounts, this code is used to identify the expenditure object. Expenditure objects are found in Chapter 7 of this Manual.

### Illustrative Account Codes

Using the recommended coding discussed above, accounts of each type would be coded as follows:

<table>
<thead>
<tr>
<th>Account Type</th>
<th>Fund Account Code</th>
<th>Type of Fund and Reporting Category</th>
<th>Subcategory Account Code</th>
<th>Account Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assets</td>
<td>001-</td>
<td>1010-</td>
<td>0000</td>
<td>Cash on Hand</td>
</tr>
<tr>
<td>Liabilities</td>
<td>001-</td>
<td>2010-</td>
<td>0000</td>
<td>Warrants Payable</td>
</tr>
<tr>
<td>Fund Equity</td>
<td>001-</td>
<td>3010-</td>
<td>0000</td>
<td>Net Assets Restricted</td>
</tr>
<tr>
<td>Revenues</td>
<td>001-</td>
<td>4000-</td>
<td>0000</td>
<td>Subsidiary Revenue Control</td>
</tr>
<tr>
<td>Expenditures</td>
<td>001-</td>
<td>5111-</td>
<td>5150</td>
<td>City Council, Fringe Benefits</td>
</tr>
</tbody>
</table>

The above codes, although illustrated for the General Fund, may be applied to all funds.

### Fund Codes/Fund and Group of Accounts Descriptions

#### Governmental Funds

- **001**  **General Fund** - Accounts for all financial resources except those required to be accounted for in another fund.

- **200 - 299**  **Special Revenue Funds** - Account for the proceeds of specific revenue sources (other than those for major capital projects) that are restricted legally to expenditure for specified purposes.

- **300 - 499**  **Capital Projects Funds** - Account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds and Trust Funds).
**Debt Service Funds and Permanent Funds** - Debt Service Funds account for the accumulation of resources for, and the payment of, general long term debt principal and interest. In Massachusetts, these funds are only allowed by special legislation.

Permanent Funds account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government’s programs (i.e., for the benefit of the government or its citizenry).

**Proprietary Funds**

**Enterprise Funds** - Account for activities for which a fee is charged to external users for goods or services. Account for operations:
(a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. [GASB 34 and GASB codification 1300.104]

**Internal Service Funds** - Account for the financing of goods or services provided by one fund, department or agency to other funds, departments, or agencies of the financial reporting entity, or to other governments, on a cost-reimbursement basis.

**Fiduciary Funds**

**Pension (and other employee benefit) Trust Funds** - Account for assets of defined benefit pension plans, defined contribution plans, other post employment benefit plans, or other employee benefit plans held by a government in a trustee capacity.

**Investment Trust Funds** - Account for the external portion of investment pools (including individual investment accounts) reported by the sponsoring government.
850 - 899  **Private-Purpose Trust Funds** - Account for trust arrangements, including those for escheat property, where principal and income benefit individuals, private organizations, or other governments.

900 - 999  **Agency funds** - Account for assets held by a government in a purely custodial capacity.

**Account Groups**

010  **General Fixed Assets Account Group** - A self-balancing group of accounts established to account for fixed assets of a government not accounted for through specific Proprietary Funds or Trust Funds.

050  **General Long-Term Obligations Account Group** - A self-balancing group of accounts established to account for the unmatured general long-term debt of a government. The General Long-Term Obligations Account Group is also used to report that portion of the liabilities for claims, judgments, compensated absences, and unfunded pension contributions of governmental funds and certain Fiduciary Funds not expected to be liquidated through the use of expendable, available financial resources.
CHAPTER 3 - ASSETS

Balance Sheet Accounts

The balance sheet accounts include accounts for assets, liabilities, and fund equity, as well as the control accounts for revenue and expenditures. The balance sheet accounts also include certain budgetary and memorandum accounts. The word "budgetary" or "memorandum" has been inserted in parentheses after these accounts in the fund equity section in order to clearly distinguish them.

The following chapters present balance sheet accounts.

- Chapter 3 - Assets
- Chapter 4 - Liabilities
- Chapter 5 - Fund Equity

Asset Accounts

All asset accounts are prefaced with a “1”, (e.g. General Fund, Cash on Hand: 001-1010). Since all numbers in a range are not assigned, local units of government that wish additional detail may obtain it by using unassigned numbers. Use of the available numbers should remain logically consistent with the structure provided by the assigned numbers.

Assets Classification and Account Codes

A summary table of all asset accounts and account codes is found in Appendix B to this Manual.
Cash

1010  **Cash on Hand** - The amount of currency, checks, money orders, and bank drafts in the possession of an official or agent designated as the custodian of those funds. The account would generally be used only at year-end.

DEBIT - at year-end, with the amount of cash on hand and awaiting processing
CREDIT - when the cash is processed by the Collector and/or Treasurer

1020  **Petty Cash** - A sum of money, either in the form of currency or a special bank deposit, which is set aside to cover small purchases. At certain intervals, an itemized voucher is submitted for the amount of disbursements made from Petty Cash. The disbursements are charged to the fund or funds, which purchased the items. The total of petty cash plus unreplenished disbursements must always equal the fixed sum of cash set aside (called the imprest concept). Separate Petty Cash accounts should be set up for each fund or department that uses one.

DEBIT - when the fund is originally established, or when increased
CREDIT - when the fund is decreased, or eliminated

1040  **Cash - Unrestricted** - The balance of all demand deposit accounts in a bank or similar depository, which is immediately available for general operating activities.

DEBIT - when cash is deposited or transferred from any other general ledger cash account
CREDIT - when cash is paid or transferred to any other general ledger cash account

1060  **Cash - Restricted** - The balance of all demand deposit accounts a bank or similar depository which is restricted to one or more specific uses.

DEBIT - when cash is deposited or transferred from any other general ledger cash account
CREDIT - when cash is paid or transferred to any other general ledger cash account
Investments

Note: Many Accountants adjust the investments to reflect their market value annually. See Revenue account 4890, Gain or Loss in Investment Portfolio.

1110 Short Term Investments - The purchase price of investments.

DEBIT - with the full cost of the investment when made
CREDIT - with the original cost of the investment when redeemed

1185 Unamortized Premiums on Bonds - The unamortized portion of the amount paid for bonds over their face value. If the market value of bonds, on the date of donation, was greater than the face value, the difference would be posted to this account.

DEBIT - with the premium amount when the premium is received on the purchase of the security
- when a bond is donated with a market value greater than the face value
CREDIT - when the premium is amortized over time

1186 Unamortized Discounts on Bonds (Credit) - The unamortized portion of the amount paid for bonds less than their face value.

DEBIT - when the discount is amortized over time
CREDIT - with the discount amount when the bond is sold at less than face value
- when a bond is donated with a market value less than the face value

1190 Long Term Investments - The cost of any long-term investments purchased for investment or the market value of donated investments at the time they are donated.

DEBIT - with the initial cost (market value of donated stocks)
CREDIT - with the initial cost (market value at the time of liquidation for donated securities)

Taxes and Excises Receivable

Note: For many of these accounts, the balances should be maintained by year of levy.
1210  **Personal Property Taxes Receivable** - The uncollected amount of personal property taxes committed for collection. Separate accounts must be established by year of levy.

DEBIT - when the taxes are committed by the Assessors or when refunds are issued for overpayment
CREDIT - when payments are received or when abatements are issued

1220  **Real Estate Taxes Receivable** - The uncollected amount of real estate taxes committed for collection. Separate accounts must be established by year of levy.

DEBIT - when the taxes are committed by the Assessors
- when refunds are issued for overpayments
- when tax liens are rescinded
CREDIT - when payments are received
- when abatements are issued
- when tax liens are taken

1230  **Allowance for Abatements and Exemptions (Credit)** - The unused portion of amounts provided in the tax levy for abatements and exemptions. This account is also known as "Overlay." Abatements resulting in refunds should be accounted for in the same manner as overpayments of taxes. Separate accounts should be established by year of levy.

DEBIT - when abatements or exemptions are issued by the Assessors
- when the Assessors declare surplus amounts
CREDIT - when the tax rate is certified with the amount provided for abatements and exemptions
- at year end if a debit balance remains, to transfer the deficit to account 3594, Unreserved Fund Balance - Unprovided Abatements and Exemptions

1240  **Tax Liens Receivable** - The uncollected amount of real estate taxes, special assessments, and utility liens added to taxes which became delinquent and which, along with their respective interest and other charges, were transferred to liens. Separate accounts should be established by year of levy.

DEBIT - when the property involved is liened by the Collector
- when refunds are issued for overpayments
CREDIT - when payments are received
- when accounts are foreclosed
- when abatements or exemptions are granted
- when liens are disclaimed
1250 **Property Tax Receivable - Community Preservation Act** - The uncollected amount of Community Preservation Act taxes committed for collection.

DEBIT - when Community Preservation Act taxes are committed by the Assessors
CREDIT - when Community Preservation Act payments are received

1251 **Estimated Personal Property Taxes Receivable** - The uncollected amount of estimated personal property taxes committed for collection.

DEBIT - when estimated personal property taxes are committed by the Assessors
CREDIT - when payments are received

1252 **Estimated Real Estate Taxes Receivable** - The uncollected amount of estimated real estate taxes committed for collection.

DEBIT - when estimated real estate taxes are committed by the Assessors
- when taxes are billed in advance
CREDIT - when payments are received

1253 **Deferred Property Tax Receivable** - Taxes receivable from owners of real property that have entered into a tax deferral and recovery agreement with the Board of Assessors (M.G.L. Ch 59, §5).

DEBIT - annually, with the amount of the taxes for the properties covered by such agreements
CREDIT - when recovery is made (normally, when a property is sold or ownership is otherwise transferred)

1254 **Taxes Receivable in Litigation** - The uncollected amount of real estate and personal property taxes, which are the subject of court action.

DEBIT - when the suit is filed with the full amount of the taxes, interest, and charges owed
- when refunds are issued for overpayment
CREDIT - when payments are received
- when abatements are issued
1255  **Unbilled Real and Personal Property Taxes Receivable** - The estimated unbilled property taxes receivable at year-end. This is a temporary asset account to be used in those cases where a community has not had its tax rate approved by year-end.

DEBIT - at year end in the amount of the estimated property tax levy
CREDIT - when the actual levy is committed

1260  **Motor Vehicle Excise Receivable** - The uncollected amount of motor vehicle excise committed for collection. Separate accounts should be established by year of levy.

DEBIT - when the excises are committed by the Assessors
- when refunds are issued for overpayments
CREDIT - when payments are received or when abatements are issued

1270  **Boat Excise Receivable** - The uncollected amount of boat excise committed for collection. Separate accounts should be established by year of levy.

DEBIT - when the excise is committed by the Assessors
- when refunds are issued for overpayments
CREDIT - when payments are received
- when abatements are issued

1280  **Farm Animal Excise Receivable** - The uncollected amount of farm animal excise committed for collection. Separate accounts should be established by year of levy.

DEBIT - when the tax is committed by the Assessors
- when refunds are issued for overpayments
CREDIT - when payments are received
- when abatements are issued

1290  ** Classified Forestlands Tax Receivable** - The uncollected amount of classified forestland tax committed for collection. Separate accounts should be established by year of levy.

DEBIT - when the tax is committed by the Assessors
- when refunds are issued for overpayments
CREDIT - when payments are received
- when abatements are issued
1299 Allowance for Uncollectible Excises (Credit) - The portion of net excises receivable (the total of accounts 1260 through 1298) which are estimated to be uncollectible. This account is a valuation account which is necessary for proper financial statement presentation and is set up at the time of closing and reversed in the subsequent period.

DEBIT - when the original entry is reversed to open the subsequent period
CREDIT - at period end with the estimated uncollectible excises

Accounts Receivable

1310 User Charges Receivable - Amounts owed to the local unit for services provided directly to users. Typically, they will be used primarily by Enterprise Funds. Most local units should use a single account (e.g., 1310) with segregation provided by fund.

DEBIT - when the bills are committed by the responsible official(s)
- when refunds are issued for overpayments
CREDIT - when payments are received
- when abatements are issued
- when delinquent amounts are transferred to Utility Liens Added to Taxes

1320 Other Service Receivables - The amount of any other municipal service receivables which have become due but have not yet been collected or abated and which are neither direct user charges nor departmental receivables.

DEBIT - when the bills are committed by the responsible official(s)
- when refunds are issued for overpayments
CREDIT - when payments are received
- when delinquent accounts are abated
- when delinquent amounts are transferred to Utility Liens Added to Taxes

1330 Utility Liens Added to Taxes - The amount of unpaid utility billings, which have become delinquent and have therefore been added to taxes. Separate accounts should be established by year of levy.

DEBIT - when delinquent amounts are added to taxes
- when refunds are issued for overpayments
CREDIT - when payments are received
- when abatements are issued
- when delinquent amounts are transferred to Tax Liens Receivable
1340 **Departmental Receivables** - The uncollected amount of any departmental receivables, other than those pertaining to Enterprise Funds, committed to the Collector by the various departments for collection. Separate accounts would normally be established by department.

DEBIT - when the bills are committed by the responsible official(s)
- when refunds are issued for overpayments
CREDIT - when payments are received
- when delinquent accounts are abated

1399 **Allowance for Uncollectible Receivables (Credit)** - The portion of accounts receivable (the total of accounts 1300 through 1398) which are estimated to be uncollectible. This account is a valuation account which is necessary for proper financial statement presentation and is set up at the time of closing and reversed in the subsequent period.

DEBIT - when the original entry is reversed to open the subsequent period
CREDIT - at period end with the estimated uncollectible amounts

**Special Assessments Receivable**

Note: For many of these accounts, the balances should be maintained by year of levy.

1410 **Unapportioned Special Assessments** - The costs incurred on completed special projects that have been assessed to the benefited taxpayers and which have not yet been paid, abated, suspended, deferred or apportioned.

DEBIT - when committed by the Assessors
- when refunds are issued for overpayments
CREDIT - when payments are received
- when assessments are apportioned, suspended, or deferred
- when abatements are issued

1420 **Apportioned Assessments Added to Taxes** - The uncollected amount of apportioned or suspended assessments that have become due and added to taxes. Separate accounts should be established by year of levy.

DEBIT - when committed by the Assessors
- when refunds are issued for overpayment
CREDIT - when payments are received
- when abatements are issued
- when delinquent accounts are transferred to Special Assessments Tax Lien
1430  **Committed Interest Added to Taxes** - The interest committed for collection on special assessments. Separate accounts should be established by year of levy.

DEBIT - when committed by the Assessors
- when refunds are issued for overpayment
CREDIT - when payments are received
- when abatements are issued
- when delinquent accounts are transferred to Special Assessments Tax Lien

1440  **Apportioned Assessments, Not Yet Due** - The amounts of unapportioned assessments that have been apportioned or deferred over a series of future years in accordance with M.G.L. Ch. 80, §13. They should be segregated by the year due and by project.

DEBIT - when apportioned by the Assessors
CREDIT - when committed for collection in the current fiscal year
- when abatements are issued
- when apportioned assessments paid in advance are allocated to the current fiscal year

1460  **Suspended Assessments** - The amount of unapportioned assessments that have been suspended or deferred to a specific future year. They should be segregated by the year due and by project.

DEBIT - when the unapportioned assessments are suspended
CREDIT - when suspended assessments are committed for collection
- when payments are received
- when abatements are issued

1470  **Special Assessments Tax Liens** - Liened special assessments including interest and penalties.

DEBIT - when liens are taken
CREDIT - when payments are received
- when liens are disclaimed
1499  **Allowance for Uncollectible Special Assessments** - The portion of net special assessments receivable (the total of accounts 1410 through 1498) which are estimated to be uncollectible. This account is a valuation account which is necessary for proper financial statement presentation and is set up at the time of closing and reversed in the subsequent period.

DEBIT - when the original entry is reversed to open the subsequent period
CREDIT - at period end with the estimated uncollectible special assessments

**Notes Receivable**

1510  **Notes Receivable** - An unconditional written promise signed by the maker, to pay a certain sum in money on demand or at a fixed or determinable future time either to the bearer or to the order of a person designated therein. Notes receivable may be held by a government as designated payee or by endorsement.

DEBIT - when the note is accepted
CREDIT - when payments are received

**Accrued Interest Receivable**

1550  **Accrued Interest Receivable** - The amount of interest on any investment or bank account, which has been earned but has not yet been received. The accrual is normally calculated and recorded only at fiscal year end for financial reporting, but may also be done for interim reporting.

DEBIT - at period end with the amount accrued
CREDIT - when the original entry is reversed to open the subsequent period
-when the interest is actually received

**Due from Other Funds**

Note: If separate “Due Froms” are desired for each Proprietary Fund, they should be numbered 1660 through 1679. “Due Froms” are used most frequently by local units who have “Pooled Cash” or “Central Depository” accounts.
1601 Due From General Fund - Amounts owed to the fund by the General Fund. The interfund receivable may arise as the result of advances made, services rendered, operating transfers or subsidies due. An equal offsetting liability must exist in the General Fund.

DEBIT - when the underlying transaction is authorized or approved
CREDIT - when payments are received from the General Fund

1610 Due From Special Revenue Funds - Amounts owed to the fund by any Special Revenue Funds. The interfund receivable may arise as the result of services rendered or operating transfers due. An equal offsetting liability must exist in the appropriate Special Revenue Fund.

DEBIT - when the underlying transaction is authorized or approved
CREDIT - when payments are received from the Special Revenue Funds

1630 Due From Capital Projects Funds - Amounts owed to the fund by any of the Capital Projects Funds. The interfund receivable may arise as the result of services rendered or operating transfers due. An equal offsetting liability must exist in the appropriate Capital Projects Fund.

DEBIT - when the underlying transaction is authorized or approved
CREDIT - when payments are received from the Capital Projects Funds

1660 Due From Proprietary Funds - Amounts owed to the fund by any of the Proprietary Funds. The interfund receivable may arise as the result of services rendered, or operating transfers due. An equal offsetting liability must exist in the appropriate Proprietary Fund.

DEBIT - when the underlying transaction is authorized or approved
CREDIT - when payments are received from the Proprietary Funds

1680 Due From Permanent, Private Purpose Trust, Pension and Agency Funds - Amounts owed to the fund by any of the Permanent, Private Purpose Trust and Agency Funds. The interfund receivable may arise as the result of services rendered, or operating transfers due. An equal offsetting liability must exist in the appropriate Permanent, Private Purpose and Agency Fund.

DEBIT - when the underlying transaction is authorized or approved
CREDIT - when payments are received from the Permanent, Private Purpose Trust and Agency Funds
Due from Other Governments

1710  **Due From Federal Government** - Amounts due from the federal government for grants, contributions, shared revenue, services rendered, or other monetary transfers to the local unit of government.

   DEBIT - when grants are awarded by the federal government
   - when non-grant amounts due from the federal government are recognized
   - when increases in grant awards or other amounts due are recognized
   CREDIT - when payments are received
   - when decreases in grant awards or other amounts due are recognized

1720  **Due From Commonwealth of Massachusetts** - Amounts due from the Commonwealth for grants, contributions, shared revenue, services rendered, or other monetary transfers to the local government. This account would be used for School Building Assistance (SBA) payments. Payments due during the current fiscal year should be segregated from payments due in future years.

   DEBIT - when grants are awarded by the Commonwealth
   - when non-grant amounts due from the Commonwealth are recognized
   - when increases in grant awards or other amounts due are recognized
   CREDIT - when payments are received
   - when decreases in grant awards or other amounts due are recognized

1730  **Due From County** - The balance of this account reflects amounts due from a county for grants, contributions of capital, shared revenue, services rendered, or other monetary transfers to the local government.

   DEBIT - when grants are awarded by the county
   - when non-grant amounts due from the county are recognized
   - when increases in grant awards or other amounts due are recognized
   CREDIT - when payments are received
   - when decreases in grant awards or other amounts due are recognized
1740 Due From Municipalities - This account is most frequently used by regional organizations such as school districts. It is also used by municipalities, which provide shared services such as a health officer. Its balance reflects amounts due from assessments, grants, contributions of capital, shared revenue, services rendered, or other monetary transfers.

DEBIT - when non-grant amounts due from municipalities are recognized
- when increases in amounts due are recognized
CREDIT - when payments are received
- when decreases in amounts due are recognized

1790 Due From Other Government Units - Amounts due from other governmental units not included above. This account is also used when the volume of transactions is so minimal that it is not necessary to create separate accounts.

DEBIT - when grants are awarded by the other government units
- when non-grant amounts due from the other government units are recognized
- when increases in grant awards or other amounts due are recognized
CREDIT - when payments are received
- when decreases in grant awards or other amounts due are recognized

Other Assets

1810 Inventories for Consumption - The cost of items purchased for ordinary maintenance or supply functions that have not been charged to a specific job, project, department, or other expense account.

DEBIT - when inventory items are purchased
CREDIT - when the items are used or otherwise removed from inventory

1830 Inventories for Resale - The cost of items which have been purchased with the intent to resell rather than for use in local operations. Typically, this account will be used in educational, recreational, and enterprise activities.

DEBIT - when inventory items are purchased
CREDIT - when the items are sold or otherwise removed from inventory
1850 **Prepaid Expenses** - Amount of expenditures made for benefits not yet received. Prepaid expenses include such items as rents paid in advance, prepaid interest, and unexpired insurance premium.

DEBIT - when the disbursement is made  
CREDIT - when the prepaid expenses are amortized at period end

1860 **Travel and Payroll Advances** - The amount of travel and payroll advances made to employees.

DEBIT - when the funds are advanced  
CREDIT - when the funds are repaid. For travel advance the amount of the advance will be deducted from any amount due to the employee.  
- when a travel voucher is submitted if the advance exceeds the actual travel reimbursement

1870 **Deposits** - To record any deposits which must be made by the local unit of government to vendors who require guarantee deposits. For example, some utilities and insurance companies require deposits.

DEBIT - when the deposit is made  
CREDIT - when the deposit is returned or forfeited

1880 **Tax Foreclosures** - The balance of taxes, interest and fees on properties which have been foreclosed for non-payment of taxes.

DEBIT - when the foreclosure documents are filed with the amount of tax liens, interest, and fees due  
CREDIT - when the foreclosed property is sold with the amount due  
- when a foreclosure is disclaimed

1890 **Other Assets** - For miscellaneous assets not detailed elsewhere in the asset section of the Chart of Accounts.

DEBIT - when the asset is acquired  
CREDIT - when the asset is used or disposed
Restricted Assets

This subheading is used for financial reporting only. As a result, no numbers are reserved for it in the Chart of Accounts.

Property, Plant and Equipment

1910  Land - The cost of purchase, or fair market value at the date of receipt if acquired by gift, of all land acquired by the unit. Land cost includes legal fees, land surface leveling, debris removal, and other costs necessary to place the land in service.

DEBIT - with the cost of acquisition, or fair market value if acquired by gift
CREDIT - with the recorded value of any land when sold or otherwise disposed of

1920  Buildings - The cost of purchase or construction, or fair market value at the date of receipt if acquired by gift, of all buildings placed in use. Building costs include architectural fees and interest expenditures during the construction period in addition to the cost of all fixtures attached to and forming a permanent part of such buildings.

DEBIT - with the cost of acquisition or construction, or fair market value if acquired by gift
CREDIT - with the recorded value of any buildings sold or otherwise disposed of

1929  Accumulated Depreciation - Buildings (Credit) - The depreciation accumulated to date on buildings.

DEBIT - with the accumulated balance for any buildings sold or otherwise disposed of
CREDIT - with the annual provision for depreciation on buildings

1930  Plant - The costs of all structures, either constructed or purchased, or if acquired by gift, the fair market value, at the date of receipt, which are not properly classified to buildings (water treatment plants, pumping stations, electricity generating facilities).
DEBIT - with the cost of acquisition or construction, or fair market value, if acquired by gift
CREDIT - with the recorded value of any plants sold or otherwise disposed of

1939 Accumulated Depreciation - Plant (Credit) - The depreciation accumulated to date on plants.

DEBIT - with the balance accumulated to date on any plant sold or otherwise disposed of
CREDIT - with the annual provision for depreciation on plant

1940 Machinery and Equipment - The cost of purchase, or fair market value at the date of receipt, if acquired by gift, of major items of equipment acquired by the unit. Machinery and equipment cost includes the cost of installation.

DEBIT - with the cost of acquisition or construction, or fair market value, if acquired by gift
CREDIT - with the recorded value of such equipment sold or otherwise disposed of

1949 Accumulated Depreciation - Machinery and Equipment (Credit) - The depreciation accumulated to date on machinery and equipment.

DEBIT - with the accumulated balance for any machinery and equipment sold or otherwise disposed of
CREDIT - with the annual provision for depreciation on machinery and equipment

1950 Construction in Progress - The cost of construction work undertaken, but not yet completed. When a project is completed, its cost is transferred from this account to the applicable fixed asset accounts.

DEBIT - with the cost incurred on construction projects started but not completed
CREDIT - with the completed cost of the project when the assets are transferred to the appropriate fixed asset account

Amounts to be Provided

This subheading is used only in the General Long-Term Obligation Account Group (although GASB 34 eliminates this group, these accounts are provided if the Accountant/Auditor wants to account for these amounts) and includes:
1991 **Amounts to be Provided for Judgments and Claims Payable** - The amount to be provided from future financial resources for the payments of judgments and claims.

- **DEBIT** - when the amount of the judgment or claim can be reasonably estimated as to amount and ultimate payment
  - at year-end for any increase in the liability
- **CREDIT** - at year end for any decrease in the liability

1992 **Amounts to be Provided for Accrued Sick, Vacation and Other Compensated Absences** - The amount to be provided from future financial resources for the payments of accrued sick, vacations and other compensated absences.

- **DEBIT** - when the amount of liability for accrued sick, vacation, and other compensated absences is recorded
  - at year end for any increase in the liability
- **CREDIT** - at year end for any decrease in the liability

1993 **Amounts to be Provided for Accrued Retirement Costs** - The amount to be provided from future financial resources for the payments of retirement costs.

- **DEBIT** - when the amount of liability for accrued retirement cost is recorded
  - at year end for any increase in the liability
- **CREDIT** - at year end for any decrease in the liability

1994 **Amounts to be Provided for Payment of Bond Anticipation Notes Payable** - The amount of temporary borrowings in anticipation of bonds for which all legal steps have been taken to permanently refinance.

- **DEBIT** - when the bond anticipation note payable is issued
- **CREDIT** - when the permanent borrowing is issued

1995 **Amounts to be Provided for Payment of Capitalized Leases** - The amount to be provided from future financial resources for the payments of capitalized leases.

- **DEBIT** - when the amount to be capitalized is determined at the inception of the lease
- **CREDIT** - when installment payments are made
1996 **Amounts to be Provided for Payment of Bonds** - The amount which must be provided from taxes or other revenue to pay the principal on outstanding debt reflected in the General Long-Term Obligations Group of Accounts.

DEBIT - when the debt is issued, with the principal amount  
CREDIT - at the start of the year, with amounts raised in the tax levy for payment of principal on long-term debt  
- when any long-term debt not yet due is retired

1997 **Amounts to be Provided, State (Ch. 70B)** - This account represents the balance of amounts due from the Commonwealth of Massachusetts for reimbursement of school project construction costs to be utilized in the repayment of principal.

DEBIT - when bonds are issued, with the distribution agreed to by the Commonwealth  
CREDIT - when amounts are received from the Commonwealth
CHAPTER 4 - LIABILITIES

Liability Accounts

All liability accounts are prefaced with a “2”, (e.g. General Fund, Warrants and Accounts Payable 001-2010). Since all numbers in a range are not assigned, local units of government that wish additional detail may obtain it by using unassigned numbers. Use of the available numbers should remain logically consistent with the structure provided by the assigned numbers.

A summary table of all liability accounts and account codes is found in Appendix C to this Manual.

Warrants and Accounts Payable

2010 Warrants Payable - Amounts owed for goods and services received which have been reviewed, approved for payment, and entered on a disbursement warrant, but which have not yet been disbursed.

DEBIT - when the approved disbursement warrants are paid
CREDIT - when the warrant is approved
2020 Accounts Payable - Approved amounts owed to outside vendors for goods and services received by the local unit of government which have not yet been entered on an approved warrant. It is typically used at period end only.

DEBIT - when approved vouchers are entered on an approved disbursement warrant
CREDIT - with invoices reviewed and fully approved for payment

2050 Contracts Payable, Retained Percentage - A portion of amounts billed on construction contracts which have not been paid pending final inspection and approval of the project. A town (but not a city or town with a town council form of government) may adopt by local option to allow Planning Boards with the Selectmen’s approval to expend up to $100,000 of this account without prior appropriation to complete the unfinished work of the contractor.

DEBIT - when the retainage is paid
- when a final legal decision is made to not pay the retainage due to contractor failure to perform
CREDIT - when a contractor's invoice is approved with the amount to be retained

Accrued Payroll and Amounts Withheld

2110 Accrued Payrolls Payable - Amounts owed to employees for work recorded and approved on payroll input documents for the current period, but which have not been recorded on approved warrants for that same period. Normally, this account would be used only at year-end.

DEBIT - when the payroll is warranted or when the entry is reversed
CREDIT - when the estimated payroll is recorded and approved

2120 Federal Income Tax Withholdings Payable - The amounts withheld from employees’ payrolls for federal income tax which have not as yet been remitted to the federal government.

DEBIT - when the withholdings are remitted
CREDIT - when the withholdings are reported on the Treasurer's Report of Receipt of Cash
2130  **State Income Tax Withholdings Payable** - The amounts withheld from employees, payrolls for state income tax which have not as yet been remitted to the Commonwealth.

DEBIT - when the withholdings are remitted
CREDIT - when the withholdings are reported on the Treasurer's Report of Receipt of Cash

2140  **Retirement Withholdings Payable** - The amounts withheld from employees' payrolls for employee retirement contributions, which have not as yet been remitted to a retirement fund or other custodians of such funds.

DEBIT - when the withholdings are remitted
CREDIT - when the withholdings are reported on the Treasurer's Report of Receipt of Cash

2150  **Insurance Withholdings Payable** - The amounts withheld from employees' payrolls for insurance premiums, which have not as yet been remitted to the insurer.

DEBIT - when the withholdings are remitted
CREDIT - when the withholdings are reported on the Treasurer's Report of Receipt of Cash

2160  **Charitable Contributions Withholdings Payable** - The amounts withheld from employees, payrolls for charitable contributions, which have not as yet been remitted to the designated charity or charities.

DEBIT - when the withholdings are remitted
CREDIT - when the withholdings are reported on the Treasurer's Report of Receipt of Cash

2170  **Union Dues Withholdings Payable** - The amounts withheld from employees' payrolls for union dues, which have not as yet been remitted to the various unions.

DEBIT - when the withholdings are remitted
CREDIT - when the withholdings are reported on the Treasurer's Report of Receipt of Cash
2180 Employee Savings Withholdings Payable - The amounts withheld from employees' payrolls for savings plans, which have not as yet been remitted to the appropriate financial institution.

DEBIT - when the withholdings are remitted
CREDIT - when the withholdings are reported on the Treasurer's Report of Receipt of Cash

2190 Other Payroll Withholdings Payable - The amounts withheld from employees' payrolls which have not as yet been remitted to the appropriate agency and which are not properly classified to any of the above accounts.

DEBIT - when the withholdings are remitted
CREDIT - when the withholdings are reported on the Treasurer's Report of Receipt of Cash

Accrued Liabilities

2210 Accrued Judgments Payable - Judgments and claims against the local unit which are probable of resulting in losses that can be reasonably estimated.

DEBIT - when the item is actually presented for payment
CREDIT - when the amount of the judgment or claim can be reasonably estimated as to amount and ultimate payment

2220 Accrued Liabilities - Expenses which have been incurred but have not yet been vouchered or warranted. Amounts accrued as of the end of a period for the employer's share of payroll taxes, interest and related amounts would be recorded in the account.

DEBIT - when the expenses accrued are vouchered or warranted
CREDIT - at period end with the amount of expense incurred

2230 Accrued Sick, Vacation and Compensated Absences - The accumulated value of vacation, sick leave and other compensated absences which have been earned and vested.

DEBIT - at year end with any decrease to the liability
CREDIT - when the amount of liability for accrued sick, vacation, and other compensated absences is recorded
- at year-end with any increases in the liability
2240 **Accrued Retirement Costs** - The accumulated value of retirement costs, which have been earned and vested.

DEBIT - at year end with any decrease to the liability
CREDIT - when the amount of the liability for accrued retirement costs is recorded at year end with any increases in the liability

**Due to Other Funds**

2301 **Due To General Fund** - Amounts owed to the General Fund. The interfund payable may arise as the result of advances made, services received or operating transfers due. An equal offsetting asset must exist in the General Fund.

DEBIT - when the debt is repaid to the General Fund
CREDIT - when the underlying transaction is authorized or approved

2310 **Due To Special Revenue Funds** - Amounts owed to any of the Special Revenue Funds. The interfund payable may arise as the result of services received, or operating transfers due. An equal offsetting asset must exist in the appropriate Special Revenue Fund.

DEBIT - when the debt is repaid to the Special Revenue Fund
CREDIT - when the underlying transaction is authorized or approved

2330 **Due To Capital Projects Funds** - Amounts owed to any of the Capital Projects Funds. The interfund payable may arise as the result of services received, or operating transfers due. An equal offsetting asset must exist in the appropriate Capital Projects Fund.

DEBIT - when the debt is repaid to the Capital Projects Fund
CREDIT - when the underlying transaction is authorized or approved

2350 **Due to Permanent Funds** - Amounts owed to any of the Permanent Funds. The interfund payable may arise as a result of services received, operating transfers, or subsidy due. An equal offsetting asset must exist in the appropriate Permanent Fund.

DEBIT - when the debt is repaid to the Permanent Fund
CREDIT - when the underlying transaction is authorized or approved
2360 Due To Proprietary Funds - Amounts owed to any Proprietary Fund. The interfund payable may arise as the result of services received, operating transfers, or subsidy due. An equal offsetting asset must exist in the appropriate Proprietary Fund.

DEBIT - when the debt is repaid to the Proprietary Fund
CREDIT - when the underlying transaction is authorized or approved

2380 Due To Private Purpose Trust, Pension and Agency Funds - Amounts owed to any of the Private Purpose Trust, Pension and Agency Funds. The interfund payable may arise as the result of services received, or operating transfers due. An equal offsetting asset must exist in the appropriate Trust and Agency Fund.

DEBIT - when the debt is repaid to the Private Purpose Trust, Pension and Agency Fund
CREDIT - when the underlying transaction is authorized or approved

Due to Other Governments

2410 Due To Federal Government - Amounts due to the federal government for services rendered.

DEBIT - when the amounts owed are paid to the federal government
CREDIT - when the service is rendered

2420 Due To Commonwealth of Massachusetts - Amounts due to the Commonwealth by the local unit for services rendered or fees collected, not payroll withholdings. For example, the state Wildlife Fund.

DEBIT - when the amounts owed are paid to the Commonwealth
CREDIT - when the service is rendered
  - when the fee is collected

2430 Due To County - Amounts due to the county by the local unit for services rendered or fees collected.

DEBIT - when the amounts owed are paid to the county
CREDIT - when the service is rendered
  - when the fee is collected
2440 **Due To Municipalities** - Amounts due to municipalities by the local unit for services rendered or taxes collected.

DEBIT - when the amounts owed are paid to municipalities  
CREDIT - when the service is rendered  
- when the tax is collected

2490 **Due To Other Governmental Units** - Amounts due to other governmental units (e.g., a regional school district) for services rendered or taxes collected, other than payroll withholdings.

DEBIT - when the amounts owed are paid to other government units  
CREDIT - when the service is rendered  
- when the tax is collected

Other Liabilities

2510 **Undistributed Receipts** - Cash, which has been collected but not classified as of fiscal year end. This is a suspense account and should be cleared out for year-end reporting purposes.

DEBIT - when amounts received are reclassified to the appropriate accounts  
CREDIT - at year end with the amount of undistributed receipts on hand

2520 **Abandoned Property, Tailings and Unclaimed Items** - The total amount of old uncashed checks, bonds, and coupons as well as other abandoned property.

DEBIT - when the unclaimed item is redeemed  
  - when unclaimed amounts are taken into the general fund after 5 years  
  - when the abandoned property is taken in revenue under M.G.L. Ch. 200A, §9A  
CREDIT - when it becomes reasonably certain that the item will not be claimed, usually six months after the item's issue date

2530 **Excess on Sale of Land of Low Value** - The amount owed delinquent taxpayers after foreclosed property has been sold for a sum in excess of the total tax liability (tax, interest, and charges).

DEBIT - when the excess amount is paid to the former owner  
  - when the excess amount is recognized as revenue in accordance with the provisions of law  
CREDIT - when the foreclosed property is sold with the amount of proceeds in excess of the tax liability

31
2550 Deposits Held to Guarantee Payment - Guarantee deposits received by the local unit of government (e.g. consumer deposits to guarantee payment of utility bills).

DEBIT - when the deposit is returned
- when the deposit is forfeited
CREDIT - when the guarantee deposit is reported on the Treasurer's Cash Receipts

2580 Other Liabilities - Miscellaneous other liabilities which are not properly classified to any of the above accounts.

DEBIT - when the liability is relieved
CREDIT - when the liability is incurred

Matured Debt and Interest Payable

2590 Matured Debt and Interest Payable - Debt and interest that has matured and not been redeemed at year-end or at an interim date.

DEBIT - at the beginning of the subsequent period to reverse the original entry
CREDIT - at period end with the amount of matured debt and interest unredeemed

Deferred Revenue

Deferred revenues are for assets for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable but not available. To segregate intergovernmental deferred revenue, accounts 2670 through 2679 should be used.
2610  **Deferred Revenue - Real and Personal Property Taxes** - Deferred revenue account for accounts 1210 through 1239. It is also the deferred revenue account for estimated taxes (accounts 1251 and 1252), Deferred Property Taxes (1253), Taxes in Litigation (1254), and Unbilled Property Taxes (1255). Detail should be maintained by year of levy.

DEBIT - when the tax rate is certified with the amount provided for abatements and exemptions
- when payments are received
- when the related receivables are reclassified or abated
- when the estimated tax bill entry is reversed
- when estimated uncollectible amounts are recorded at period end
- when the allowances for abatements and exemptions is insufficient and a deficit must be raised

CREDIT - when the taxes are committed
- when estimated tax bills are issued
- when omitted assessments are reported
- when estimated uncollectible entries are reversed
- when a surplus in the allowance for abatements and exemptions is declared by the Assessors
- when refunds are issued for overpayments

2622  **Deferred Revenue - Tax Liens** - Deferred revenue account for account 1240, Tax Liens Receivable.

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at period end

CREDIT - when tax liens are issued
- when estimated uncollectible entries are reversed
- when refunds are issued for overpayments

2623  **Deferred Revenue - Tax Foreclosures** - Deferred revenue account for account 1880, Tax Foreclosures.

DEBIT - when the property is sold with the amount due
- when the related receivables are reclassified or disclaimed
- when estimated uncollectible amounts are recorded at period end

CREDIT - when properties are foreclosed
- when estimated uncollectible entries are reversed

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at fiscal year-end
CREDIT - when commitments are made
- when overpayments are refunded
- when estimated uncollectible entries are reversed

2630  Deferred Revenue - Motor Vehicle Excise - Deferred revenue account for accounts 1260 through 1269, Motor Vehicle Excise Receivable.

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at period end
CREDIT - when commitments are made
- when overpayments are refunded
- when estimated uncollectible entries are reversed

2641  Deferred Revenue - Boat Excise - Deferred revenue account for accounts 1270 through 1279, Boat Excise Receivable.

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at period end
CREDIT - when commitments are made
- when overpayments are refunded
- when estimated uncollectible entries are reversed

2642  Deferred Revenue - Farm Animal Excise - Deferred revenue account for accounts 1280 through 1289, Farm Animal Excise Receivable.

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at period end
CREDIT - when commitments are made
- when overpayments are refunded
- when estimated uncollectible entries are reversed
2643  Deferred Revenue - Classified Forestlands - Deferred revenue account for accounts 1290 through 1298, Classified Forestlands Tax Receivable.

   DEBIT - when payments are received
   - when the related receivables are reclassified or abated
   - when estimated uncollectible amounts are recorded at period end
   CREDIT - when commitments are made
   - when overpayments are refunded
   - when estimated uncollectible entries are reversed

2651  Deferred Revenue - User Charges - Deferred revenue account for accounts 1310 through 1319, User Charges Receivable.

   DEBIT - when payments are received
   - when the related receivables are reclassified or abated
   - when estimated uncollectible amounts are recorded at period end
   CREDIT - when commitments are made
   - when overpayments are refunded
   - when estimated uncollectible entries are reversed

2652  Deferred Revenue - Other Services - Deferred revenue account for accounts 1320 through 1329, Other Service Receivables.

   DEBIT - when payments are received
   - when the related receivables are reclassified or abated
   - when estimated uncollectible amounts are recorded at period end
   CREDIT - when commitments are made
   - when overpayments are refunded
   - when estimated uncollectible entries are reversed

2653  Deferred Revenue - Utility Liens - Deferred revenue account for accounts 1330 through 1339, Utility Liens Added to Taxes.

   DEBIT - when payments are received
   - when the related receivables are reclassified or abated
   - when estimated uncollectible amounts are recorded at period end
   CREDIT - when commitments are made
   - when overpayments are refunded
   - when estimated uncollectible entries are reversed
2654 **Deferred Revenue - Departmental** - Deferred revenue account for accounts 1340 through 1398, Departmental Receivables.

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at period end
CREDIT - when commitments are made
- when overpayments are refunded
- when estimated uncollectible entries are reversed

2660 **Deferred Revenue - Special Assessments** - Deferred revenue account for all of the special assessment accounts receivable 1410 through 1498.

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at period end
CREDIT - when commitments are made
- when overpayments are refunded
- when estimated uncollectible entries are reversed

2670 **Deferred Revenue - Intergovernmental** - Deferred revenue account for accounts 1700 through 1799, Due from Other Governments.

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at period end
CREDIT - when amounts are billed to the grantor
- when overpayments are refunded
- when estimated uncollectible entries are reversed

2680 **Deferred Revenue - Other** - Deferred revenue account for any other account deferred.

DEBIT - when payments are received
- when the related receivables are reclassified or abated
- when estimated uncollectible amounts are recorded at period end
CREDIT - when amounts are billed
- when overpayments are refunded
- when estimated uncollectible entries are reversed
Notes Payable

If multiple Revenue Anticipation Notes Payable accounts are desired, they should be numbered 2710 through 2719.

2710 Revenue or Tax Anticipation Notes Payable - (RANS or TANS) - Amounts owed to banks or other lenders for funds borrowed in anticipation of revenue by a city or in anticipation of taxes by a town.

DEBIT - when the note is repaid
CREDIT - when the note is issued

2720 Bond Anticipation Notes Payable - (BANS) - Amounts owed to banks or other lenders for funds borrowed in anticipation of a bond issue.

DEBIT - when the note is repaid
CREDIT - when the note is issued

2730 Grant Anticipation Notes Payable - (GANS) - Amounts owed to banks or other lenders for funds borrowed in anticipation of reimbursement from federal or state grants.

DEBIT - when the note is repaid
CREDIT - when the note is issued

2790 Other Notes Payable - Amounts owed to banks or other lenders for funds borrowed which do not qualify under any other note payable accounts.

DEBIT - when the note is repaid
CREDIT - when the note is issued

Capitalized Lease Obligations

2810 Capitalized Lease Obligations - The present value of the minimum lease payments during the lease’s term.

DEBIT - when installment payments are made
CREDIT - when the amount to be capitalized is determined at the inception of the lease
Bonds Payable

2900 **Bonds Payable, Inside Debt Limit** - The unpaid portion of serial bond issues which, when issued, were classified as chargeable to the governmental unit's inside debt limit. A separate account should be established for each bond issue. Reporting will be simplified if account numbers are assigned as follows:

2900 to 2907  Sewer (M.G.L., Ch. 44, Sect. 7 (1 and 1A))
2908 to 2911  Street and Sidewalk (M.G.L., Ch. 44, Sect. 7 (4, 5, 6, 7, and 30))
2912 to 2915  Land Acquisition and Public Buildings (M.C.L., Ch. 44, Sect. 7 (3, 3A, 10, 21, and 22))
2916 to 2919  Removal of Asbestos (M.G.L., Ch. 44, Sect. 7 (31))
2920 to 2923  Parks and Recreation (M.G.L., Ch. 44, Sect. 7 (2, 2A, 2B, 23, 25, and 27))
2924 to 2927  Cemeteries (M.G.L., Ch. 44, Sect. 7 (8 and 20))
2928 to 2931  Energy Conservation (M.G.L., Ch. 44, Sect. 7 (3B and 26))
2932 to 2935  Departmental Equipment (M.G.L., Ch. 44, Sect. 7 (9, 9A, 28, and 29))
2936 to 2939  Other (M.G.L., Ch. 44, Sect. 7 (11, 13, 14, 15, 16, 17, 18, and 19))

**DEBIT** - when the outstanding principal comes due and is paid
**CREDIT** - when the proceeds are received with the face amount of the debt issue
2940 **Bonds Payable, Outside Debt Limit** - The unpaid portion of serial bond issues which, when issued, were classified as outside the debt limit. A separate account should be established for each bond issue. Reporting will be simplified if account numbers are assigned as follows:

- **2940 to 2943** School construction, including school buildings (M.G.L. Ch. 70B) and bonds issued under the School Building Authority.
- **2944 to 2947** Sewer Treatment Plants (M.G.L., Ch. 44, §8 (15))
- **2948 to 2951** Water (M.G.L., Ch. 44, §8 (3, 3A, 4, 4A, 5, 6, 7, 7A, 7B, 7C)
- **2960 to 2963** Sanitation (M.G.L., Ch. 44, §8 (18, 21, 23, 24))
- **2964 to 2967** Parks and Recreation (M.G.L., Ch. 44, §8 (16))
- **2980 to 2983** Utility Systems (M.G.L., Ch. 44, §8 (8 and 8A))
- **2984 to 2987** Airports (M.G.L., Ch. 44, §8 (13))
- **2988 to 2991** Industrial and Economic Development (M.G.L., Ch. 44, §8 (19))
- **2992 to 2994** Public Disasters and Emergencies (M.G.L., Ch. 44, §8 (2 and 9))
- **2995** Water Pollution Abatement Trust, Ch. 29C
- **2996 to 2999** Other (M.G.L., Ch 44, §8 (1, 10, 12, 14, 17, 20 and 22))

DEBIT - when the outstanding principal comes due and is paid
- when the state forgives principal if applicable and interest to the Massachusetts Water Pollution Abatement Trust
CREDIT - when the proceeds are received with the face amount of the debt issue
CHAPTER 5 - FUND EQUITY

Fund Equity Accounts

All fund equity accounts are prefaced with a “3”, (e.g. General Fund, Net Assets Restricted, 001-3010). Since all numbers in a range are not assigned, local units of government that wish additional detail may obtain it by using unassigned numbers. Use of the available numbers should remain logically consistent with the structure provided by the assigned numbers.

The accounts described in this subsection include all of the fund equity accounts. In reviewing these account descriptions, it will be helpful to recall the relationship between revenues and expenditures and fund equity. Current year activity is posted to the revenue and expenditure accounts in Fund Balance Other - Actual. At year-end, these accounts are closed to another fund balance component (reserved, unreserved - designated, or unreserved - undesignated). Other than revenues and expenditures, fund equity entries are made strictly within the fund equity section of the balance sheet. Total fund equity is thus increased or decreased only through the activity in the Fund Balance Other - Actual accounts.

The various components of fund equity are used to classify the accumulated wealth (surplus or deficit) of a local government into those portions which are generally available and those which are segregated for particular purposes. For example, action authorizing use of available funds for future construction requires reclassification of Undesignated Fund Balance to a reserved fund balance.

Fund Equity Classification and Account Codes

A summary table of all fund equity accounts and account codes is found in Appendix D to this Manual.
Net Assets

GASB 34 replaces Contributed Capital, Retained Earnings and several other accounts with a statement of Net Assets.

3001 Net Assets Invested In Capital Assets, Net of Related Debt - The amount that the local governmental unit has invested in capital assets.

DEBIT - when capital assets are retired
CREDIT - when capital assets are established

3010 Net Assets Restricted - The amount of net assets that are restricted by law or certain other actions. Separate accounts should be established for various restrictions.

DEBIT - when capital assets are returned to the original contributor
CREDIT - when capital assets are contributed to an Enterprise Fund

3015 Net Assets Unrestricted - The amount of unrestricted net assets.

DEBIT - when debits of temporary accounts exceed credits
CREDIT - when credits of temporary accounts exceed debits

Investment in General Fixed Assets

3090 Investment in General Fixed Assets - The local governmental unit's equity in general fixed assets.

DEBIT - when fixed assets are acquired
CREDIT - when fixed assets are sold or otherwise disposed of

Reserved Fund Balance

Reserved fund balance accounts represent that portion of fund balance, which is not an "available spendable resource." Reservations of fund balance are made for the following reasons:

- when the local government legally authorizes expenditure of the funds in a future period, e.g., to fund construction;
- when the funds are automatically reserved by law upon receipt, e.g., receipts reserved for appropriation;
• when the funds become otherwise unavailable for general appropriations, e.g. when they offset petty cash.

To segregate different “Special Purposes” accounts, 3280 through 3289 should be used.

3211 Fund Balance Reserved for Encumbrances - That portion of fund balance reserved for encumbrances outstanding. If a formal encumbrance system is used, it will be posted periodically throughout the year with outstanding items. If not, it will be posted at period end for financial statement purposes and then adjusted or closed out at the start of the next period.

DEBIT - when commitments are relieved by receipt of goods and services or by cancellations
- when the account's opening balance is reclassified to account 3212, Fund Balance Reserved for Prior Year Encumbrances
CREDIT - when commitments are recognized

3212 Fund Balance Reserved for Prior Year Encumbrances - That portion of fund balance reserved for outstanding encumbrances related to prior year expenditures.

DEBIT - when commitments are relieved by receipt of goods and services or by cancellations
CREDIT - when the opening balance of account 3211, Fund Balance Reserved for Encumbrances is reclassified to this account

3213 Fund Balance Reserved for Construction - That portion of fund balance reserved for future construction.

DEBIT - when the reserve is utilized
CREDIT - when amounts are reserved
3220  **Fund Balance Reserved for Overlay Released by the Assessors for Expenditures** - The unused portion of the Allowance for Abatements and Exemptions which the Assessors have been declared as excess under the provisions of M.G.L. Chapter 59, §25.

DEBIT - when amounts are voted by the Assessors to be released and are reclassified to account 3240
   - at year end, this account is closed to account 3590, Undesignated Fund Balance
CREDIT - when excess amounts are declared by the Assessors and transferred from account 1230, Allowance for Abatements and Exemptions
   - when amounts voted are not expended

3230  **Fund Balance Reserved for Assets Held for Resale** - The segregation of a portion of fund balance to indicate that assets equal to the amount of the reserve are being held for resale and are, therefore, not available for appropriation.

DEBIT - when the assets are sold or otherwise disposed of
CREDIT - when assets are obtained for resale

3240  **Fund Balance Reserved for Expenditures** - The amount of available funds ("free cash") authorized to fund appropriations. This account will help identify the amount of available funds authorized during a fiscal year.

DEBIT - at year-end, for the total amount authorized to be expended during the current year
CREDIT - when available funds are authorized

3241  **Fund Balance Reserved for Open Space** - The amount reserved of Community Preservation Fund for open space acquisition.

DEBIT - when funds are expended
   - when authorization is rescinded
CREDIT - when funds are authorized

3242  **Fund Balance Reserved for Historic Resources** - The amount reserved of Community Preservation Fund for historic resources.

DEBIT - when funds are expended
   - when authorization is rescinded
CREDIT - when funds are authorized
3243 **Fund Balance Reserved for Community Housing** - The amount reserved of Community Preservation Fund for Community Housing.

- **DEBIT** - when funds are expended
  - when authorization is rescinded
- **CREDIT** - when funds are authorized

3250 **Fund Balance Reserved for Petty Cash** - The amount of fund balance utilized for a petty cash account.

- **DEBIT** - when a petty cash account balance is decreased
  - when a petty cash account is eliminated
- **CREDIT** - when a petty cash account is established
  - when a petty cash account balance is increased

3260 **Fund Balance Reserved for Inventories** - The segregation of a portion of fund balance to indicate that assets equal to the amount of the reserve are invested in inventories for consumption and are, therefore, not available for appropriation.

- **DEBIT** - when the inventory is used or otherwise disposed of
- **CREDIT** - when the inventory is acquired

3270 **Fund Balance Reserved for Debt Service** - The segregation of a portion of fund balance to indicate that funds have been received to retire future debt and interest but not yet disbursed. This fund balance would include SBA payments received for which the related debt service has not yet been paid.

- **DEBIT** - when amounts are utilized for payment of maturing debt and interest
- **CREDIT** - when amounts are reserved

3280 **Fund Balance Reserved for Special Purposes** - The amount of fund balance set aside for other, specifically identified purposes not covered elsewhere.

- **DEBIT** - when the reserve is utilized
- **CREDIT** - when amounts are reserved for special purposes
3291  **Fund Balance Reserved for Endowment** - The amount of fund balance set aside for fund balances legally restricted to endowment purposes.

DEBIT - when the reserve is utilized  
CREDIT - when amounts are reserved

3292  **Fund Balance Reserved for Employee Retirement** - The funds accumulated in the Pension Fund for the purpose of offsetting the anticipated future cost of funding for the contributory retirement system.

DEBIT - when amounts are authorized to fund pension obligations  
CREDIT - when amounts are reserved

3293  **Fund Balance Reserved for Advances** - The amount of advances that have not been repaid by the end of the fiscal year. This account adjusts Undesignated Fund Balance.

DEBIT - at the end of the fiscal year for advances not repaid  
CREDIT - at the beginning of the subsequent fiscal year

3294  **Fund Balance Reserved for Prepaid Expenses** - The amount of prepaid expenses at the end of the fiscal year.

DEBIT - at the end of the fiscal year prepaid expenses  
CREDIT - at the beginning of the subsequent fiscal year

3295  **Fund Balance Reserved for Continued Appropriations** - The amount of appropriations which can be legally carried over into the subsequent fiscal year.

DEBIT - at the end of the fiscal year  
CREDIT - at the beginning of the subsequent fiscal year

3296  **Fund Balance Reserved for Reduction of Future Excluded Debt** - The amount of debt service excluded for a particular purpose which exceeds the actual debt service. If more than one purpose is involved, it should be separately accounted for. If no future excluded debt service exists, the balance must be used to reduce the subsequent fiscal year’s tax rate. An example of an item to be accounted for in this series would include bond premiums on excluded debt.

DEBIT - at the beginning of the subsequent year  
CREDIT - at the end of the fiscal year
3300  **Fund Balance - Receipts Reserved for Appropriation** - These accounts are used to segregate receipts from specific sources, which are separately appropriated. The following are examples of receipts reserved for appropriation accounts and their statutory references (for more information, please see the Special Revenue chapter).

- Parking Meters Receipts (M.G.L., Ch. 40, §22A)
- County Dog Refund (M.G.L., Ch. 140, §172)
- Insurance Recoveries and Restitution Over $20,000 (M.G.L., Ch. 44, §53)
- Sale of Real Estate (M.G.L., Ch. 44, §63)
- Sale of Cemetery Lots (M.G.L., Ch. 114, §25)
- Waterways Improvement (M.G.L., Ch. 40, §5)
- Ambulance Receipts (M.G.L., Ch. 40, §5)

DEBIT - when appropriations are authorized  
CREDIT - when amounts are received

3320  **Fund Balance Reserved for Community Preservation Act** - The amounts received by the community in accordance with M.G.L. Ch. 44B.

DEBIT - when expenditures for the designated purpose are closed at year-end  
CREDIT - when revenue associated with the designated purpose is closed at year-end

3350  **Fund Balance Reserved for Teachers’ Pay Deferral** - The amount remaining deferred by the community in accordance with Chapter 336 of the Acts of 1991 which allowed a community to defer an amount of expenditures equal to the total of the summer payroll for teachers for fiscal years 1992 and 1993 for either the community’s school department or a regional school of which it is a member. The amount was to be amortized, at a minimum of 15 years, beginning in fiscal year 1997.

DEBIT - when the amount of the teachers’ pay was deferred  
CREDIT - when the annual amount is amortized on the tax rate  
- when an amount is appropriated to reduce or eliminate the deferral

**Unreserved Fund Balance - Designated**

Designated fund balance accounts represents items for which there are tentative uses planned for future periods. Since items designated may ultimately be used for other purposes, designations are less limiting than reservations.
3400 Fund Balance Designated - To provide additional detail on fund balance designations when the 3500 series is not sufficient.

DEBIT - when expenditures for the designated purpose are closed at year end
CREDIT - when revenues associated with the designated purpose are closed at year end

3510 Fund Balance Designated for Federal Grants - The unexpended portion of grant funding from federal sources. If an individual fund is not maintained for each grant, then a unique designated fund balance account should be established for each grant.

DEBIT - when expenditures for the designated purpose are closed at year end
CREDIT - when revenues associated with the designated purpose are closed at year end

3520 Fund Balance Designated for State Grants - The unexpended portion of grant funding from state sources. If an individual fund is not maintained for each grant, then a unique designated fund balance account should be established for each grant.

DEBIT - when expenditures for the designated purpose are closed at year end
CREDIT - when revenues associated with the designated purpose are closed at year end

3560 Fund Balance - Revolving Funds - To segregate certain receipts which may be expended for specific purposes without appropriation. Revolving funds may be established for particular types of receipts only if expressly permitted under the law. The following are examples of revolving funds and their statutory references.

Recoveries For Lost School Books (M.G.L., Ch. 44, §53)
Payments By Pupils For Industrial Arts Materials (M.G.L., Ch. 44, §53)
Athletic Programs and School Organizations (M.G.L., Ch. 71, §47)
Adult Education and Continuing Education Programs (M.G.L., Ch. 71, §71E)
Community School Programs (M.G.L., Ch. 71, §71C)
Racial Imbalance (M.G.L., Ch. 76, §12A)
Self-Supporting Recreation and Park Services (M.G.L., Ch. 44, §53D)
Insurance Recoveries and Restitution Not In Excess of $20,000 (M.G.L., Ch. 44, §53)
Departmental revolving fund (M.G.L. Ch. 44 §53E ½)

DEBIT - when expenditures for the designated purpose are closed at year end
CREDIT - when revenues associated with the designated purpose are closed at year-end
3580  Fund Balance Designated for Other Purposes - The amount of fund balance tentatively planned to be used for purposes other than those described above.

DEBIT - when expenditures for the designated purpose are closed at year-end
CREDIT - when revenues associated with the designated purpose are closed at year end

Unreserved Fund Balance - Undesignated

3590  Undesignated Fund Balance - The amount of fund balance remaining after reductions for reserved and designated balances.

DEBIT - when expenditures and other financing uses are closed out at period end
- when amounts are reserved or designated

CREDIT - when revenues and other financing sources are closed out at period end
- when reserved or designated fund balances are closed out and returned to unreserved

3592  Unreserved Fund Balance - Appropriation Deficits (Debit) - The amount by which certain appropriation accounts were over-expended during the fiscal year and thus to be raised in the next year's tax levy. Overspending of appropriations is generally prohibited by law. There are, however, some exceptions, such as snow and ice, which are defined in M.G.L., Chapter 44, §31 and §31D.

DEBIT - when the authorized appropriation deficits are determined at the close of the fiscal year
CREDIT - when the authorized appropriation deficits are raised in the subsequent year's tax levy

3593  Unreserved Fund Balance - Revenue Deficit (Debit) - The balance in this account represents the amount of any current year revenue deficit. A revenue deficit occurs when actual revenues are less than estimated revenues and there is no offsetting surplus between appropriations and actual expenditures. The amount is calculated at the close of the fiscal year and established in a separate account to ensure that it is given proper consideration in computing the subsequent year's tax levy (see Appendix K).

DEBIT - at year-end, with the amount of revenue deficit calculated for the fiscal year
CREDIT - when the amount is raised in the subsequent year’s tax levy
3594 **Unreserved Fund Balance - Unprovided Abatements and Exemptions (Debit)** - The balance in this account represents the reclassification of a portion of fund balance equal to the total of any debit balances from accounts 1230 through 1239, Allowance for Abatements and Exemptions. The account is established as a part of the year-end adjustment and closing process. The account is closed when the amount is raised in the following year's tax levy.

DEBIT - at year-end, with the amount reclassified
CREDIT - when the amounts are raised in the subsequent year's tax levy

3595 **Unreserved Fund Balance - Court Judgments (Debit)** - The balance in this account represents the amount of court judgments paid by a municipality in a fiscal year after the tax rate for the year has been approved. The account is established as a part of the year-end closing process. The account is closed when the amount is raised in the following year's tax levy.

DEBIT - at year-end, with the amount of court judgment expenditures made during the fiscal year
CREDIT - when the amounts are raised in the subsequent year's tax levy

3597 **Unreserved Fund Balance - Offset Receipts Deficit (Debit)** - The balance in this account represents the amount of any current year offset receipts deficit. An offset receipt deficit occurs when actual receipts are less than estimated receipts and there is no offsetting surplus between appropriations and actual expenditures.

DEBIT - at year-end with the amount of any offset receipts deficit
CREDIT - when the amounts are raised in the subsequent year's tax levy

3599 **Unreserved Fund Balance - Year-End Adjustments (Debit)** - The balance in this account represents the net amount of adjustments that were made in the fund at the close of the prior year in converting the accounting basis in the fund to the appropriate basis (modified accrual or accrual). It is established as one of the opening entries at the beginning of the year as a part of the process by which the books of accounts are converted back to a cash basis for purposes of revenue accounting. At the close of the fiscal year, the balance in the account is closed to the related revenue or expenditure account.

DEBIT - when revenues are accrued at the close of the prior period
CREDIT - when the accrual is reversed
Fund Balance Other - Memoranda

Memoranda accounts are used to integrate the control of grant, project, and bond authorizations into the accounting records. The accounts are memoranda accounts in that they are not usually presented in financial statements, although footnote disclosure is required if balances are material. They are segregated in fund balance to facilitate interim financial reporting.

To set up a separate account for each authorized project, accounts 3730 through 3739 should be used with account 3740 used as the offset.

3710 State and Federal Grants Awarded - (Memorandum) - The balance in this account represents the amount of spending authority approved but not yet received on state and federal grants.

DEBIT - when a grant is awarded
- when increases in the award amounts are made

CREDIT - when decreases in the award amounts are made
- when cash is received and spending authority is recorded in the budgetary accounts

3720 State and Federal Grants Awarded - Offset (Memorandum) (Credit) - This account is a contra account to account 3710. The balance in the account should be equal to the balance in that account.

DEBIT - when cash is received and spending authority is recorded in the budgetary accounts
- when decreases in the award amounts are made
CREDIT - when a grant is awarded
- when increases in the award amounts are made

3730 Projects Authorized - (Memorandum) - The balance in this account represents the unexpended portion of the project authorization.

DEBIT - when the capital project is authorized
- when any increases are authorized
CREDIT - when expenditures are made on the capital project
- when any decreases are authorized
- when the project is completed with any balance remaining in the account
3740 Projects Authorized - Offset (Memorandum) (Credit) - This account is a contra account to account 3730. The balance in the account should be equal to the balance in that account.

- DEBIT - when expenditures are made on the capital project
  - when any decreases are authorized
  - when the project is completed with any balance remaining in the account
- CREDIT - when the capital project is authorized
  - when any increases are authorized

3760 Bonds Authorized (Memorandum) - The balance in this account represents the amount of bonds which have been authorized but not yet issued.

- DEBIT - when bond issues are authorized
- CREDIT - when bonds are issued
  - when bond issue authorizations are rescinded

3770 Bonds Authorized - Offset (Memorandum) (Credit) - This account is a contra account to account 3760. The balance in the account should be equal to the total of the balance in that account.

- DEBIT - when bonds are issued
  - when bond authorizations are rescinded
- CREDIT - when bond issues are authorized

Fund Balance Other - Budgetary

Budgetary fund balance accounts are used to record the formally adopted annual operating budget. They are segregated in fund balance to facilitate interim financial reporting. Budgetary accounts are posted at the start of the fiscal year as part of the opening entries. Both sides of all budgetary entries must be made within the budgetary series (3800 through 3899). Budgetary accounts always net to zero and for interim reporting purposes need not be reflected on the balance sheet.

To segregate the original appropriation amount from supplemental appropriations, accounts 3830 through 3859 should be used.
3810 Estimated Tax Levy (Budgetary) (Debit) - This account is a budgetary control account and its balance reflects the total real and personal property tax commitments.

DEBIT - when the tax rate is approved, with the estimated tax levy for the current fiscal year
CREDIT - at year end, with the balance in the account
- when the tax rate is approved, with the allowances for abatements and exemptions

3815 Estimated Revenue (Budgetary) (Debit) - This account is a budgetary control account and its balance reflects the amount of revenues estimated for the fiscal period.

DEBIT - at the beginning of the year, with the total amount of other revenues budgeted for the year as reflected on the tax recapitulation sheet or other source document
- when budget increases are authorized
CREDIT - when budget decreases are authorized
- at year end with the balance in the account

3820 Estimated Other Financing Sources (Budgetary) (Debit) - This account is a budgetary control account and its balance reflects the amount of non-revenue financing sources estimated for the fiscal period. These include bond issues, premiums on bond issues, interest received from bond issues, and operating transfers-in.

DEBIT - at the beginning of the year, with the total amount of estimated other financing sources budgeted for the year
- when budget increases are authorized
CREDIT - when budget decreases are authorized
- at year end with the balance in the account

3830 Appropriations (Budgetary) (Credit) - This account is a budgetary control account and its balance reflects authorizations granted by the governing body to make expenditures and to incur obligations for specific purposes for the fiscal year.

DEBIT - when decreases in the budget are authorized
- at year end with the balance in the account
CREDIT - at the beginning of the year with the total amount of the budget adopted by the governing body
- when budget increases are authorized
3860 Other Authorized Expenditures (Budgetary) (Credit) - This account is a budgetary control account and its balance reflects other local expenditures not requiring appropriation such as state and county assessments.

DEBIT - when decreases in such amounts are authorized at year-end, with the balance in the account
CREDIT - at the beginning of the year with the amount authorized
- when increases are authorized

3870 Estimated Other Financing Uses (Budgetary) (Credit) - This account is a budgetary control account and its balance reflects the amount of other financing uses such as operating transfers-out estimated for the fiscal period.

DEBIT - when decreases in the estimated other financing uses are authorized
- at year end with the balance in the account
CREDIT - at the beginning of the year with the total amount of estimated other financing uses authorized
- when increases in estimated other financing uses are authorized

3880 Budgetary Fund Balance (Budgetary) - The balance in this account represents the amount of available funds budgeted for use in the current fiscal year less any prior year items raised.

DEBIT - at the beginning of the year with amounts appropriated from available funds ("free cash")
- at year end with the balance in the account, if a credit balance remains
CREDIT - when other non-appropriation items (accounts 3591 through 3597) are raised in the tax levy
- at year end with the balance in the account if a debt balance remains
3890 **Budgetary Control** - This account is an offset to the other budgetary accounts and should normally have a zero-balance. However at the beginning of the fiscal year, if the Recap Sheet has not been finalized, only the appropriations portion of the budget will have been posted and the account will have a debit balance.

**DEBIT** - with the appropriations for the current fiscal year
- with the estimated other financing uses for the current fiscal year
- with the estimated overlay for the current fiscal year
- with the other amounts to be raised for the current fiscal year

**CREDIT** - with the estimated local receipts for the current fiscal year
- with estimated other financing sources for the current fiscal year
- with the estimated other - "amounts appropriated to revenue" or transfers from available funds for the current fiscal year
- with the estimated tax levy for the current fiscal year
- with the estimated "Cherry Sheet" distributions for the current fiscal year

**Fund Balance Other - Actual**

These accounts represent the general ledger control accounts for Revenues, Other Financing Sources, Expenditures, Encumbrances and Other Financing Uses. These accounts are included in fund balance to facilitate financial reporting.

3910 **Revenue (Credit)** - The balance in this account reflects the amount of revenue actually recognized by receipt or accrual during the fiscal year.

**DEBIT** - at year end with the balance in the account
- when refunds are made

**CREDIT** - when real estate and personal property taxes are collected
- when motor vehicle excise, other excise, departmental receipts, and other revenues are received
- when revenue is recognized upon the sale of fixed assets, inventory, or foreclosed properties
- when tax liens, including interest and charges are collected
- when pro forma taxes are collected
- when licenses, fines, fees and permits are collected
- when entitlements or distributions are received
- when any other revenue is recognized
3920 Other Financing Sources (Credit) - The balance in this account reflects the amount of other financing sources actually received from bond issues, premiums on bond issues, interest received from bond issues and operating transfers-in during the current fiscal year.

DEBIT - at year end with the balance in the account
CREDIT - when proceeds from long-term debt are received
  - when proceeds from certain bond anticipation notes meet the revenue recognition criteria
  - when premiums are received on bond issues
  - when interest is received on bond issues
  - when operating transfers-in from other funds are made

3930 Expenditures (Debit) - The balance in this account reflects the amount of expenditures made or recognized (expenses) during the fiscal year from the current year's appropriations.

DEBIT - when expenditures are reported on approved warrants
  - when depreciation is recorded in the Enterprise Funds
  - when other accrued expenses are recognized
CREDIT - when refunds are received for expenditures
  - when expenditures are reclassified to fixed assets
  - at year end with the balance in the account

3940 Encumbrances (Debit) - The balance in this account reflects the amount of outstanding encumbrances from the current year.

DEBIT - when the purchase commitments is recognized
CREDIT - when the purchase commitment is relieved at year-end with the amount of outstanding encumbrances reclassified to 3960

3950 Prior Year Expenditures (Debit) - The balance in this account reflects the amount of expenditures made or recognized (expenses) during the fiscal year related to prior year encumbrances.

DEBIT - when expenditures are reported on approved warrants for prior year encumbrances
CREDIT - when refunds are received for current expenditures on prior year encumbrances at year end with the balance in the account
3960 Prior Year Encumbrances (Debit) - The balance in this account reflects the amount of outstanding encumbrances from the prior year.

DEBIT - when purchase commitments are reclassified from 3940
CREDIT - when the amount of the purchase commitment is relieved

3970 Other Financing Uses (Debit) - The balance in this account reflects the amount of other financing uses expended during the current fiscal year for operating transfers-out and other financing uses.

DEBIT - when operating transfers are made to other funds
CREDIT - at year end with the balance in the account
CHAPTER 6 - REVENUE ACCOUNTS

The accounts described in this chapter include all sources of local government funds. These include both revenues and other non-revenue financing sources such as operating transfers between funds, proceeds from notes payable and proceeds from bond issues. For convenience, all sources are referred to as Revenue Sources.

Revenue Sources are distinguished from other account types either by segregation in a revenue subsidiary ledger and/or by use of an account code type of “4.” For clarity, this code has been included with the account descriptions contained in this chapter.

The account descriptions that follow are organized according to these subheadings. A summary table of all revenue accounts and account codes is found in Appendix E to this Manual. The detail descriptions, however, should be consulted for all classification decisions.

Subsidiary Revenue Control

4000 Subsidiary Revenue Control - Summary control for the subsidiary revenue ledger entries. For every entry made to a revenue subsidiary ledger account, a corresponding entry is posted to the control. The corresponding entry may be a detail entry or a summary posting. The debit balance in this account should always be equal to the total of the credit and debit balances in all of the other accounts in the subsidiary revenue ledger.
**Taxes and Excises**

4110  **Personal Property Taxes** - Revenue recognized from personal property taxes, including 60 day accrual.

4120  **Real Estate Taxes** - Revenue recognized from real estate taxes, including 60 day accrual and deferred taxes under Ch. 59, §5(41A).

4130  **Abatements and Exemptions** - The amount of abatements and exemptions granted.

4142  **Tax Liens Redeemed** - Revenue recognized from tax liens redeemed. The account would include full redemptions, partial payments, payments on account, and sales of low value tax liens.

4143  **Litigated Taxes Collected** - Revenue recognized from taxes after litigation.

4145  **Tax Foreclosures** - Revenue recognized from sales of foreclosures.

4150  **Motor Vehicle Excise** - Revenue recognized from motor vehicle excises.

4160  **Other Excise** - Revenue recognized from excises other than motor vehicle. Where applicable, additional codes for the following should be assigned to the detail:

- Hotel/Motel excise
- Jet Fuel excise
- Vessel (boat) excise (50% to General Fund and 50% to Waterways Improvement Fund)
- Farm excise
- Classified forestlands excise
- Urban Redevelopment excise
4170  **Penalties and Interest on Taxes and Excises** - Revenue recognized from penalty charges and interest collected on delinquent taxes and excises. Where applicable, additional codes for the following should be assigned to the detail:

- Penalty and interest - property taxes
- Penalty and interest - excise tax
- Penalty and interest - tax lien redemptions
- Penalty and interest - special assessments
- Penalty and interest - other taxes

4180  **Payments in Lieu of Taxes** - Revenue recognized from payments made in lieu of taxes. Such payments are typically made by other governments or private, non-profit enterprises, which are legally tax exempt.

4190  **Other Taxes** - Revenue recognized from any other taxes not included above. Where applicable, additional codes for the following should be assigned to the detail:

**Charges for Services**

4210  **Utility Usage Charges** - Revenue recognized from utility usage charges. Where applicable, additional codes for the following should be assigned to the detail:

- Water usage charges
- Gas usage charges
- Electric usage charges
- Other utility usage charges

4220  **Other Utility Non-Usage Charges** - Revenue recognized from utility charges other than usage. This would typically include such items as house connection fees and other non-usage-based charges. Where applicable, additional codes for the following should be assigned to the detail:

- Water non-usage charges
- Gas non-usage charges
- Electric non-usage charges
- Other utility non-usage charges
4240 Other Non-Utility Usage Charges - Revenue recognized from non-utility usage. Where applicable, additional codes for the following should be assigned to the detail:

Hospital usage charges
Parking usage charges
Parks and recreation usage charges
Airport usage charges
Sewerage usage charges
Garbage/trash collection usage charges
Transit usage charges

4270 Other Non-Utility, Non-Usage Charges - Revenue recognized from non-utility charges other than usage (such as sale of goods, concessions, ticket sales).

4320 Fees - Revenue recognized from fees set by statute, charter, or ordinance. Where applicable, additional codes for the following should be assigned to the detail:

Fees retained from tax collections

4340 Tuition - Revenue recognized from tuition charges assessed for providing education. This account would normally be used only for tuition charged to full-time students. Tuition charged to part-time students, for example in an adult education program, would be recorded as a fee in account 4320.

4350 Pupil Transportation - Revenue recognized from transporting students to and from school and school activities. Only direct charges for this service would be recorded here; governmental grants for similar services would be recorded as governmental revenue in the 4500 or 4600 series accounts as appropriate.

4360 Rentals - Revenue recognized from the rental of real or personal property including school and town buildings.

4370 Other Departmental Revenue - Revenue recognized from other departmental activities, not properly accounted for in another account. This would include amounts received by the Planning Board, Board of Appeals, and Conservation Commission, as well as from athletic events, school lunch programs, school choice tuition and other sources.
Licenses and Permits

4410  **Alcoholic Beverage Licenses** - Revenue recognized from businesses and other organizations which must be licensed to serve or sell alcoholic beverages.

4420  **Other Licenses** - Revenue recognized from all other licenses levied according to benefits presumably conferred by the license (such as marriage license, animal license).

4450  **Permits** - Revenue recognized from businesses and individuals, which require a permit before doing business (such as building, street and curb permits).

Federal Revenue

4515  **Community Development Block Grants** - Revenue recognized from certain federal government distributions under the Community Development Block Grant program.

4540  **Other Federal Revenue - Direct** - Revenue recognized from non-CDBG federal government distributions which must be used for a categorical or specific purpose and which are received directly from the federal government. Where applicable, additional codes for the following should be assigned to the detail:

- Many education programs

4580  **Other Federal Revenue - Through the State** - Revenue recognized from federal government distributions which must be used for a categorical or specific purpose and which are received indirectly through the state. Where applicable, additional codes for the following should be assigned to the detail:

- Title I, IV, VI, and IX
- Vocational and adult education
- School lunch program
- Medicaid reimbursements
State Revenue

4610 Reimbursement for Loss of Taxes - Revenue recognized from the state in reimbursements for loss of taxes. These amounts appear in Section B of the Cherry Sheet. Accounts should be set up using the following numbers for only those items actually received.

Reimbursement for Loss of Taxes on State-owned Land - M.G.L., Ch.58, §13-§17
Abatements to Veterans, Blind and Surviving Spouses - M.G.L., Ch. 59, §5,
Elderly Persons - M.G.L., Ch. 59, §5; cl. 41, cl. 41B, cl. 41C

4620 Education Distributions and Reimbursements - School Aid Distributions - Revenue recognized from state distributions and reimbursements for education. These amounts appear in Section A of the Cherry Sheet and include:

School Aid - M.G.L. Ch. 70
Retired Teachers Pensions - M.G.L. Ch. 32, §20 (2)(c)
School Transportation Programs - M.G.L. Ch. 71, 71A, 71B, 74
School Construction Projects - M.G.L. Ch. 70B

4640 Education Offset Items - Reserve for Direct Expenditures - Revenue recognized from state education offset items. These amounts appear in Section A of the Cherry Sheet (with the exception of the Public Libraries which appears in Section B) and include:

Public Libraries - M.G.L., Ch. 78, §19A
Racial Equality - M.G.L.. Ch. 76, §12A, Ch. 71, §37, I,J and Ch. 15, §11
School Lunch Program - M.G.L., Ch. 871, Acts of 1970
Aid to Reduce Class Size
4660  General Government - Reimbursements and Distributions - Revenue recognized from state general government reimbursements and distributions. These amounts appear in Section B of the Cherry Sheet. Accounts should be established for only those items actually received:

Police Career Incentive - M.G.L. Ch. 41, §108L
Urban Renewal Projects - M.G.L. Ch. 121 §§53-57
Veteran's Benefits - M.G.L. Ch. 115, §6
Additional Assistance
Lottery, Beano, Charity Games - M.G.L. Ch. 29, §2D
Highway Fund - M.G.L. Ch. 81, §31; Ch. 577, §8. Acts of 1980
Local Share of Racing Taxes - M.G.L. Ch. 558, Acts of 1981
Regional Public Libraries - M.G.L. Ch. 78, §19C

4680  Other State Revenue - Revenue recognized from state distributions other than those covered above. Where applicable, additional codes for the following should be assigned to the detail:

Local Public Works projects
Local Mandates
Court Fines
Community Preservation Act - State Share
Miscellaneous State Revenue

Other Intergovernmental Revenue

4710  Indirect Distributions - Revenue recognized from non-federal distributions received through a government other than the one actually providing the funds. (Federal distributions through the state are recorded under 4580.) Examples would be state distributions through the county, state distributions through a district or municipality, or county distributions through a municipality.

4720  County Distributions - Revenue recognized from distributions by a county (such as county dog refund) for services performed.

4730  Municipal Distributions - Revenue recognized from distributions by a municipality or district for services performed.

4740  Payments on Behalf of - Revenue recognized from financial resources provided by another government. Such resources may be provided through direct payments or through contributions of equipment or supplies.

Massachusetts Teachers' Retirement Board Payments
Uniform Massachusetts Accounting System – August, 2007

Special Assessments

4750  **Special Assessments** - Revenue recognized from special assessments and betterments not reported elsewhere.

Fines and Forfeits

4770  **Fines and Forfeits** - Revenue recognized from fines or forfeits (e.g., parking fines, penal fines, library book fines, bond forfeitures, etc.).

Miscellaneous Revenue

4810  **Sales of Inventory** - Revenue recognized from the sale of inventory.

4820  **Earnings on Investments** - Revenue recognized from income earned on investments (interest and dividends only).

4830  **Contributions and Donations** - Revenue recognized from contributions or gifts from a private donor. Contributions or gifts from another government would be classified as a grant.

4840  **Miscellaneous** - Revenue recognized from items not provided for elsewhere. Where applicable, additional codes for the following should be assigned to the detail:

  Insurance dividends

4890  **Gain or Loss in Investment Portfolio** - Revenue recognized or lost on the sale of investments.

Other Financing Sources

4910  **Proceeds from Sale of Bonds** - Other financing recognized from the sale or issuance of bonds. This account should be utilized in the Capital Projects Funds only. Special legislation may authorize deficit bond proceeds to be used in the General Fund.
4920  Proceeds from Issue of Temporary Loans - Other financing recognized from certain issues of temporary loans. This account is used when temporary loans meet the GAAP criteria for the handling of temporary loans as long-term obligations, which is, generally, when the intention of the temporary loan is actually a long-term obligation.

4930  Premiums from Sale of Bonds - Other financing recognized from the premium received on sale of bonds. However, premiums received on debt excluded from the tax levy should be reserved in account 3296.

4940  Disposition of Fixed Assets - Other financing recognized from the sale of fixed assets. Where fixed assets have been recorded, the account would reflect only the net gain (credit) or loss (debit) from the proceeds of the sale.

4950  Compensation for Loss of Fixed Assets - Other financing recognized in connection with the loss of or damage to fixed assets (e.g., insurance reimbursement).

4960  Interest Received on Bonds Sold - Other financing recognized from the accrued interest received from bonds issued by the local government between interest due dates.

4970  Interfund Operating Transfers In - Other financing recognized from operating transfers received from other funds. Where appropriate, additional detail should be provided as follows:

Transfers from General Fund
Transfers from Special Revenue Funds
Transfers from Permanent Funds
Transfers from Capital Projects Funds
Transfers from Proprietary Funds
Transfers from Special Purpose Trust and Agency Funds

4990  Otherwise Unclassified Other Financing Sources - Other financing recognized from sources not more appropriately classified above. In general, this account would not normally be used.
CHAPTER 7 - EXPENDITURE ACCOUNTS

The accounts described in this chapter include all major uses of local funds. Expenditures are normally classified according to the following characteristics:

- Function;
- Organizational responsibility; and
- Expenditure object.

Additional classification by program or activity may be used, however the Uniform Chart of Accounts does not provide standard coding for programs or activities. Local governments that wish to capture information regarding programs and activities should develop their own codes and utilize the local coding portion of the account number for this purpose.

A summary table of all functions, organizational responsibilities and expenditure objects is found in Appendices F and G to this Manual.

Function Classification

Function classification provides information on the overall purposes or objectives of expenditures. Functions group related activities that are aimed at accomplishing a major service or regulatory responsibility. Functions are normally used to classify expenditures for external financial reporting of governmental fund types.

Organizational Responsibility Classification

Organizational responsibility falls within function classification, is essential for accountability and should correspond with the governmental unit's organization structure. Organization units should be classified according to their primary function. For example, a Health Officer whose primary responsibility is refuse collection should be classified as "Sanitation," not "Human Services." To the extent that communities can adequately segregate the costs of different functions performed by one organization unit, they should establish separate numbers (or use the local coding feature) to track these expenditures.

Expenditure Object Classification

Expenditure object classification falls within an organizational responsibility classification. Expenditure objects provide information on what specific goods and services were purchased. Objects are used to provide improved management control and improved purchasing decisions.
Functions and Organizational Responsibility

The following descriptions are organized according to these subheadings. The detail descriptions should be consulted for all classification decisions.

Since all numbers in the range are not assigned, local units of government that wish additional detail may obtain it by using the unassigned numbers. Use of the available numbers should remain logically consistent with the structure provided by the assigned numbers.

Some of the reporting units so identified are not organizational units, but are subfunctions and are marked with an asterisk.

General Government

110 Legislative - Expenditures related to the legislative operations of the community. Reporting units in this category include:

111 City or Town Council
112 Aldermen
113 Town Meeting
114 Town Meeting Moderator
119 Other Legislative

120 Executive - Expenditures related to the executive operations of the community. Reporting units in this category include:

121 Mayor
122 Selectmen
123 Town or City Manager
129 Other Executive
Financial Administration - Expenditures related to the financial administration of the community. Reporting units in this category include:

- Finance Committee
- Reserve Fund *
- Finance Director
- Comptroller
- Accountant/Auditor
- Budget Office
- Purchasing Agent
- Assessors
- Revaluation *
- Treasurer
- Collector
- Other

Operations Support - Expenditures related to the non-financial administration of the community. Reporting units in this category include:

- Law Department or Town/City Counsel
- Personnel
- Civil Service
- Data Processing or Management Information Systems
- Messenger
- Tax Title Foreclosure *
- Other

Licensing and Registration - Expenditures related to the licensing and registration operations of the community. Reporting units in this category include:

- Clerk
- Elections *
- Registration *
- Licensing Commission
- Other Licensing and Registration *

Land Use - Expenditures related to the management and control of land use within the community. Reporting units in this category include:

- Conservation Commission
- Community Preservation Committee - Open Space *
- Planning Board/Department
- Zoning/Appeals Board
- Other Land Use
Development - Expenditures related to encouraging and managing the physical and economic growth of the community. Reporting units in this category include:

181 Urban Development
182 Economic Development
183 Community Preservation Committee - Housing *
185 Rent Control
189 Other Development

Other - Expenditures for other General Government operations which do not fall readily into one of the previous categories. Reporting units in this category include:

191 Worker's Compensation Agent - this account is for the staff of the Agent's office only
192 Public Buildings and Properties Maintenance *
193 Property Insurance *
194 Community Preservation Committee - Historic Preservation *
195 Town Reports *
199 Other General Government

Public Safety

210 Police - Expenditures for law enforcement.

220 Fire - Expenditures for preventing and fighting fires.

230 Emergency Medical Services - Expenditures related to the provision of emergency medical services to the community's residents and workers. Reporting units in this category include:

231 Ambulance Service
232 Emergency Medical Technicians
240  **Protective Inspection** - Expenditures related to the protective inspection operations of the community. Reporting units in this category include:

241  Building
242  Gas
243  Plumbing
244  Weights and Measures
245  Electrical
246  Public Scales
249  Other *

290  **Other** - Expenditures related to public safety, which don't fall readily into one of the previous categories. Reporting units in this category include:

291  Civil Defense
292  Animal Control Officer
293  Traffic Control (if separate from Police), this is for traffic engineering when not provided by the DPW.
294  Forestry
295  Harbormaster
299  Other Public Safety *

**Education**

In developing this area the Department of Education End of Year report can be reviewed to provide ease of preparation.

300  **Education** - Expenditures related to the education function of local government.

**Public Works and Facilities**

410  **Engineering** - Expenditures related to the design and location of public works and facilities. Reporting units in this category include:

411  Engineer
420 **Highways and Streets** - Expenditures related to the construction, maintenance, and repair of highways and streets in the community. Reporting units in this category include:

421 Administration *
422 Construction and Maintenance *
423 Snow and Ice Removal *
424 Street Lighting *
425 Vehicle Maintenance *
429 Other *

430 **Waste Collection and Disposal** - Expenditures related to the collection of garbage and other refuse and delivering it to the place of disposal. Reporting units include:

431 Administration *
432 Street Cleaning *
433 Collection and Disposal *
439 Other *

440 **Sewerage Collection and Disposal** - Expenditures related to the collection and disposal of sewerage. Reporting units in this category include:

443 Pumping Stations *
449 Other *

450 **Water Distribution** - Expenditures related to the distribution of water to residences and businesses.

460 **Electric Distribution** - Expenditures related to the distribution of electricity to residences and businesses.

470 **Gas Distribution** - Expenditures related to the distribution of natural gas to residences and businesses.

480 **Transportation Facilities** - Expenditures related to the construction, maintenance, and repair of transportation facilities. Reporting units in this category include:

481 Parking Garage
482 Airport
490 Other - Expenditures for public works and facilities which do not readily fall into one of the previous categories. Reporting units in this category include:

491 Cemetery

Human Services

510 Health Inspection Services - Expenditures related to inspection and regulatory activities, which contribute to the conservation and improvement of public health. Reporting units in this category include:

511 Health Officer
512 Board of Health
519 Other *

520 Clinical Services - Expenditures related to the provision of clinical services to maintain or improve public health. Reporting units in this category include:

521 Health Center
522 Nursing Service
523 Mental Health Clinic
524 Dental Clinic
529 Other *

530 Medical Facilities - Expenditures related to the operation of a municipal hospital.

540 Special Programs - Expenditures related to the provision of services to specific target groups within the general population. Reporting units in this category include:

541 Council on Aging
542 Youth Services
543 Veterans' Services
549 Other *

560 Public Assistance - Expenditures related to the provision of services for individuals who are economically unable to provide essential needs for themselves.
590 Other - Expenditures for human services which do not readily fall into one of the previous categories.

Culture and Recreation

610 Library - Expenditures related to the operation of a public library.

630 Recreation - Expenditures related to the provision of recreational activities or the operation of recreational facilities such as beaches and golf courses.

650 Parks - Expenditures related to the maintenance of public parks, squares, and similar ornamental areas.

670 Museums - Expenditures related to the maintenance and operation of institutions which display exhibits of cultural, historic, or scientific interest. This category includes Zoos, Art Galleries, Botanical Gardens and similar institutions.

690 Other - Expenditures for other cultural and recreational activities which do not readily fall into one of the previous categories. Reporting units in this category include:

691 Historical Commission
692 Celebrations (Memorial Day, etc.) *
699 Other Culture and Recreation *

Debt Service

710 Retirement of Debt * - Expenditures for periodic payments of principal amounts on local debt whether short or long-term.

750 Interest - Expenditures for periodic payments of interest amounts on local debt. Reporting units in this category include:

751 Interest on Long-Term Debt *
752 Interest on Short-Term Debt *
### Intergovernmental Expenditures

992  Transfers to Special Revenue Fund *
993  Transfers to Capital Projects Fund *
994  Transfers to Permanent Funds *
995  Transfers to Proprietary Funds *
996  Transfers to Private Purpose Trust and Agency Fund *

**Expenditure Objects**

Expenditure accounts are distinguished from other accounts either by segregation in a expenditure subsidiary ledger or by use of an account code type of “5.” However, function and organization unit numbers might also be used as sub-codes with non-expenditure accounts.

The major breakdowns of expenditure objects and detailed lists of the items normally charged to each are provided below. Since all numbers in the range are not assigned, local units of government that wish additional detail may obtain it by using the unassigned numbers. Use of the available numbers should remain logically consistent with the structure provided by the assigned numbers.

Subsidiary Appropriation Control

5000 Subsidiary Appropriation Control - Summary control for the subsidiary appropriations ledger (also referred to as the subsidiary expenditure ledger). Entries made to the subsidiary ledger will include those for appropriations, encumbrances and expenditures. For every entry made to a subsidiary appropriation ledger account, a corresponding entry is posted to the control. The corresponding entry may be a detail entry or a summary posting. The balance in this account should always be equal to the total of the debit and credit balances in all of the other accounts in the subsidiary appropriations ledger.

Personal Services

5110 Salaries and Wages, Permanent Positions - Expenditures for full-time and part-time work performed by employees who are considered to be in positions of a permanent nature. It should be noted that in budgeting payrolls, local governments should budget for 52.2, 52.2 and 52.3 periods over a three year cycle to avoid budgeting on a cash basis that requires a 53\text{rd} pay period in certain years.

5120 Salaries and Wages, Temporary Positions - Expenditures for full-time and part-time work performed by employees who are hired on a temporary or substitute basis.

5130 Additional Gross, Overtime - Amounts earned by employees, whether temporary or permanent, for work performed in excess of normal requirements.

5140 Additional Gross, Differentials - Amounts paid to employees above and beyond normal compensation in recognition of special circumstances such as:

- Merit
- Shift
- Holiday
- Educational
- Weekend
- Longevity
5150 Fringe Benefits to Employees - Expenditures for fringe benefits paid directly to employees such as:

  - Vacation
  - Non-Occupational Sick Leave
  - Maternity leave
  - Standard holidays
  - Court leave
  - Educational Leave
  - Military Leave
  - Union activities
  - Occupational sick leave
  - Bereavement leave

5170 Fringe Benefits on Behalf of Employees - Expenditures for the local government's share of fringe benefits not paid directly to employees such as:

  - Worker's compensation
  - Unemployment payments
  - Health insurance
  - Retirement fund
  - Unemployment insurance
  - Life insurance
  - Social security
  - Massachusetts Teachers' Retirement

5190 Other Personal Services - Expenditures incurred for personal services, not otherwise classified such as:

  - Tuition reimbursement
  - Career incentive
  - In-Service training
  - Uniform allowance
  - Unused sick-leave buyback
  - Stipends

Purchase of Services

5210 Energy - Expenditures for energy services received from public or private utility companies. Note that heating oil is classified as energy services for comparative purposes even though it might normally be considered supplies such as:

  - Electricity or natural gas for heat, power, lighting
  - Oil used for heat

5230 Non-Energy Utilities - Expenditures for utility services other than energy supplied by public or private organizations. (Telephone and telegraph are classified as 5340 - Communication). For example:

  - Water
  - Sewerage
5240  **Repairs and Maintenance** - Expenditures for repairs and maintenance services not provided directly by municipal personnel. This includes contracts and agreements covering the upkeep of buildings and equipment. For example:

- Buildings and grounds
- Recreational facilities
- Vehicles
- Traffic control equipment
- Water meters
- Communication lines
- Office equipment
- Medical equipment
- Sewer or water pumping stations
- HVAC equipment
- Construction equipment
- Audio visual equipment
- Machine tools
- Street paving and marking
- Computer equipment
- Office furnishings

5270  **Rentals and Leases** - Expenditures for renting or leasing land, buildings, equipment and vehicles. The principal portion of capitalized lease obligations is reported here as well. For example:

- Buildings
- Vehicles
- Medical equipment
- Data processing equipment
- Audio-visual equipment
- Photocopiers
- Recreational facilities
- Construction equipment
- Office equipment and furnishings
- Communication equipment
- HVAC equipment
- Uniforms

5290  **Other Property Related Services** - Expenditures for property related services, not otherwise classified such as:

- Custodial service contracts
- Snow removal contracts
- Garbage removal contracts
- Solid waste disposal contracts
### 5300 Professional and Technical
Expenditures for services which by their nature can be performed only by persons or firms with specialized skills and knowledge. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided. For example:

<table>
<thead>
<tr>
<th>Service</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medical and dental</td>
<td>Accounting and auditing</td>
</tr>
<tr>
<td>Food service management</td>
<td>Legal</td>

</tr>
<tr>
<td>Engineering/architectural</td>
<td>Labor relations</td>
</tr>
<tr>
<td>Contract bargaining</td>
<td>Book-binding</td>
</tr>
<tr>
<td>Employee training seminars</td>
<td></td>
</tr>
</tbody>
</table>

### 5320 Tuition
Expenditures to reimburse educational agencies for instructional services rendered to students residing in the legal boundaries described for the paying municipality. If additional detail is desired, it should identify the payee. For example:

<table>
<thead>
<tr>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>In-state schools</td>
<td>Private schools</td>
</tr>
<tr>
<td>Regional districts</td>
<td>Out-of-state schools</td>
</tr>
<tr>
<td>Collaboratives</td>
<td>Charter Schools</td>
</tr>
</tbody>
</table>

### 5330 Pupil Transportation
Expenditures for transporting children to/from school and school activities. If additional detail is desired it should identify the transporter. For example:

<table>
<thead>
<tr>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Other school district</td>
<td>Public carrier</td>
</tr>
<tr>
<td>Contractor</td>
<td>Parents</td>
</tr>
</tbody>
</table>

### 5340 Communication
Expenditures for transmitting and receiving messages or information such as:

<table>
<thead>
<tr>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Telephone, telegraph</td>
<td>Wireless phones</td>
</tr>
<tr>
<td>Data processing lines</td>
<td>Printing and mailing</td>
</tr>
<tr>
<td>Postage</td>
<td>Delivery services</td>
</tr>
</tbody>
</table>

### 5350 Recreational
Expenditures for recreational activities such as:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Entertainers, lecturers, films</td>
<td></td>
</tr>
<tr>
<td>Supervision or instruction</td>
<td></td>
</tr>
<tr>
<td>Museum or event admission fees</td>
<td></td>
</tr>
<tr>
<td>Athletic event officials fees</td>
<td></td>
</tr>
</tbody>
</table>
5380  Other Purchased Services - Expenditures for purchased services not properly classified elsewhere such as:

Weather reports              Animal and pest control
Mini-bus service (contracted) Photography
Laundry and cleaning         Non-school field trips

**Supplies**

As a general guideline, a supply item is any article or material, which meets at least one of the following conditions:

- It is consumed in use;
- It loses its original shape or appearance with use;
- It is expendable; that is, if the article is damaged or some of its parts are lost or worn out, it is usually better to replace it with an entirely new unit rather than repair it;
- It is an inexpensive item whose small unit cost (less than $5,000) makes it inadvisable to capitalize the item;
- It loses its identity by incorporation into a different or more complex item.

5410  Energy Supplies - The cost of expendable supplies purchased to provide energy to municipalities. Gasoline, however, should be included with Vehicular Supplies (5480) and oil used for heating should be classified as Energy.

5420  Office Supplies - The cost of expendable supplies and materials used in the offices of a municipality such as:

Stationery, paper, forms
Photocopying
Pens, pencils, paper clips, and other sundries

5430  Building and Equipment Repairs and Maintenance Supplies - The cost of supplies which are purchased by a municipality to repair or maintain buildings owned by the municipality such as:

HVAC items              Electrical
Plumbing                Paint
Hand tools or power tools Glass
Floor coverings          Doors
Wall coverings           Window coverings
5450  Custodial and Housekeeping Supplies - The cost of expendable supplies related to custodial and housekeeping functions such as:

- Cleaning supplies
- Bedding and linens
- Brooms and mops

5460  Groundskeeping Supplies - The cost of expendable supplies related to groundskeeping functions such as:

- Rakes, hoes, and other tools
- Paint for grounds
- Loam, grass seed, lime
- Pesticides and herbicides

- Track cinders
- Fertilizers
- Soil and Sod
- Trees and shrubs

5480  Vehicular Supplies - The cost of expendable supplies utilized for maintenance purposes in municipally owned motor vehicles such as:

- Gasoline
- Anti-freeze
- Batteries

- Tires and tubes
- Motor oil and lubricants
- Parts and accessories

5490  Food and Food Service Supplies - The cost of expendable supplies used for food service purposes such as:

- Perishables
- Serving utensils

- Non-perishables

5500  Medical and Surgical Supplies - The cost of expendable supplies and materials used for surgical or medical purposes such as:

- First aid kits
- Operating room packs
- Pacemakers
- Isotopes
- Chemicals and solutions (used for medical purposes)

- Orthopedic supplies
- Sutures
- Instruments
- Drugs
- Oxygen
- X-ray film

5510  Educational Supplies - The cost of expendable supplies and materials used for educational purposes such as:

- Test materials
- Teaching aids
- Books and processing

- Workbooks and textbooks
- Kindergarten supplies
- Athletic equipment for school
Plan books and registers  Audio-visual supplies
Maps and charts  Encyclopedias
Special education supplies

5530 **Public Works Supplies** - The cost of expendable supplies and materials used for public works operational purposes. These items might be segregated by function (water, sewer, engineering) or by material (wood, plastic) depending on the particular needs of the local unit.

5580 **Other Supplies** - The cost of expendable supplies utilized for purposes not classified elsewhere:

- Firefighting
- Data processing
- Crime prevention
- Magazine subscriptions
- Recreational
- Uniforms and other clothing
- Library supplies
- Newspaper subscriptions

**Intergovernmental**

5610 **Federal** - Any payments to federal agencies for services provided to the local government. Payment of the local government's withholding liability would not be charged to this account since such disbursements are not expenditures.

5620 **County Amortization** - This account includes amortization schedules for abolished counties, (e.g. Hampden and Worcester) pursuant to M.G.L. Ch. 34B, §8.

5621 **County Tax M.G.L.** - Amounts paid to the county for municipal services provided by the county pursuant to Ch. 35, §31.

5630 **State Assessments** - Amounts paid to the state for services provided by the State. Separate accounts should be established for each item on the Cherry Sheet.

5631 **Special Education M.G.L.,** Ch. 71B, §10 and 12; Ch. 766, Acts of 1972

5636 **Health Insurance, Governmental Retirees M.G.L.** Ch. 32A, §10B
5637 **Health Insurance, Retired Municipal Teachers M.G.L.** Ch. 32A, §10B
5639 **Mosquito Control Projects M.G.L.** Ch. 252, §5A
5640 **Air Pollution Control Districts M.G.L.** Ch. 111, §§142B and 142C; Ch. 676. §1, Acts of 1960
5641 **Metropolitan Area Planning Council M.G.L.** Ch. 40B, §§26 and 29; Ch. 476, Acts of 1974
5642 **Old Colony Planning Council M.G.L.** Ch. 332, Acts of 1967

### Other Charges and Expenses

| 5710 | **In-State Travel** - Expenditures for transportation, meals, hotel and other travel expenses incurred by staff traveling within the Commonwealth. Per diems in lieu of reimbursement are also included in this grouping. Seminar fees are not travel costs and should be classified as Professional and Technical Services (5300). |
| 5720 | **Out-of-State Travel** - Expenditures for transportation, meals, hotel and other travel expenses incurred by staff traveling outside the Commonwealth. Per diems in lieu of reimbursement are also included in this grouping. Seminar fees are not travel costs and should be classified as Professional and Technical Services (5300). This account may be used if there is a city ordinance or town bylaw requiring separate approval of this expenditure. |
| 5730 | **Dues and Memberships** - Expenditures for memberships in professional and technical organizations. The full cost of the dues or membership fees should be charged here even if the cost includes tangible items such as a subscription to a journal. |
5740  Insurance Premiums - Expenditures for various types of insurance coverage including property, liability and fidelity. Insurance for group health is not charged here but is recorded under Fringe Benefits.

5760  Judgments - Expenditures from current funds for court judgments against the local unit.

5770  Veterans' Benefits - Payments for veterans benefits as provided by law.

5780  Other Unclassified Items - Expenditures for items not classified elsewhere. For example:

- Depreciation
- Survivor benefits
- Payments in Lieu of Taxes
- Reserve fund appropriations
- Revenue funds
- Agency fund disbursements

Capital Outlay

These codes should be used whenever possible to monitor expenditures for eventual capitalization of fixed asset acquisitions.

5810  Land - Expenditures for the acquisition of land, air rights, water rights, and mineral rights. When land is purchased along with buildings, the cost of the land should be segregated and charged here.

5820  Buildings - Expenditures for the direct purchase of or major capital improvements to existing buildings. Capitalized lease obligations for buildings would be charged here. New construction performed by a contractor would be charged to 5890. New construction performed by the local government's own staff would be segregated as a capital project with non-capital outlay object codes. Depreciation of buildings would be charged to account 5829.

5829  Buildings - Depreciation - Depreciation of buildings accounted for in 5820.

5830  Plant - Expenditures for the acquisition of or major capital improvements to existing buildings used to provide utility services (e.g., water pumping station, electric generating station). Capitalized lease obligations for plant would be charged here. New plant construction performed by a contractor would be charged to 5890. New plant construction performed by the local government's own staff would be segregated as a capital project with non-
capital outlay object codes. Depreciation of plant would be charged to account 5839.

5839 Plant - Depreciation - Depreciation of plant accounted for in 5830.

5840 Site Improvements - Expenditures for major capital improvement of sites and adjacent ways after acquisition. This account would only be used when the local government has determined that the management information provided by non-capital outlay object codes is not necessary. Depreciation of site improvements would be charged to account 5849.

5849 Site Improvements - Depreciation - Depreciation of site improvement accounted for in 5840.

5850 Additional Equipment - Expenditures for equipment, which increases the number of items of equipment available (e.g., a local government's first police car or a sixth car to expand a fleet of five). Depreciation of equipment would be charged to account 5859. Equipment items include:

- Automobiles
- Communications equipment
- EMS equipment/vehicles
- Refuse containers
- Construction equipment
- Classroom equipment
- Trucks and buses
- Classroom furniture
- Fire alarm equipment
- Office equipment and furniture
- Bulletin boards and shelving
- Firefighting/FA equipment

5859 Additional Equipment - Depreciation - Depreciation of additional equipment accounted for in 5850.

5870 Replacement Equipment - Expenditures for equipment, which replaces existing assets. For example, purchase of a new or used ambulance to replace one which has or will be sold would be recorded here.

5879 Replacement Equipment - Depreciation - Depreciation of replacement equipment accounted for in 5870.

5890 Construction in Progress - Expenditures made in connection with construction projects, such as:

- Fire stations
- Waste water treatment plants
- School buildings
- Sewer systems
Debt Service

5910 Maturing Principal on Long-Term Debt - Disbursements to repay the principal portion of long-term debt.

5915 Interest on Long-Term Debt - Disbursements to pay the interest owed on long-term debt.

5925 Interest on Notes - Disbursements to pay the interest owed on notes and other short-term borrowings.

Other Financing Uses

5950 Repayment of Temporary Loans - To track the disbursement of repayment amounts.

5960 Interfund Operating Transfers - To track operating transfers to other funds.

5961 Transfers to General Fund
5962 Transfers to Special Revenue Funds
5963 Transfers to Capital Projects Funds
5964 Transfers to Permanent Funds
5965 Transfers to Proprietary Funds
5966 Transfers to Special Purpose Trust and Agency Funds
CHAPTER 8 - BUDGET ENTRIES

The purpose of this chapter is to briefly describe the present budgetary process in Massachusetts and to present illustrative journal entries for recording a municipality's annual budget.

In order to permit the reporting of budget versus actual revenues and expenditures, it is essential that the system for preparing budgets be based on the system of accounting that is utilized by a governmental unit. This chapter describes the process of preparing the budget information to be recorded in the accounting records.

The Budgetary Process in Massachusetts

The fiscal year-end of Massachusetts municipalities and districts is June 30th. The budget process in most local governments is a continuous cycle. It generally begins in the fall of the preceding fiscal year for which the budget is being prepared and is not complete until the tax rate is set which generally occurs about one year later. At that time, the next year's budgetary planning is ready to begin. Although the budget process involves many activities, there are several significant steps that can be identified which are particularly important in understanding the budget sequence in Massachusetts and ultimately the timing of the accounting entries.

<table>
<thead>
<tr>
<th>Activity</th>
<th>Approximate Completion Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Operating expense budgets prepared for each department</td>
<td>November</td>
</tr>
<tr>
<td>2. Revenue budget estimated for each department and for unit</td>

<tr>
<td>7. Other amounts required to be raised identified</td>
<td>July</td>
</tr>
<tr>
<td>8. Other &quot;available funds&quot; identified and use determined</td>
<td>April - Dec.</td>
</tr>
</tbody>
</table>
In Massachusetts, the elements of a budget include several different sources of revenue and expenditures, some of which are appropriated, and others required to be raised and paid in accordance with applicable statutes. A summary of the principal revenues and expenditures encompassed in an annual budget includes:

<table>
<thead>
<tr>
<th>Revenues</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Real estate and personal property taxes</td>
<td>Amounts assessed to property owners; represents the principal source of city/town revenue</td>
</tr>
<tr>
<td>State reimbursements and distributions</td>
<td>State &quot;Cherry Sheet&quot; distributions</td>
</tr>
<tr>
<td>Federal grants</td>
<td>Generally for restricted purposes</td>
</tr>
<tr>
<td>Other Revenues</td>
<td>Motor vehicle excise, charges for services of municipal departments including enterprise activities, deficit bond proceeds</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Expenditures</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Departmental operating budget</td>
<td>Current year's operating expense budget</td>
</tr>
<tr>
<td>State and county assessments</td>
<td>State &quot;Cherry Sheet&quot;</td>
</tr>
<tr>
<td>Other amounts to be raised</td>
<td>Includes court judgments, abatement deficits, appropriation deficits and revenue deficits.</td>
</tr>
</tbody>
</table>

With the exception of the "Other amounts to be raised," each of the items in the budget represents amounts that are expected to occur in the current budget year. "Other amount to be raised" have, in fact, occurred in a prior year, after the budget for that particular year was finalized. Accordingly, for GAAP purposes, such amounts will have been accounted for as an expenditure of that year, and fund balance will have been reduced or a reserve will have been created. Under Massachusetts law, such amounts are required to be raised in the following year. As will be noted below, the special nature of these items is recognized in the budgetary recording process by crediting these directly to the account "Budgetary Fund Balance."

Integration of Records

Budgetary control accounts should be integrated with the actual control accounts in the
general ledger. However, budget and actual amounts should be accounted for separately. This will be accomplished by:

- Providing separate budget and actual accounts in the general ledger;
- Requiring that individual journal entries reflect exclusively either budget or actual transactions (thus, if the debit is to a budget account, the credit must also be made to such an account).

To emphasize this separation, all BUDGET ACCOUNTS are presented in capital letters in all the illustrative journal entries throughout this Manual.

**Control Account**

The UMAS system utilizes a "zero balance" control account to ensure that the budget has been fully and completely recorded. This account is entitled "Budgetary Control" in order to accurately describe its function with the actual account. Additionally, each fund which has a legally adopted budget, should have a budgetary control account which must have a zero balance after the budget for that fund has been recorded.

**The Budget Accounts**

In order to simplify and facilitate the reporting of comparisons of budget and actual revenues and expenditures, several additional budgetary control accounts are used in the system. These accounts, together with a brief description of the budgetary items to be classified in each, are listed below.

<table>

</tbody>
</table>
3880 BUDGETARY FUND BALANCE Planned surplus (or deficit) of current year, revenue over current year expenditures

3890 BUDGETARY CONTROL The offsetting debit or credit for other budget entries

**Recording the Budget**

Recording the budget is a four-step process:

**Step 1:** Record appropriations on or about July 1 in both General and subsidiary ledgers for proper budgetary control. The level of control in the subsidiary ledgers is at the discretion of the Accountant/Auditor, but at a minimum, should reflect the vote of the community's legislative body. Appropriations should include other financing uses such as transfers to other funds and should only include those for the upcoming fiscal year beginning July 1.

**Step 2:** Record revenue estimates of the year on or about July 1. Revenues should include local estimated receipts, other financing sources and transfers from other funds, an estimate of real and personal property tax levy net of Overlay and state Cherry Sheet distributions and reimbursements.

**Step 3:** Record "Other Amounts To Be Raised" by taxation as soon as they become known. These amounts are itemized on page 2, parts IIB through IID of the Tax Rate or Pro Forma Recapitulation form and include state and county assessments, the Overlay and certain amounts allowed by Massachusetts General Laws to be overspent.

**Step 4a:** Record the Pro Forma Recapitulation form when approved by the Director of Accounts (only if estimated semi-annual or third quarter estimated tax bills are first approved by the Director).

**Step 4b:** Record the Tax Rate Recapitulation form when approved by the Director of Accounts.

**Source Documents**

There are several source documents for the budgetary entries: the certified list of appropriations voted (certified by the city or town Clerk according to M.G.L. Ch. 41, §15A, the annual Cherry Sheet, the estimate of revenues from which the annual budget was prepared, the Balance Sheet, the Tax Rate Recapitulation and/or Pro Forma Recapitulation form(s). These documents may be supplemented by budget control worksheets such as the ones that follow to assist in ensuring that correct budget amounts are recorded in the accounting records of the community and are accurately distributed to the various funds.
Budget Control Worksheets

Four worksheets have been designed to simplify the allocation of budgeted amounts to the various funds without loss of control. The use of worksheets of this sort is recommended, but is not required. For purposes of this presentation, the worksheets only show general ledger entries and the journal entries that follow show both the general and subsidiary ledger entries. They may in addition assist the Accountant/Auditor to reconcile items found on the Tax Rate and/or Pro Forma Recapitulation form(s) which require the Accountant/Auditor to verify the accuracy of the information presented to the Department of Revenue. The four worksheets include:

**Budget Control Worksheet - Appropriations:** classifies and summarizes annual appropriations by fund type and by expenditure functions.

**Budget Control Worksheet - Local Receipts:** classifies and summarizes annual local estimated receipts by fund type.

**Budget Control Worksheet - Other Receipts:** details transfers from other funds, other financing sources, an estimate of tax levy and Cherry Sheet revenues net of offsets.

**Budget Control Worksheet - Other Amounts to be Raised:** details other amounts allowed by Massachusetts General Laws to be raised by taxation without appropriation as found on the Pro Forma and/or Tax Rate Recapitulation form(s).

Copies of each worksheet, together with instructions, are presented in the following pages of the chapter.
### Instructions for Preparing Budget Control Worksheet - Appropriations

This worksheet is designed to simplify the process of identifying and classifying amounts appropriated by a municipality's authorizing body into a form that will facilitate the preparation of budget journal entries. It should be prepared in connection with other budget control worksheets. It will be noted that the worksheet is presented in summary form (by function, rather than by function, department and expenditure object) for space considerations. It is assumed that a municipality will have prepared a more detailed appropriation worksheet (by function, department and expenditure object) as an intermediary step toward the preparation of this worksheet. The worksheet is most easily prepared if the following sequence of directions is followed:

1. Enter the information from the Clerk's certified copy of amounts appropriated.

2. Review each appropriation and apply the amount to the appropriate fund or funds by functional category. Note that the General Fund will have the most entries, but that special consideration should be given to:

---

---
Enterprise activities - appropriations for the operational expenses of a department classified as an enterprise activity should be applied to the Proprietary column.

Operating transfers - it will be necessary to identify any operating transfers (transfers from a fund receiving the revenue to a fund through which the resources are to be expended) appropriated in the annual budget and classify them separately as "estimated other financing uses."

**Instructions for Preparing Budget Control Worksheet - Local Receipts**

This worksheet is designed to simplify the process of identifying and classifying the information included as local estimated receipts on the Pro Forma or Tax Rate Recapitulation form in order to facilitate the preparation of budget journal entries. It should be prepared in connection with the other budget control worksheets. The worksheet is most easily prepared if the following sequence of directions is followed:

1. Enter the information that would be found on page 3, local estimated receipts, of the Pro Forma or Tax Rate Recapitulation form.

2. Starting with Motor Vehicle Excise, review each line item and apply the amount from column (b) to the fund in which the revenue is reportable. Note that the General Fund will have the most entries.

**Instructions for Preparing Budget Control Worksheet - Other Receipts**

This worksheet is designed to simplify the process of detailing the information included as transfers from other funds, other financing sources, an estimate of tax levy net of Overlay, and Cherry Sheet distributions and reimbursements from the Clerk’s certification of appropriations as well as from other budgetary references. It should be prepared in connection with the other budget control worksheets. The worksheet is most easily prepared if the following sequence of directions is followed:

1. Include as transfers from other funds amounts from the Clerk’s certification of appropriations.
2. Include as other financing sources amounts from the Clerk’s certification of appropriations.
3. Include an estimate of real and personal property tax levy. This amount may be the municipality’s estimated levy limit for the fiscal year or estimated levy determined during the budget process. The amount is net of the overlay.
4. Include the Cherry Sheet revenue amount as reported to the municipality by the Commissioner of Revenue annually.
# Instructions for Preparing Budget Control Worksheet - Other Amounts to be Raised

This worksheet is designed to simplify the process of detailing the information included as Other Amounts to be Raised as reported on the Tax Rate or Pro Forma Recapitulation form. It should be prepared in connection with the other budget control worksheets. The worksheet is most easily prepared if the following sequence of directions is followed:

1. Include the Cherry Sheet assessment amount as reported to the municipality by the Commissioner of Revenue annually.

2. Include the amount estimated for Overlay for the fiscal year.

3. Include other amounts required to be raised by taxation as they become known.

General Ledger Journal Entry #8

General Ledger Journal Entry #9

General Ledger Journal Entry #10A
Illustrative Journal Entries

Illustrative journal entries for the budget control worksheets presented in the preceding exhibits are provided below. All entries are presented for the General Fund; budget entries for other funds are illustrated in subsequent chapters.

General Fund

1. The initial entry would be made as of July 1, the start of the fiscal year, and would record the total appropriations as reflected on the appropriations worksheet:

   001-3890 BUDGETARY CONTROL 11,414,657
   001-3830 APPROPRIATIONS 11,414,657

   To record the annual budget

   Subsidiary ledger entry for this journal entry would be:

   001-5000 Subsidiary Appropriation Control 11,414,657
   001-5100 Personal Services 8,725,000
   001-5200 Purchase of Services 450,000
   001-5400 Supplies 190,000
   001-5600 Intergovernmental 100,000
   001-5800 Capital Outlay 700,000
   001-5910 Maturing Principal on Long-term Debt 845,000
   001-5850 Additional Equipment 404,657

2. Amounts appropriated in the General Fund, which will be expended in another fund, are recorded as an estimated financing use as follows (note that the fund to which the operating transfer is made will have a similar but opposite entry):

   001-3890 BUDGETARY CONTROL 50,343
   001-3870 ESTIMATED OTHER FINANCING USES 50,343

   To record budgeted operating transfers-out

   Subsidiary ledger entry for this journal entry would be:

   001-5000 Subsidiary Appropriation Control 50,343
   001-5963 Transfers to Capital Projects Funds 5,000
   001-5965 Transfer to Proprietary Fund 45,343
3. Budgeted revenues, as summarized on the Budget Control Worksheet - Local Receipts:

001-3815  ESTIMATED REVENUE  1,019,750  
001-3890  BUDGETARY CONTROL  1,019,750  

To record estimated receipts budget

Subsidiary ledger entry for this journal entry would be:

001-4150  Motor Vehicle Excise  825,000  
001-4410  Licenses  15,000  
001-4770  Fines and Forfeits  17,500  
001-4240  Non-Enterprise Charges for Usage  2,500  
001-4320  Fees  26,250  
001-4360  Rentals  2,500  
001-4450  Permits  16,500  
001-4340  Tuition  4,000  
001-4350  Pupil Transportation  500  
001-4170  Penalties and Interest on Taxes and Excises  70,000  
001-4820  Earnings on Investments  40,000  
001-4000  Subsidiary Revenue Control  1,019,750  

4. Other financing sources to be transferred from other funds for use in the General Fund are recorded as follows (note that the transferring fund will have a similar but opposite entry):

001-3820  ESTIMATED OTHER FINANCING SOURCES  19,500  
001-3890  BUDGETARY CONTROL  19,500  

To record budgeted operating transfers in

Subsidiary ledger entry for this journal entry would be:

001-4970  Transfer from Special Revenue Funds  16,500  
001-4970  Transfer from Special Purpose Trust and Agency Funds  3,000  
001-4000  Subsidiary Revenue Control  19,500  

102
5A. The amount, “From Available Funds to Reduce Tax Rate” represents the planned use of surplus funds, or funds which have been classified as a part of the unappropriated fund balance of a municipality. These amounts are not part of the municipality’s budgeted revenue or expenditures for the year. Such amounts, in essence, fund a planned budget deficit and the budgetary entry reflects this fact:

001-3880 BUDGETARY FUND BALANCE 100,000
001-3890 BUDGETARY CONTROL 100,000

To record other amounts appropriated to revenue

5B. Simultaneously, an actual entry must be made to reclassify the amounts reserved from Undesignated Fund Balance.

001-3590 Undesignated Fund Balance 100,000
001-3240 Fund Balance Reserved for Expenditures 100,000

To record the appropriation of free cash to reduce the tax rate

6. The estimated tax levy is recorded as follows:

001-3810 ESTIMATED TAX LEVY 9,218,951
001-3890 BUDGETARY CONTROL 9,218,951

To record the estimated tax levy

Subsidiary ledger entry for this journal entry would be:

001-4120 Real Property Taxes 8,857,531
001-4110 Personal Property Taxes 361,420
001-4000 Subsidiary Revenue Control 9,218,951

7. Expected "Cherry Sheet" distributions are recorded as follows:

001-3815 ESTIMATED REVENUE 2,046,949
001-3890 BUDGETARY CONTROL 2,046,949

To record "Cherry Sheet" distributions from the State, net of offsets
Subsidiary ledger entry for this journal entry would be:

001-4610  Reimbursement for Loss of Taxes  
           on State Owned Land  17,400
001-4610  Abatements to Veterans, Blind
 & Surviving Spouse  5,700
001-4610  Abatements to the Elderly  12,500
001-4660  Veterans' Benefits  10,249
001-4620  Chapter 70  1,771,900
001-4660  Highway Fund  54,000
001-4620  Transportation of Pupils  106,600
001-4620  School Construction Projects  68,600
001-4000  Subsidiary Revenue Control  2,046,949

8. The current year's assessment for state and county charges is recorded as an estimated other financing use.

001-3890  BUDGETARY CONTROL  475,000
001-3860  OTHER AUTHORIZED EXPENDITURES  475,000

To record state and county assessments for the fiscal year

Subsidiary ledger entry for this journal entry would be:

001-5000  Subsidiary Appropriation Control  475,000
001-5621  County Tax  140,000
001-5631  Special Education  60,000
001-5641  Metropolitan Area Planning Council  25,000
001-5661  MBTA  250,000

9. The Overlay for the current year is recorded as a reduction of estimated revenue.

001-3890  BUDGETARY CONTROL  360,000
001-3815  ESTIMATED REVENUE  360,000

To record the overlay for the fiscal year

Subsidiary ledger entry for this journal entry would be:

001-4000  Subsidiary Revenue Control  360,000
001-4130  Abatements and Exemptions  360,000
10A. The final budget amounts to be recorded are "Other Amounts to Be Raised." The "Other Amounts" are raised in the current year's levy to offset expenditures made in the prior year and will accordingly be credited directly to the Budgetary Fund Balance account. At the same time that the budget entry is recorded, an additional entry will be made to restore each of these amounts to the Undesignated Fund Balance account. Such amounts were segregated during the prior year's closeout process to ensure that they were raised in the current year's levy. Note that the latter entry is not a budget entry, but a reclassification within non-budgetary accounts.

001-3890 BUDGETARY CONTROL 12,900
001-3880 BUDGETARY FUND BALANCE 12,900

To record "other amounts to be raised" included in fiscal year tax levy

COURT JUDGMENTS 10,650
UNPROVIDED ABATEMENTS 2,250

There is no entry necessary in the subsidiary ledgers.

10B. Simultaneously, an actual entry must be made to reclassify the amounts reserved to Undesignated Fund Balance.

001-3590 Undesignated Fund Balance 12,900
001-3595 Unreserved Fund Balance -
  Court Judgments 10,650
001-3594 Unreserved Fund Balance -
  Unprovided Abatements and Exemptions 2,250

To reclassify various fund balance accounts to unreserved fund balances
CHAPTER 9 - GENERAL FUND

The General Fund is the largest and single most important fund of a local government. Most of a local government’s revenue resources are accounted for in it, and substantially all of the day-to-day departmental operating expenditures are financed and accounted for in it.

Generally, all funds received by a governmental entity belong to the General Fund unless otherwise directed by Massachusetts General Laws or by Special Acts of the Massachusetts Legislature. Grants must be segregated as well as funds received in which the entity is acting as a trustee or agent. It is improper for a governmental entity to reserve General Fund monies as Special Revenue without proper authority granted by legislation or by the Director of Accounts.

The principal revenue resources of the General Fund include real estate and personal property taxes (for districts this translates into assessments), motor vehicle and other excises, departmental receipts, and state aid. With the exception of the portion of the annual budget which is funded through enterprise revenues, substantially all of the normal and recurring departmental expenditures are accounted for in the General Fund.

The General Fund will also have transactions with other funds. The types of interfund transactions may include quasi-external transactions, reimbursements, loans, advances, operating transfers and residual equity transfers. Each of these interfund activities is defined in this chapter, together with the appropriate accounting for such transactions.

Budget

A municipality's annual budget will be formally recorded in budgetary accounts and integrated into the General Fund general ledger.

General Fund Accounting

As with all governmental funds, the focus of General Fund accounting is on sources and uses of "available spendable resources." This measurement focus requires the use of the modified accrual basis of accounting.

The principal source of revenue for the General Fund is the property tax. The journal entries illustrate the entire accounting cycle for one fiscal year beginning with the opening trial balance, and ending with a closing trial balance, which has been prepared after posting of the journal entries presented in the chapter. Dollar values have been assigned to the entries to assist the reader in following the presentation.
Illustrative Journal Entries

Accounting for the activities of the General Fund is depicted through a series of journal entries in the following pages. In most instances, the journal entries have been arranged in the order in which they would occur during the fiscal year. The entries have been grouped under the following general categories:

- Opening entries
- * Budget entries (see chapter 8, Budget Entries, for budgetary journal entries)
- Expenditures and Other Cash Disbursements
- Supplemental Appropriations
- Transactions and Transfers
- Revenues
- Other Transactions
- Special Topics
- Year-end Transactions
- Closing Trial Balance

Addendum

Opening Entries

**Opening Entries** - The opening entries record the opening trial balance carried over from the prior year and restore the accounts to the basis of accounting on which they will be maintained during the year.
1. The trial balance after final adjustment at the close of the prior year-end is brought forward and recorded as the current year's beginning trial balance.

1,717,900 1,717,900
To record the opening entry in the General Fund as shown by a trial balance of accounts as of the close of the prior fiscal year.

2. In order to restore the accounting to the proper basis, the "Deferred Revenue" account reclassified at the close of the prior year must be re-established.

001-3910  Revenue                     100,000
001-2610  Deferred Revenue - Real and Personal
          Property Taxes                   100,000

To re-establish the deferred revenue accounts

Subsidiary ledger entry for this journal entry would be:

001-4120  Real Estate Taxes            100,000
001-4000  Subsidiary Revenue Control  100,000

3. Certain payables and liabilities are paid.

001-2010  Warrants Payable             450,000
001-2020  Accounts Payable             35,000
001-2190  Other Payroll Withholdings Payable  65,000
001-1040  Cash - Unrestricted          550,000

To record warrants payable, accounts payable, and other payroll withholdings payable

4. To reverse the entry of free cash to reduce the tax rate.

001-3240  Fund Balance Reserved for
          Expenditures                        100,000
001-3590  Undesignated Fund Balance    100,000

To reverse entry appropriating "free cash" to reduce the tax rate

Expenditures and Other Cash Disbursements

The following journal entries assume that the local unit involved does not utilize an encumbrance system (that is, a system of recording purchase orders). All expenditures or cash disbursements must be authorized by an approved treasury warrant (M.G.L. Ch. 41, §56). (See investment of excess cash under "Other Transactions.")
Payroll expenditures - The examples given below reflect the practice commonly found in Massachusetts municipalities, whereby the payroll warrant is prepared for the gross amount and individual checks are prepared for the net pay of each employee and for the total of the various withholding amounts.

5. Payroll is computed for the period from various supporting documentation submitted by each municipal department. After review and approval by the Accountant, it is entered on a Treasurer's payroll disbursement warrant.

    001-3930 Expenditures 150,000
    001-1040 Cash - Unrestricted 150,000

    To record the payroll expenditures - warrant #________

    Subsidiary ledger entry for this journal entry would be:

    001-5110 Salaries and Wages, Permanent Positions 115,000
    001-5120 Salaries and Wages, Temporary Positions 35,000
    001-5000 Subsidiary Appropriations Control 150,000

6. In connection with the payroll warrant, checks drawn for the total of the various amounts withheld from employees are deposited with the Treasurer prior to their being transmitted to the appropriate agency. Such amounts are reported through the Treasurer's report of cash received.

    001-1040 Cash - Unrestricted 52,000
    001-2120 Federal Income Tax Withholdings Payable 30,000
    001-2130 State Income Tax Withholdings Payable 9,000
    001-2140 Retirement Withholdings Payable 9,000
    001-2150 Insurance Withholdings Payable 4,000

    To record the receipt of the payroll withholdings
7. The remittance of amounts withheld to taxing authorities and other agencies is reported through the Treasurer's disbursement warrant. At the same time that such amounts are being remitted, the municipality would forward its share of the expense.

001-2120 Federal Income Tax Withholdings Payable 40,000
001-2130 State Income Tax Withholdings Payable 11,000
001-2140 Retirement Withholdings Payable 10,750
001-2150 Insurance Withholdings Payable 6,250
001-3930 Expenditures 38,000
001-1040 Cash - Unrestricted 106,000

To record the remittance of payroll withholdings and the municipality's portion of employee benefits - warrant #_______

Subsidiary ledger entry for this journal entry would be:

001-5170 Unemployment Insurance 20,000
001-5170 Health Insurance (Employer's Portion) 18,000
001-5000 Subsidiary Appropriations Control 38,000

Vendor expenditures - The following journal entries are provided to record all the expenditures other than payroll which are reported on the Treasurer's warrant. These entries are applicable whether or not the municipality utilizes an encumbrance system.

8. The payment requests are forwarded by the departments, compiled and the expenditure warrant for purposes of goods and services and other departmental expenses is prepared.

001-3930 Expenditures - Current Year 356,500
001-1040 Cash - Unrestricted 356,500

To record the expenditures charged to current year appropriations - warrant #_______
Subsidiary ledger entry for this journal entry would be:

001-5210  Energy  3,000
001-5420  Office Supplies  1,100
001-5450  Custodial and Housekeeping Supplies  900
001-5480  Vehicular Supplies  1,500
001-5510  Educational Supplies  4,000
001-5430  Building and Equipment Repairs and Maintenance Supplies  1,000
001-5910  Maturing Principal on Long-term Debt  300,000
001-5915  Interest on Long-term Debt  45,000
001-5000  Subsidiary Appropriation Control  356,500

9.  The expenditures of the prior year are paid

001-3950  Prior Year Expenditures  44,000
001-1040  Cash - Unrestricted  44,000

To record the expenditures charged to prior year appropriations - warrant #_______

Subsidiary ledger entry for this journal entry would be:

001-5210  Energy  12,000
001-5480  Vehicular Supplies  12,000
001-5850  Additional Equipment  20,000
001-5000  Subsidiary Appropriation Control  44,000

10.  The county tax is paid

001-3930  Expenditures  450,000
001-1040  Cash - Unrestricted  450,000

To record the expenditures charged to state and county assessments - warrant #_______

Subsidiary ledger entry for this journal entry would be:

001-5621  County Tax  450,000
001-5000  Subsidiary Appropriation Control  450,000
11. A refund is made to the municipality for an overpayment of a vendor's bill and is reported through the Treasurer's report of cash received.

\[
\begin{align*}
001-1040 & \text{ Cash - Unrestricted } & 160 \\
001-3930 & \text{ Expenditures } & 160
\end{align*}
\]

To record the receipt of a refund of expenditures paid

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
001-5000 & \text{ Subsidiary Appropriation Control } & 160 \\
001-5420 & \text{ Office Supplies } & 10 \\
001-5450 & \text{ Custodial and Housekeeping Supplies } & 10 \\
001-5510 & \text{ Educational Supplies } & 100 \\
001-5430 & \text{ Building and Equipment Repairs and Maintenance Supplies } & 40
\end{align*}
\]

**Supplemental Appropriations**

12. The appropriating authority votes to appropriate available funds (free cash) from Undesignated Fund Balance. The appropriation is shown first.

\[
\begin{align*}
001-3880 & \text{ BUDGETARY FUND BALANCE } & 10,000 \\
001-3830 & \text{ APPROPRIATIONS } & 10,000
\end{align*}
\]

To record the transfer of free cash to appropriations

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
001-5000 & \text{ Subsidiary Appropriation Control } & 10,000 \\
001-5270 & \text{ Rental of Data Processing Equipment } & 10,000
\end{align*}
\]

13. At the time of the supplemental appropriation, the fund balance should be adjusted.

\[
\begin{align*}
001-3590 & \text{ Undesignated Fund Balance } & 10,000 \\
001-3240 & \text{ Fund Balance Reserved for Expenditures } & 10,000
\end{align*}
\]

To adjust Undesignated Fund Balance for the portion of it used for appropriations.
Transactions and Transfers

The accounting for interfund transactions is frequently misunderstood and inconsistently applied. A common terminology describing each of the various types of interfund transactions and the accounting for each type is uniform. Interfund transactions include the following types of activities:

Quasi-external Transactions - Transactions (revenues, expenditures, or expenses) if they involved organizations internal to the municipality (thus payments in lieu of taxes from an Enterprise Fund to the General Fund). Such transactions will be accounted for as revenues, expenditures or expenses in the fund involved.

Reimbursements - Transactions which constitute reimbursements of a fund for expenditures or expenses initially made from it which are properly applicable to another fund (thus an expenditure properly chargeable to a Special Revenue Fund may have been paid by the General Fund). At a subsequent time the Special Revenue Fund should reimburse the General Fund for the expenditure. Such transactions should be recorded as an expenditure of the Special Revenue Fund, and as a reduction of expenditure in the General Fund.

Loans and Advances - Transactions which constitute loans or advances should be accounted for as a “Due From” in the fund loaning or advancing the funds, and as a “Due To” in the receiving fund. Since such amounts are planned to be repaid, they should not be reflected in the revenue or expenditure accounts of either fund.

Transfers - All other interfund transactions are transfers, which may be of two types:

  Residual Equity Transfers - Non-recurring or non-routine transfers of equity between funds (thus the contribution of capital by the General Fund to an Enterprise Fund, or the return thereof). Such transactions would be reported as additions or deductions to beginning fund balance in governmental funds, or beginning unrestricted net assets in Proprietary Funds.

  Operating Transfers - All other interfund transactions (thus transfer of funds from the General Fund to the Capital Projects Fund, or a subsidy from the General Fund to an Enterprise Fund).

Interfund transactions - Transactions between funds include those where one fund renders a service to another (quasi-external transaction) and those where one fund reimburses another fund for expenditures initially made by it which were properly applicable to another fund (reimbursable transaction). Operating transfers between funds are illustrated at journal entry #14, which follows.
14. The Recreation Department (accounted for in the General Fund) fills two of its vehicles with gasoline at the Water Enterprise gasoline pumps.

001-3930 Expenditures 50
001-1040 Cash - Unrestricted 50

To record the purchase of gasoline from the Water Enterprise

Subsidiary ledger entry for this journal entry would be:

001-5480 Vehicular Supplies 50
001-5000 Subsidiary Appropriation Control 50

15. The Water Enterprise purchases office supplies from the Central Purchasing department. This is a reimbursable type of transaction and would be accounted for in the General Fund as a reduction of expense.

001-1040 Cash - Unrestricted 250
001-3930 Expenditures 250

To record the receipt of cash from the Enterprise Fund for sale of office supplies

Subsidiary ledger entry for this journal entry would be:

001-5000 Subsidiary Appropriations Control 250
001-5420 Office Supplies 250

Transfers - Transfers are either legally authorized transactions within a single fund or legally authorized transactions between two or more funds.

Legally Authorized Transfers Within A Single Fund - During the fiscal year a situation may develop where it becomes necessary to authorize one of the following:

- The transfer of funds between departmental appropriations;
- The use all or part of the appropriated Reserve Fund;
- The appropriation of other available funds.

Although some of these transfers may have no net effect on the general ledger, they all should be reflected in the general ledger accounts to provide accounting control and an audit trail.
16. The appropriating authority votes to transfer funds from a salaries and wages account to a repairs and maintenance account.

\[
\begin{align*}
001-3830 & \quad \text{APPROPRIATIONS} & 2,000 \\
001-3830 & \quad \text{APPROPRIATIONS} & 2,000 \\
\end{align*}
\]

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
001-5110 & \quad \text{Salaries and Wages - Permanent} & 2,000 \\
001-5240 & \quad \text{Repairs and Maintenance} & 2,000 \\
\end{align*}
\]

17. The appropriating authority or the Finance/Advisory Committee votes to transfer part of the Reserve Fund to provide funding for an unanticipated equipment repair. Such transactions are the only means of utilizing the Reserve Fund since no expenditures may be charged directly to it.

\[
\begin{align*}
001-3830 & \quad \text{APPROPRIATIONS} & 5,000 \\
001-3830 & \quad \text{APPROPRIATIONS} & 5,000 \\
\end{align*}
\]

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
001-5780 & \quad \text{Other Unclassified Items} & 5,000 \\
001-5850 & \quad \text{Additional Equipment} & 5,000 \\
\end{align*}
\]

18. The appropriating authority votes to transfer funds from the Fund Balance Reserved for Overlay Released by the Assessors for Expenditures account to provide funding to repair the plumbing in a municipal building.

\[
\begin{align*}
001-3880 & \quad \text{BUDGETARY FUND BALANCE} & 3,000 \\
001-3830 & \quad \text{APPROPRIATIONS} & 3,000 \\
\end{align*}
\]

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
001-5000 & \quad \text{Subsidiary Appropriations Control} & 3,000 \\
001-5240 & \quad \text{Repairs and Maintenance} & 3,000 \\
\end{align*}
\]

At the time of the supplemental appropriation, the fund balance should be adjusted.

\[
\begin{align*}
001-3220 & \quad \text{Fund Balance Reserved for Overlay Released By the Assessors for Expenditures} & 3,000 \\
001-3590 & \quad \text{Undesignated Fund Balance} & 3,000 \\
\end{align*}
\]
Legally Authorized Transfers From One Fund To Another - During the fiscal year a situation may develop wherein it becomes necessary to authorize one of the following:

- The transfer of funds from an appropriation in one fund to an appropriation accounted for in a different fund;
- The appropriation from available funds accounted for in one fund that is to be accounted for in another fund.

19. The appropriating authority or Finance/Advisory Committee votes to transfer funds from the Reserve Fund to provide funding to repair a water break.

</table>

Revenues

The following series of journal entries describe the various types of revenue in the General Fund.

**Real estate and personal property taxes** - The principal source of revenue in a municipality is that raised in the real estate and personal property tax levies. Revenue from these two sources is recognized on the cash basis or when collections are received and at the end of the year these revenues are adjusted to a modified accrual basis. A provision for possible abatements and exemptions is provided in the accounting records from the Tax Rate Recapitulation form. The receivables should be maintained in the general ledger by year of commitment. When a local government adopts the quarterly tax billing cycle, estimated bills are committed in July and October.

21A. The commitment warrant for estimated real estate and personal property taxes is presented to the Collector by the Assessors.

<table>
<thead>
<tr>
<th>Code</th>

</tr>
<tr>
<td>001-2610</td>
<td>Deferred Revenue - Real and Personal Property Taxes</td>
<td>2,250,000</td>
</tr>
</tbody>
</table>
21B. For quarterly or estimated semi-annual communities, when the tax rate is set, the estimated receivable and deferred estimated revenue are reversed and the actual commitment and overlay are recorded.

001-2610 Deferred Revenue - Real and Personal Property Taxes 2,250,000
001-1251 Estimated Personal Property Taxes Receivable 250,000
001-1252 Estimated Real Estate Taxes Receivable 2,000,000

To reverse the preliminary commitment of quarterly or estimated semi-annual Estimated Real and Personal Property Taxes Receivable

21C. The commitment warrant for real estate and personal property taxes is presented to the Collector by the Assessors.

001-1210 Personal Property Taxes Receivable 500,000
001-1220 Real Estate Taxes Receivable 4,000,000
001-1230 Allowance for Abatements and Exemptions 250,000
001-2610 Deferred Revenue - Real and Personal Property Taxes 4,250,000

To record the actual commitment of property taxes

22. The summary of abatements and exemptions for the month of November is forwarded to the Accounting Officer from the Assessors.

001-1230 Allowance for Abatements and Exemptions 250,000
001-1220 Real Estate Taxes Receivable 250,000

To record the abatements and exemptions for November

23. The Collector remits to the Treasurer the collections on real estate and personal property taxes.

001-1040 Cash - Unrestricted 940,000
001-1210 Personal Property Taxes Receivable 40,000
001-1220 Real Estate Taxes Receivable 900,000

To record the cash receipts for real estate and personal property taxes
24. The property tax revenue for the month is recorded by transferring to Revenue from Deferred Revenue the amount of cash collected (net).

001-2610  Deferred Revenue - Real and Personal Property Taxes  940,000
001-3910  Revenue  940,000

To record the revenue from collection of property taxes

Subsidiary ledger entries for this journal entry would be:

001-4000  Subsidiary Revenue Control  940,000
001-4110  Personal Property Taxes  40,000
001-4120  Real Estate Taxes  900,000

Excises - Motor vehicle excise, farm animal excise, boat excise, and classified forest lands are recorded on the books when committed to the Collector similar to property taxes. Revenue is recognized on the cash basis or when collections are received. The following entries illustrate the recording of motor vehicle excise for the current year's levy. The entries for other taxes and other years' levies are similar.

25. The commitment warrant for motor vehicle excise is forwarded to the Collector by the Assessors.

001-1260  Motor Vehicle Excise Receivable  790,000
001-2630  Deferred Revenue - Motor Vehicle Excise  790,000

To record commitment #11 of 2003 motor vehicle excise

26. The summary of abatements issued on motor vehicle excise is forwarded to the Accounting Officer by the Assessors.

001-2630  Deferred Revenue - Motor Vehicle Excise  23,000
001-1260  Motor Vehicle Excise Receivable  23,000

To record abatements on motor vehicle excise 2003

27. The Treasurer's report of cash received is submitted to the Accountant and is agreed to the Collector's transmittal sheet.

001-1040  Cash - Unrestricted  80,000
001-1260  Motor Vehicle Excise Receivable  80,000
To record cash collected on motor vehicle excise

28. The motor vehicle excise revenue for the month is recorded by transferring to revenue from the "Deferred Revenue" account, the amount of cash collected during the month on motor vehicle excise.

001-2630  Deferred Revenue - Motor Vehicle Excise  80,000
001-3910  Revenue 80,000

To record the revenue from collection on motor vehicle excise

Subsidiary ledger entry for this journal entry would be:

001-4000  Subsidiary Revenue Control 80,000
001-4150  Motor Vehicle Excise 80,000

29. A refund of a credit balance on a taxpayer’s account is reported on the Treasurer’s expenditure warrant. The credit balance may have resulted from either an overpayment, or an abatement after payment was made.

001-1260  Motor Vehicle Excise Receivable 100
001-1040  Cash - Unrestricted 100

To record refunds of overpayments collected on motor vehicle excise

30. The Revenue account is adjusted and the Deferred Revenue account is restored to reflect the refund.

001-3910  Revenue 100
001-2630  Deferred Revenue - Motor Vehicle Excise 100

To adjust Revenue for the refunds of motor vehicle excise

Subsidiary ledger entry for this journal entry would be:

001-4150  Motor Vehicle Excise 100
001-4000  Subsidiary Revenue Control 100

31. The commitment warrant for boat excise is forwarded to the Collector by the Assessors.

001-1270  Boat Excise Receivable 2,500
001-2641  Deferred Revenue - Boat Excise 2,500

To record commitment #1 of 2003 boat excise
32. The Treasurer's report of cash received is submitted to the Accountant and is agreed to the Collector's transmittal sheet.

001-1040 Cash - Unrestricted  2,000
001-1270 Boat Excise Receivable  2,000

To record cash collected on boat excise

33. The boat excise revenue for the month is recorded by transferring to Revenue from the Deferred Revenue account one half of the collections received during the month, the other half being transferred to the Waterways Improvement Fund.

001-2641 Deferred Revenue - Boat Excise Receivable  2,000
001-3910 Revenue  1,000
001-2310 Due to Special Revenue Fund  1,000

To record the revenue from collection on boat excise

Subsidiary ledger entry for this journal entry would be:

001-4000 Subsidiary Revenue Control  1,000
001-4160 Other Excise  1,000

The following examples of journal entries are for prior year delinquent taxes. Tax liens on current year's delinquent taxes are identical except that a separate subsidiary account should be used.

The entries to record the takings of subsequent year's delinquent taxes to lien are also identical, but should be posted separately.

Similar entries for liens will be made in other funds when the tax lien includes enterprise liens (water, sewer, and electric light).
34. The Tax Collector records delinquent real estate taxes and forwards a copy of the taking document to the Treasurer and the Accounting Officer.

38. The Board of Assessors or Land Court determines that property which has a tax lien has been improperly assessed and an abatement certificate is issued by the Assessors, with the approval of the Commissioner of the Department of Revenue.

001-1230 Allowance for Abatements and Exemptions 1,600  
001-2622 Deferred Revenue - Tax Liens 1,850  
001-1240 Tax Liens Receivable 1,850  
001-2610 Deferred Revenue - Real and Personal Property Taxes 1,600

To record the abatement of taxes previously tax liened

39. The Treasurer or other custodian of tax liens may sell land of low value that has a recorded tax lien (M.G.L. Ch. 60, §79). The cash received is reported through the Treasurer's report of cash received (normally additional information is needed from the Treasurer supporting this transaction in order to properly record it). The following entry assumes the cash received exceeded the receivable and interest due.

001-1040 Cash - Unrestricted 6,500  
001-1060 Cash - Restricted 2,000  
001-1240 Tax Liens Receivable 6,300  
001-2530 Excess on Sale of Land of Low Value 2,000  
001-3910 Revenue 200

To record the sale of land of low value for an amount greater than the receivable balance plus interest charged to date of sale

(If the property was sold at an amount equal to the receivable balance plus interest charged to date of sale, then the entry would be identical except the credit to Excess on Sale of Land of Low Value would be unnecessary.) See Journal entry #40 for the subsidiary revenue entry.

40. Revenue and the Deferred Revenue - Tax Liens are adjusted to reflect the cash received on the sale of land of low value.

001-2622 Deferred Revenue - Tax Liens 6,300  
001-3910 Revenue 6,300

To record the revenue from sale of lands of low value
Subsidiary ledger entry for these journal entries #39 and #40 would be:

001-4000  Subsidiary Revenue Control         6,500
001-4142  Tax Liens Redeemed                  6,300
001-4170  Penalties and Interest on Tax Liens  200

41. The Treasurer or other custodian of tax liens sells land of low value that has a tax lien and the cash received is less than the amount of the receivable and interest due.

001-1040  Cash - Unrestricted                  4,500
001-1240  Tax Liens Receivable                 4,500

To record the sale of land of low value for an amount less than the receivable

42. The receivable, Revenue and Deferred Revenue - Tax Liens are adjusted to reflect the sale of lands of low value.

001-2622  Deferred Revenue - Tax Liens           5,500
001-1240  Tax Liens Receivable                   1,000
001-3910  Revenue                               4,500

To record the revenue from sale of land of low value

(Note: the entire individual receivable balance must be eliminated because the property has been sold.)

Subsidiary ledger entry for this journal entry would be:

001-4000  Subsidiary Revenue Control           4,500
001-4142  Tax Liens Redeemed                    4,500

(Note that no entry is made for interest due since it is recognized on a cash basis and none was collected.)
43. Occasionally a tax lien is recorded in error. This can occur for any number of reasons, such as transferring the same delinquent real estate receivable twice, or recording the lien under the wrong taxpayer's name. Since tax liens are formally recorded with the registry of deeds, a simple adjusting entry or collection cannot be made. Instead, a normal disclaimer document must be filed and the following entries recorded.

```
001-1220  Real Estate Taxes Receivable 1,150
001-2622  Deferred Revenue - Tax Liens 600
001-1240  Tax Liens Receivable 1,750
```

To record the disclaimer of the tax lien

44. Due to the tax lien being reclassified as a real estate tax receivable, the uncollected tax liens and deferred revenue must be adjusted.

```
001-2622  Deferred Revenue Tax Liens 1,150
001-2610  Deferred Revenue - Real and Personal Property Taxes 1,150
```

To record the adjustment to Deferred Revenue for disclaimed tax liens

**Tax foreclosures** - Tax liens may be subject to a foreclosure if the tax liens are not paid in accordance with the period required by the law (M.G.L. Ch.60, §50). Foreclosure proceedings are processed by the Treasurer or other tax lien custodian. Foreclosed properties should then be sold through advertised public auction as soon as practicable. The transactions involving foreclosures are reflected in the entries shown below.

45. The Treasurer forecloses on a tax lien receivable account which includes a water lien of $100. The amount collected on the water lien should be reflected as a revenue of the Water Enterprise Fund. Since the cash received will stay in the general fund, a credit is made to other financing sources reflecting the operating transfer that has taken place between funds. The Enterprise Fund will record the operating transfer as an Other Financing Use.

```
001-1880  Tax Foreclosure 3,300
001-1240  Tax Liens Receivable 3,200
001-3920  Other Financing Sources 100
```

To record the foreclosure of tax liens receivable
46. Since the municipality has acquired an asset by relinquishing a receivable, it must eliminate the uncollectible and recognize revenue. It is as if the municipality collected the receivable and used the cash it collected to acquire the property.

<td>400</td>
</tr>
</tbody>
</table>

(If the amount of cash received and the carrying basis of the foreclosed property were equal (i.e., if the property was sold for $4,400), then the above entry reducing revenue would not be necessary. If the amount of cash received exceeded the value of the foreclosure (that is, the foreclosure was sold for $6,400, then the revenue would be increased or credited for $2,000.)
49. Often when a foreclosure property is sold, due to the timing of the sale, a real estate tax is due from the buyer. This is referred to as a "pro forma tax" (M.G.L. Ch. 44, §63A). The following entry illustrates the collection of pro forma tax upon the sale of foreclosure property.

\[
\begin{align*}
\text{001-1040} & \quad \text{Cash - Unrestricted} & \quad 80 \\
\text{001-3910} & \quad \text{Revenue} & \quad 80 \\
\end{align*}
\]

To record the pro forma tax collected on foreclosure sale

Subsidiary ledger entry for this journal entry would be:

\end{align*}
\]
**State distribution receipts** - State "Cherry Sheet" distributions are recognized as revenue at the time they are received. Offset items (school lunch, aid to reduce class size, racial equality and library) are considered special revenue and recorded as revenue in the Special Revenue Funds.

52. State distributions are received and reported through the Treasurer's report of cash received.

**Department Receivables** - Amounts billed to taxpayers and other service recipients by various departments should be established as receivables of the General Fund and fully offset with a deferred revenue account. (Proprietary Fund receivables are separately classified) Separate accounts may be established to reflect the receivable attributable to each department, but it is generally simpler to record all the deferred revenue in one account.
The entries used to record the transactions in the departmental receivables are the same as those for excises, except that a separate group of subsidiary revenue accounts would be used to record the revenue from collections. It is possible for other funds to have departmental receivables. In Special Revenue Funds the accounting would be the same as the General Fund using the modified accrual method of accounting.

**Direct receipts** - Other revenues include amounts for licenses, permits and fees. Such amounts are generally not billed out, and are thus recorded when received in cash.

54. The Clerk's receipts are turned over to the Treasurer and reported through the Treasurer's report of cash received.

<table>
<thead>
<tr>

<td>100</td>
</tr>
</tbody>
</table>

**Off-duty work details** - Amounts for off-duty work details are collected from outside sources and recorded in an agency account (M.G.L. Ch. 44, §53C). Such amounts are subsequently remitted to municipal employees through special payrolls and charged to the agency account. Some municipalities, however, charge a service fee for processing these collections and payments, and these must be recognized as receipts and revenue of the general fund. These receipts should be reported through the Treasurer's report of cash received.

55. The municipality receives the service fees charged for the overhead costs related to the processing of off-duty work details.

<table>

</tbody>
</table>

Other Transactions

**Investment of excess cash** - Excess cash may be invested in a number of investment vehicles, including securities, repurchase agreements, treasury bills, and certificates of deposit (M.G.L. Ch. 44, §55). All expenditures made for investments must be made through an approved Treasurer's warrant. The entries and general ledger accounts used should be descriptive of the type of investment made and any restriction on the funds invested. Maturities and the interest or other income earned must be reported on the Treasurer's report of cash received.

56. The Treasurer purchases a certificate of deposit through an approved Treasurer's warrant.

<table>

</tbody>
</table>

**Temporary borrowings** - During the fiscal year situations generally develop wherein the cash flow of the municipality does not provide the amount of cash needed for expenditures. The Treasurer is normally authorized to borrow for the short term in anticipation of revenue. The proceeds from temporary borrowing should be reported through the Treasurer's report of cash received and the payment reported through an approved Treasurer's warrant.
58. The Treasurer issues a revenue anticipation note.

001-1040  Cash - Unrestricted  800,000
001-2710  Revenue or Tax Anticipation Notes Payable  800,000

To record the issuance of revenue anticipation notes

59. The Treasurer pays the principal and interest on a maturing note.

001-2710  Revenue or Tax Anticipation Notes Payable  800,000
001-3930  Expenditures  21,000
001-1040  Cash - Unrestricted  821,000

To record the payment of a revenue anticipation note

Subsidiary ledger entry for this journal entry would be:

**Special Topics**

**Operating transfers** - Operating transfers are legally authorized transfers between funds. Such transactions include those from a fund receiving revenue to the fund through which the resources are to be expended (such as transfers from the General Fund to a Special Revenue Fund or Capital Projects Fund, or a Special Revenue Fund to an Enterprise Fund) and transfers from an Enterprise Fund (other than payments in lieu of taxes) to finance General Fund expenditures. Operating transfers should be reported separately as an Other Financing Source or an Other Financing Use.

63. Funds are transferred to the Capital Projects Fund to be used on a capital project.

<p>| | | |</p>

001-5000 & \quad \text{Subsidiary Appropriation Control} & 20,000 \\
\end{align*}
\]

Court judgments - If a municipality in Massachusetts is ordered by the courts to make a payment in settlement of a suit, such payment must be made when ordered and the amount of the judgment must be raised in the following year's levy. The budget entries given earlier illustrate the process of clearing this balance from the general ledger when raised. The following entry illustrates the recording of the actual payment.

67. The local governmental unit is ordered to pay a judgment by the court and pays it through an approved warrant pursuant to M.G.L. Ch. 44, §31.

\[
\begin{align*}
001-3930 & \quad \text{Expenditures - Current Year} & 15,000 \\
001-1040 & \quad \text{Cash - Unrestricted} & 15,000 \\
\end{align*}
\]

001-5760 & \quad \text{Judgments} & 15,000 \\
001-5000 & \quad \text{Subsidiary Appropriation Control} & 15,000 \\
\end{align*}
\]
(Note that as part of the year-end closing entries, these expenditures would be closed out to the account, Unreserved Fund Balance - Court Judgments, instead of Undesignated Fund Balance, unless appropriated in advance by the municipality).

When the Tax Rate Recapitulation form is recorded, it will be necessary for the Accounting Officer to adjust the Unreserved Fund Balance - Court Judgments, and Unreserved Fund Balance - Unprovided Abatements and Exemptions as shown on the opening trial balance in this chapter.

68. An entry must be made to reclassify the amounts reserved to Undesignated Fund Balance.

To record the proceeds of deficit bonds
In the GLTOAG

050-1996 Amounts to be Provided for the Payment of Bonds 5,000,000
050-2999 Bonds Payable - Outside the Debt Limit 5,000,000

71. The teachers’ pay deferral is amortized for the current year in accordance with the amortization schedule.

001-3590 Undesignated Fund Balance 15,000
001-3350 Fund Balance Reserved for Teachers’ Pay Deferral 15,000

To record the amortization of teachers’ pay deferral

72. The state makes a payment deducted from the local government’s local aid for debt service on a qualified bond.

001-3930 Expenditures 500,000
001-2670 Deferred Revenue - Intergovernmental 500,000
001-1720 Due from Commonwealth of Massachusetts 500,000
001-3910 Revenue 500,000

To record the payment of a debt service on a deferred bond

73. The government sells $20,000,000 in bonds at a premium of $500,000 on a project for which the debt service is excluded from the tax levy.

001-1040 Cash - Unrestricted 20,500,000
001-3920 Other Financing Sources 20,000,000
001-3296 Fund Balance Reserved for Reduction of Future Excluded Debt 500,000

To record the proceeds of bonds sold at a premium, the debt service of which is excluded from the tax levy limit

In the GLTOAG

050-1996 Amounts Provided for the Payment of Bonds 20,000,000
050-2940 Bonds Payable - Outside the Debt Limit 20,000,000
74. The government received notice from the Massachusetts Teachers’ Retirement Board that $250,000 has been paid to retired teachers on behalf of the community.

001-3930  Expenditures                      250,000
001-3910  Revenue                          250,000

To record the payments made to retired teachers by the Massachusetts Teachers’ Retirement Board on behalf of the community

No subsidiary entries are necessary

75. The government receives notice that the securities it owns have increased in market value by $2,000.

001-1110  Short Term Investments            2,000
001-3910  Revenue                           2,000

To adjust the carrying value of investments to equal market value

Subsidiary ledger entry for this journal entry would be:

001-4000  Subsidiary Revenue Control        2,000
001-4890  Gain or Loss in Investment Portfolio 2,000

76. The government takes foreclosed land for its own use. The taxes, penalties, and interest on the land equals $500.

001-3930  Expenditures                     500
001-2623  Deferred Revenue - Tax Foreclosures 500
001-1880  Tax Foreclosures                 500
001-3910  Revenue                          500

To record the taking of land in tax foreclosure for use by the community

There are two subsidiary ledger entries for this journal entry:

Subsidiary Revenue ledger

001-4000  Subsidiary Revenue Control        500
001-4145  Tax Foreclosures                  500

Subsidiary Expenditure ledger

001-5810  Land                              500
In the GFAAG, the following entry will be recorded:

010-1910 Land 500
010-3015 Net Assets Unrestricted 500

To record the acquisition of land on which taxes were foreclosed

Annual Town Meeting - After the annual town meeting any free cash voted to be used must be shown, as reserved.

77. Free Cash is voted.

001-3590 Undesignated Fund Balance 150,000
001-3240 Fund Balance Reserved for Expenditures 150,000

To record appropriation from free cash at annual town meeting. (This entry will be reversed after beginning of next fiscal year).

Year-End Transactions

Adjusting Entries - At the fiscal year-end certain adjusting entries will be recorded to convert the accounting for revenue from the cash basis to a modified accrual basis. The following entries illustrate a few typical year-end adjustments.

78. The amounts collected during the period July 1 to August 31 on property taxes and outstanding at June 30, will be recorded as revenue in the fiscal year that was just ended on June 30.

001-2610 Deferred Revenue - Property Taxes 100,000
001-3910 Revenue 100,000

To adjust the receivable to the modified accrual method

Subsidiary ledger entry for this journal entry would be:

001-4000 Subsidiary Revenue Control 100,000
001-4120 Real Estate Taxes 100,000
79. The interest earned but not received on investments must be accrued. This interest is considered available for the current period.

\[
\begin{align*}
001-1550 & \quad \text{Accrued Interest Receivable} & 14,000 \\
001-3910 & \quad \text{Revenue} & 14,000 \\
\end{align*}
\]

To accrue interest on investments

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
001-4000 & \quad \text{Subsidiary Revenue Control} & 14,000 \\
001-4820 & \quad \text{Earnings on Investments} & 14,000 \\
\end{align*}
\]

80. The amount due from the General Fund to the Water Enterprise Fund for reimbursement of the operating deficit is recorded.

\[
\begin{align*}
001-3970 & \quad \text{Other Financing Uses} & 75,670 \\
001-2360 & \quad \text{Due to Proprietary Fund} & 75,670 \\
\end{align*}
\]

To record the liability to the Proprietary Fund to fund its operating deficit

Subsidiary entry for this journal entry would be:

\[
\begin{align*}
001-5965 & \quad \text{Transfer to Proprietary Fund} & 75,670 \\
001-5000 & \quad \text{Subsidiary Appropriations Control} & 75,670 \\
\end{align*}
\]

81. Amounts required for abatements and exemptions in excess of amounts initially provided ("overlay deficits") are reclassified.

\[
\begin{align*}
001-3594 & \quad \text{Unreserved Fund Balance - Unprovided Abatements and Exemptions} & 20,000 \\
001-1230 & \quad \text{Allowance for Abatement and Exemptions} & 20,000 \\
\end{align*}
\]

To reclassify unprovided abatements and exemptions at year-end to fund balance as a reduction
82. The Deferred Revenue - Real and Personal Property Taxes account has to be adjusted for the underestimate in the Allowance for Abatements and Exemptions - 2002 account.

001-2610 Deferred Revenue - Real and Personal Property Taxes 20,000
001-3590 Undesignated Fund Balance 20,000

To adjust the Deferred Revenue - Real and Personal Property Taxes account for the underestimates in the Allowance for Abatements and Exemptions account.

83. The Allowance for Abatements and Exemptions account has to be adjusted to record the release of funds by the Assessors

001-1230 Allowance for Abatements and Exemptions 5,000
001-3220 Fund Balance Reserved for Overlay Released by the Assessors for Expenditures 5,000

To adjust Allowance for Abatements and Exemptions

84. The Deferred Revenue - Real and Personal Property Taxes account has to be adjusted for the excess in the Allowance for Abatements and Exemptions.

001-3590 Undesignated Fund Balance 5,000
001-2610 Deferred Revenue - Real and Personal Property Taxes 5,000

To adjust the Deferred Revenue - Real and Personal Property Taxes account for the excess in the Allowance for Abatements and Exemptions

85. To reinstate the fund balance for the portion reserved for expenditures and which has been funded.

001-3240 Fund Balance Reserved for Expenditures 10,000
001-3590 Undesignated Fund Balance 10,000

To reverse the reservation of fund balance for expenditures
Closing Entries - The closing entries are organized to aid in understanding the relationship between budgetary, operating and fund equity accounts. First, the budgetary accounts are closed against each other. This entry is essentially a reversing entry of the initial budgetary entry. Second, revenues are closed to Undesignated Fund Balance and, third, the expenditure accounts are closed to Undesignated Fund Balance. The final entries segregate a portion of Unreserved Fund Balance for Court Judgments, unused appropriations from available funds, and outstanding encumbrances.

86. The budget entry for the fiscal year is reversed.

CHAPTER 10 - SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for resources legally restricted to expenditure for specified current operating purposes. Accounting and financial reporting is identical to the General Fund.

In Massachusetts, the resources which will be accounted for in Special Revenue Funds will include the following:

- State and Federal grants, Entitlements and Shared Revenue not accounted for in other funds;
- School Lunch Fund;
- Highway Improvement Program;
- Receipts Reserved for Appropriation;
- Community Preservation Act;
- Law Enforcement Trust Fund;
- Wetlands Protection Fund;
- Offset Receipts Fund;
- Water Pollution Abatement Trust Fund (Title 5 Betterment Loan Program) (see journal entries in Appendix H);
- Gifts and Donations

This chapter presents examples of Special Revenue Funds under the UMAS system and journal entries to reflect the accounting requirements of these funds. A few examples are presented, but the accounting for all Special Revenue Funds is the same. One important exception is a sewer department operated under Chapter 83, §16. Although the operations of the fund may be accounted for separately as Special Revenue, any surplus or deficit is closed to the General Fund at the end of the fiscal year.

A listing of Special Revenue Funds normally used is found in Appendix I to this Manual.

Grants, Entitlements and Shared Revenue

In some Massachusetts governments the revenues from state and federal grants constitute a significant percentage of their annual revenue. The number of grants that a government might receive in a given fiscal year can vary from a few, perhaps 15 to 20, to well over 100. The legal and contractual obligations, as well as the accounting and reporting responsibility which a grant may impose on a community, can be burdensome.

For purposes of understanding the accounting system's approach to grant accounting, there is a need to define terms.
Grants - a contribution from another government to be used or expended for a specified purpose activity or facility. Grants can be further classified as:

- **Capital grants** - restricted by the grantor for the acquisition and/or construction of fixed assets.
- **Operating grants** - for all other purposes.
- **Unrestricted grants** - those which can be used for any legal purposes without restriction.
- **Restricted grants** - those which must be used for specific purposes.

Entitlements - the amount of payment to which a government is entitled or determined by the federal government pursuant to an allocation formula contained in applicable statutes.

Shared Revenue - revenues levied by one government but shared on a predetermined basis, often in proportion to the amount collected at the local level by governments or other class of government.

**Determination of Fund to be Used**

Under Generally Accepted Accounting Principles, a grant should generally be accounted for in the fund in which it will be spent. This is best determined by analyzing the purpose and requirement of each grant. For purposes of accounting under the UMAS system, grants, entitlements and shared revenue will be classified by fund in accordance with the following general guidelines:

- Capital grants or shared revenues restricted for capital acquisitions or construction, other than those associated with Enterprise Funds, should be accounted for in the Capital Projects Fund.
- Grants, entitlements or shared revenues received or utilized for Enterprise Fund operations and/or capital assets should be accounted for in that fund.
- Grants, entitlements or shared revenue which are unrestricted, or which, though restricted, may be restricted more as to form than substance and which are in fact appropriated and expended in the General Fund, should be accounted for in that fund, with the exception of federal grants as explained below.
- All other intergovernmental distributions not described above, will be accounted for in the Special Revenue Fund.

Under these guidelines, substantially all "Cherry Sheet" distributions will be accounted for in the General Fund. Set forth below is a list of "Cherry Sheet" distributions which
will either be accounted for in another fund, or which will have some impact on a fund other than the General Fund.

<table>
<thead>
<tr>
<th>Description of Item</th>
<th>Funds Affected</th>
</tr>
</thead>
<tbody>
<tr>
<td>Construction of School Projects (Chapter 70B)</td>
<td>Accounting Other</td>

</tr>
<tr>
<td>School Lunch Program (1970, Ch. 871)</td>
<td>Special Revenue</td>
</tr>
<tr>
<td>Aid to Reduce Class Size</td>
<td>Special Revenue</td>
</tr>
</tbody>
</table>

Since most federal grants are not appropriated, all federal grants other than those specifically restricted to Capital Projects or Enterprise Funds will be accounted for in the Special Revenue Fund. Amounts appropriated and expended in the General Fund should be transferred and the expenditures accounted for in that fund.

Accountants/Auditors are reminded that M.G.L. Ch. 35 §32A and Ch. 40 §5D require that all federal grants received by local governments be charged for pension costs incurred because of the grant and remitted to the retirement plan of which the community is a member. The current charge is 9% of total federal grant payroll. This does not include members of the Massachusetts Teachers’ Retirement system.

Special Revenue Fund Accounting

As with other governmental funds, the basis of accounting on which Special Revenue Funds will be reported will be the modified accrual basis. During the fiscal year, however, revenues will be recorded on the cash basis, and expenditures will be recorded as disbursed. Year-end adjusting entries will be recorded to reflect the books on a modified accrual basis at that time.

Grants, entitlements, or shared revenues recorded in governmental funds should be recognized as revenue in the accounting period when they become susceptible to accrual (i.e., both measurable and available). In applying this definition, legal and contractual requirements should be carefully reviewed for guidance. Some such resources, usually entitlements or shared revenues are restricted more in form than in substance. Only a failure on the part of the recipient to comply with prescribed regulations will cause a forfeiture of the resources. Such resources should be recorded as revenue at the time of receipt or earlier if the susceptible to accrual criteria are met. For other such resources (usually grants) expenditure is the prime factor for determining eligibility. Similarly, if cost sharing or matching requirements exist, revenue recognition will depend upon compliance with these requirements. As noted above, year-end adjustments will be made to reflect grant revenues on a modified accrual basis.

School Lunch Fund - Revolving Fund

Funds for the operation and maintenance of school lunch programs are derived from
three principal sources: meal charges (lunch receipts); state grants; and federal grants. On some occasions, general tax revenues may contribute to funding the school lunch operation.

In many governments, school lunch operations require sizeable expenditures and since state and federal funds paid to governments for such operations are restricted in nature, it is reasonable to account for such operations in a separate Special Revenue Fund.

Subsidiary ledgers in this fund are optional. To facilitate their operation when used, sample subsidiary ledger entries are provided below where appropriate.

**Opening Entries** - The opening entries record the opening trial balance carried over from the prior year and restore the accounts to the basis of accounting on which they will be maintained during the year.

1. The trial balance after final adjustment at the close of the prior year-end is brought forward and recorded on the current year's beginning trial balance.

<table>
<thead>

</table>

   To reverse prior year ending accrual

   Subsidiary ledger entry for this journal entry would be:

<table>
<thead>
<tr>
<th>Account Code</th>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>220-4640</td>
<td>Education Offset Items - Reserve for Direct Expenditures</td>
<td>2,350</td>
</tr>
<tr>
<td>220-4000</td>
<td>Subsidiary Revenue Control</td>
<td>2,350</td>
</tr>
</tbody>
</table>

**Budgetary Entries** - Budgetary accounts are not required for this fund.
Expenditures - Expenditures and other cash disbursements are handled in the same manner as in the General Fund. Appropriate controls (such as inclusion on the Treasurer's warrant) must be maintained.

3. When "Warrants Payable" are paid on an approved warrant

   220-2010  Warrants Payable  1,000
   220-1040  Cash - Unrestricted  1,000

   To record warrants payable

4. When payment is made on an approved warrant.

   220-3930  Expenditures  2,682
   220-1040  Cash - Unrestricted  2,682

   To record expenditures from warrant #_______

   Subsidiary ledger entry for this journal entry would be:

   220-5490  Food and Food Service Supplies  2,682
   220-5000  Subsidiary Appropriation Control  2,682

5. To establish a Petty Cash Fund

   220-1020  Petty Cash  100
   220-1040  Cash - Unrestricted  100

   To record Petty Cash Fund for school lunch
Revenue Recognition - Revenue for the School Lunch Fund comes from three sources: charges to the users (students) for the services provided, reimbursement from the state, and federal distributions. These sources are recorded as revenue when the payments are received. Examples of federal distributions are not shown, but would be recognized as revenue when received.

6. When lunch receipts are turned over to the Treasurer.

\[
\begin{align*}
220-1040 & \quad \text{Cash - Unrestricted} & \quad 672 \\
220-3910 & \quad \text{Revenue} & \quad 672
\end{align*}
\]

To record deposit of lunch receipts

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
220-4000 & \quad \text{Subsidiary Revenue Control} & \quad 672 \\
220-4370 & \quad \text{Other Departmental Revenue} & \quad 672
\end{align*}
\]

7. When the amount from the state is received.

\[
\begin{align*}
220-1040 & \quad \text{Cash - Unrestricted} & \quad 15,685 \\
220-3910 & \quad \text{Revenue} & \quad 15,685
\end{align*}
\]

To record payment in full of October invoice

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
220-4000 & \quad \text{Subsidiary Revenue Control} & \quad 15,685 \\
220-4580 & \quad \text{Other Federal Revenue - Through the State} & \quad 15,685
\end{align*}
\]

Encumbrances - Use of an encumbrance system is recommended, but not required. When one is used, the entries will be similar to those illustrated in the General Fund.

Adjusting Entries - At the fiscal year-end certain adjusting entries will be recorded to convert the accounting for revenue from the cash basis to a modified accrual basis. The following entries illustrate typical year-end adjustments.

8. The governmental receivable at the year-end is considered fully collectible and is therefore recorded as revenue.

\[
\begin{align*}
220-1720 & \quad \text{Due from Commonwealth of Massachusetts} & \quad 3,000 \\
220-3910 & \quad \text{Revenue} & \quad 3,000
\end{align*}
\]

To record the receivable and to accrue the revenue (received within 60 days)
Subsidiary ledger entry for this journal entry would be:

220-4000 Subsidiary Revenue Control 3,000
220-4580 Other Federal Revenue - Through the State 3,000

9. To record warrants payable at year-end.

220-3930 Expenditures 800
220-2010 Warrants Payable 800

To record warrants payable

Subsidiary ledger entry for this journal entry would be:

220-5490 Food and Food Service Supplies 800
220-5000 Subsidiary Appropriation Control 800

Closing Entries - Only one closing entry is required.

10. Closing actual revenue and expenditure to fund balance

220-3910 Revenue 17,007
220-3560 Fund Balance - Revolving Funds 13,525
220-3930 Expenditures 3,482

To close revenue and expenditures to fund balance

Closing Trial Balance

220-1020 Petty Cash 100
220-1040 Cash - Unrestricted 16,840
220-1720 Due from Commonwealth of Massachusetts 3,000
220-2010 Warrants Payable 800
220-3560 Fund Balance - Revolving Funds 19,140

19,940 19,940

Highway Improvement Program - Grant Fund

Highway funds represent funds made available by the Commonwealth of Massachusetts for the repair of highways in a government. Since the funds are restricted for the purposes outlined in the agreement entered into with the state
Highway Department, it is proper to account for such funds in a Special Revenue Fund. According to paragraph 3 of NCGA Statement 1, Special Revenue Funds would be used for "Other than major Capital Projects." The determination as to which are major capital projects is left to the individual Accountant.

The use of subsidiary ledgers in this fund is optional. In the illustrative journal entries which follow, subsidiary ledger journal entries have been provided where appropriate.

Opening Entry - The opening entries record the opening trial balance carried over from the prior year and restore the accounts to the basis of accounting on which they will be maintained during the year.

1. The trial balance after final adjustment at the close of the prior year-end is brought forward and recorded as the current year’s beginning trial balance.

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>239-4680 Other State Revenue</td>
<td>20,000</td>
</tr>
<tr>
<td>239-4000 Subsidiary Revenue Control</td>
<td>20,000</td>
</tr>
</tbody>
</table>

Budget Entries - As with most other governmental funds, budgets are normally recorded at the beginning of the fiscal year or when the project and the grant have been approved.

3. Budget Entry - Both the estimated cost of the project and the amount of the state grant are recorded for budget purposes.
To record the budget for Main Street resurfacing

Subsidiary ledger entries for this journal entry would be:

- \begin{align*}
239-5000 & \quad \text{Subsidiary Appropriation Control} & 30,000 \\
239-5240 & \quad \text{Repairs and Maintenance} & 30,000 \\
239-4680 & \quad \text{Other State Revenue} & 30,000 \\
239-4000 & \quad \text{Subsidiary Revenue Control} & 30,000
\end{align*}

Expenditures - Expenditures and other cash disbursements are recorded in the same manner as in the General Fund.

4. Expenditures applicable to "Highway Construction" or repairs are processed through an approved warrant.

- \begin{align*}
239-3930 & \quad \text{Expenditures} & 2,600 \\
239-1040 & \quad \text{Cash - Unrestricted} & 2,600
\end{align*}

To record the expenditures made on warrant #______

Subsidiary ledger entries for this journal entry would be:

- \begin{align*}
239-5240 & \quad \text{Repairs and Maintenance} & 2,000 \\
239-5530 & \quad \text{Public Works Supplies} & 600 \\
239-5000 & \quad \text{Subsidiary Appropriation Control} & 2,600
\end{align*}

Revenues - The only source of revenue normally associated with the highway fund are the reimbursements from the Commonwealth.

1. Requests for reimbursement are forwarded to the Massachusetts Highway Department

- \begin{align*}
239-1720 & \quad \text{Due from Commonwealth of Massachusetts} & 27,600 \\
239-2670 & \quad \text{Deferred Revenue - Intergovernmental} & 27,600
\end{align*}

To record the expenditures made on highway projects not yet reimbursed by the Commonwealth

6. The Treasurer reports reimbursement on account of $6,000 of highway grants (represents several grants and accumulated receivables).
7. The revenue from these receipts is recorded.

239-2670 Deferred Revenue - Intergovernmental 6,000
239-3910 Revenue 6,000

To record the revenue from reimbursements from the Commonwealth

Subsidiary ledger entry for the journal entry would be:

239-4000 Subsidiary Revenue Control 6,000
239-4680 Other State Revenue 6,000

Temporary Borrowing - Treasurers may borrow temporarily in anticipation of reimbursement from the Commonwealth for highway construction and repairs. The issuance of temporary loans should be reported through the Treasurer's Report of Cash Received and the payment through an approved Treasurer's warrant.

8. The Treasurer reports receipts of $30,000 from the proceeds of a temporary loan issued under M.G.L. Ch. 44, §6A for a period of one year in anticipation of reimbursement from the State.

239-1040 Cash - Unrestricted 30,000
239-2730 Grant Anticipation Notes Payable 30,000

To record the issuance of a temporary loan in anticipation of reimbursement from a state grant

9. The temporary loan issued in a prior year matures and is paid.

239-2730 Grant Anticipation Notes Payable 20,000
239-3930 Expenditures 2,000
239-1040 Cash - Unrestricted 22,000

To record the payment of temporary loans

The subsidiary ledger entry for this journal entry would be:
239-5925  Interest on Notes  2,000  
239-5000  Subsidiary Appropriation Control  2,000  

Encumbrances - Use of an encumbrance system is recommended but is not required. Where one is used, the entries will be similar to those illustrated in the General Fund.

Adjusting Entries - At the fiscal year-end, certain adjusting entries will be recorded to convert the accounting for revenue from the cash basis to a modified accrual basis.

Closing Entries - Closing entries are prepared to close out the activity for the year. Memorandum accounts are generally not closed out on a fiscal year basis, but rather when the project or grant is complete.

10. The budget entry is reversed to close out the accounts.

239-3830  APPROPRIATIONS  30,000  
239-3815  ESTIMATED REVENUE  30,000  

To close the budget accounts

11. Revenues, other financing sources, expenditures and other financing uses are closed to Fund Balance Designated for State Grants.

239-3520  Fund Balance Designated for State Grants  18,600  
239-3910  Revenue  14,000  
239-3930  Expenditures  4,600  

To close the revenues and expenditures to fund balance

Closing Trial Balance

239-1040  Cash - Unrestricted  26,400  
239-1720  Due from Commonwealth of Massachusetts  41,600  
239-2670  Deferred Revenue - Intergovernmental  41,600  
239-2730  Grant Anticipation Notes Payable  30,000  
239-3520  Fund Balance Designated for State Grants  3,600  

71,600  71,600
Receipts Reserved for Appropriation

Receipts from a specific revenue source that by law is accounted for separately from the General Fund (segregated) and must be spent by appropriation.

Since, by definition, the "receipts reserved for appropriation, will be appropriated as part of a government's annual budget, such amounts should be transferred as appropriated from the Special Revenue Fund to the General Fund and the expenditures accounted for in that fund. Set forth below are journal entries which illustrate the usual transactions involving receipts reserved for appropriation. Parking meter receipts have been selected to illustrate the functioning of this category of Special Revenue Funds. Subsidiary ledger entries are not required, but are suggested if the volume of activity is significant. They are not illustrated for this fund but if utilized, treatment would be similar to other funds. Budget entries are illustrated below, but are optional.

Opening Entry

1. The opening trial balance effectively represents cash receipts from previous years which have not yet been appropriated, or if appropriated, have not yet been transferred to the appropriate fund for expenditure.

232-1040   Cash - Unrestricted    20,000
232-3240   Fund Balance Reserved for Expenditures     16,500
232-3300   Fund Balance - Receipts Reserved for Appropriation     3,500

20,000  20,000

2. To reverse previous year appropriation from parking meter receipts.

232-3240   Fund Balance Reserved for Expenditures     16,500
232-3300   Fund Balance - Receipts Reserved for Appropriation     16,500

To reverse entry appropriating parking meter receipts at the annual town meeting

BUDGETARY ENTRIES

As with most other governmental units, budgets are also normally recorded at the beginning of the fiscal year
3. When the certified list of appropriations is received from the city/town Clerk, the budget should be recorded.

232-3880  BUDGETARY FUND BALANCE  16,500
232-3870  ESTIMATED OTHER FINANCING USES  16,500

To record the annual budget for the current year

Revenue

4. When parking meter receipts are deposited, the revenue is recognized.

232-1040  Cash - Unrestricted  328
232-3910  Revenue  328

To record parking meter receipts

Operating Transfers

5. The appropriated amount should be transferred to the relevant fund (in this case, the General Fund).

232-3970  Other Financing Uses  16,500
232-1040  Cash - Unrestricted  16,500

To record transfer of appropriated parking meter receipts to the General Fund

Annual Town Meeting

After the annual town meeting, any available funds voted to be used must be shown as reserved.

7. Parking meter receipts are voted.

232-3300  Fund Balance - Receipts Reserved for Appropriation  18,500
232-3240  Fund Balance - Reserved for Expenditures  18,500

To record appropriation from parking meter receipts at annual town meeting. (This entry will be reversed after beginning of next fiscal year)
Closing Entries

8. The budgetary entry for the fiscal year is reversed.

232-3870 ESTIMATED OTHER FINANCING USES  16,500
232-3880 BUDGETARY FUND BALANCE  16,500

To close the budgetary accounts for the fiscal year

9. At year-end, the revenue and transfer accounts should be analyzed, closed out, and the differences reclassified to fund balance.

232-3910 Revenue  20,128
232-3970 Other Financing Uses  16,500
232-3300 Fund Balance - Receipts Reserved for Appropriation  3,628

To close the revenue and other financing uses

Closing Trial Balance

232-1040 Cash - Unrestricted  23,628
232-3240 Fund Balance Reserved for Expenditures  18,500
232-3300 Fund Balance - Receipts Reserved for Appropriation  5,128

23,628  23,628

Community Preservation Act - Receipts Reserved

M.G.L. Ch. 44B provides for the establishment of a Community Preservation Fund. This fund has three purposes: the purchase of open space, the preservation of historic resources and the establishment of affordable housing. The primary source of revenue for these purposes is a property tax surcharge of up to three percent which is assessed on each parcel of taxable real estate. A second source of revenue is state matching funds which is provided by a surcharge on land fees at the Registry of Deeds or Land Court. The fund is also credited with the proceeds for the sale of fund assets. The fund is created by a vote of the legislative body of the municipality and approved by the voters at referendum. The fund applies solely to cities and towns. A community may borrow in anticipation of the surcharge collected for the purposes of the Act.

The Accountant/Auditor must establish a separate Special Revenue Fund to account for the revenues and expenditures. The Treasurer may pool the funds for purposes of investment. However, any interest earned on fund balances must be allocated back
to the fund. Unlike most Special Revenue Funds in Massachusetts, the Community Preservation Fund is subject to appropriation by both the Community Preservation Committee (established under the act) and the appropriation body of the municipality. Appropriations from any funding source (except borrowing) are by majority. There is a requirement that the legislative body appropriate or reserve for future appropriation at least 10 percent of the estimated annual fund revenues in each of the allowable categories. Annual fund revenues include the estimated revenues from both the surcharge and the state trust with one exception. In the first year of the surcharge estimated revenues only include the surcharge. If estimated revenues are less than actual revenues the shortfall must be raised in the subsequent year. Abated or uncollectable surcharges are charged to the fund.

Sample accounting entries

1. The legislative body appropriates the following amounts from estimated revenues:

   $300,000  For open space acquisitions
   $  60,000  For open space reserve
   $  60,000  For historic resources reserve
   $  60,000  For community housing reserve
   $  20,000  For committee operating expenses

In addition, $100,000 was appropriated from the Historic Resources Reserve Fund Balance for the acquisition of an historic site.

   la. To record estimated revenues budgeted.

      246-3815   ESTIMATED REVENUE  500,000
      246-3890   BUDGETARY CONTROL  500,000

      Subsidiary Ledger

      246-4190   Other Taxes  500,000
      246-4000   Subsidiary Revenue Control  500,000

   lb. To record amounts appropriated from estimated revenues.

**Law Enforcement Trust, Chapter 486 of the Acts of 1984 - Revolving Fund**

The community receives $50,000 in forfeited funds, which represents 50% of the total forfeiture.

The Accountant/Auditor establishes fund 247, “Law Enforcement Trust Fund.” Despite its name, it is a Special Revenue Fund. Since there was no previous year’s activity, there is no opening balance or opening entries.

**Budgetary Entries** - There are no budgetary entries because the Law Enforcement Trust funds may be spent without appropriation.

**Revenue Recognition** - Revenue is received after forfeiture of the assets to the courts and the community receives a 50% portion. Revenue is recognized on a modified accrual basis.

1. Upon receipt of the Treasurer’s notice of the funds the Accountant/Auditor records the receipt of funds.

<table>

To record the receipt of forfeited funds in the Law Enforcement Trust Fund

**Note:** No subsidiary accounts are necessary

**Expenditures** - Expenditures are handled in the same manner as the General Fund
2. The Accountant pays a bill received from the Police Chief.

247-3930  Expenditures  5,000
247-1040  Cash - Unrestricted  5,000

To record the payment of an invoice from the Law Enforcement Trust Fund

3. The Treasurer invests a portion of the Law Enforcement Trust, which is not needed to pay bills immediately.

247-1110  Short Term Investments  20,000
247-1040  Cash - Unrestricted  20,000

To record the investments of funds

4. The investment matures and yields $30 in interest.

247-1040  Cash - Unrestricted  20,030
247-3910  Revenue  30
247-1110  Short Term Investments  20,000

5. Since the Law Enforcement Trust Fund does not retain the interest, the interest is transferred to the General Fund.

247-3970  Other Financing Uses  30
247-1040  Cash - Unrestricted  30

Adjusting entries - There are no adjusting entries necessary

Closing Entry - Only one closing entry is required.

247-3910  Revenue  50,030
247-3930  Expenditures  5,000
247-3970  Other Financing Uses  30
247-3560  Fund Balance - Revolving Funds  45,000

Closing Trial Balance

247-1040  Cash - Unrestricted  45,000
247-3560  Fund Balance - Revolving Funds  45,000
Wetlands Protection Fees, Chapter 287 §54 of the Acts of 1989 - Revolving Fund

The Accountant establishes a Special Revenue Fund for the purposes of accounting for Wetlands Protection Fees. These fees may only be used for the costs associated with the review and approval of requests under M.G.L. Ch. 131, §40.

The funds are accounted for in Account 228, “Wetlands Protection Receipts.” This account is a Special Revenue Fund. The amount in Fund Balance Reserved for Special Purposes (228-3280) represents the amount of fees paid which are in dispute and are therefore not available for appropriation.

```
228-1040  Cash - Unrestricted  39,900
228-3280  Fund Balance Reserved for Special Purposes  5,000
228-3560  Fund Balance - Revolving Funds  34,900
```

39,900  39,900
Offset Receipts Funds

Chapter 339 of the Acts of 1981 created M.G.L. Chapter 44, §53E. This law allows a local government to create a separate fund which uses receipts for a particular purpose to fund the operation of the program for that purpose. These programs have become known as “offset receipt” funds because receipts collected during the fiscal year are used to defray the cost of the program. These funds are Special Revenue Funds and must be appropriated by the Town Meeting/City Council. The amount of the appropriation is limited to either the actual receipts of the prior year or, if requested, a higher amount approved by the Director of Accounts. Any surplus remaining in the fund at the end of the fiscal year must be closed to the General Fund and any deficit must be raised on the next fiscal year’s tax rate.

The community establishes an offset receipts fund for a town beach. The expenses for the beach are funded through the sale of stickers to residents. The town received $50,000 in revenue in the previous fiscal year and expects the same amount for the upcoming fiscal year. However, the town received $55,000 in revenue.

Budgetary Entries

1. When the list of appropriations is received from the Clerk the budget should be recorded.

   261-3815 ESTIMATED REVENUE 50,000
   261-3830 APPROPRIATIONS 50,000

   To record the appropriations to the town beach offset receipt fund

2. Revenue Recognition - Upon receipt of the Treasurer’s notice, the Accountant records the receipt of funds.

   261-1040 Cash - Unrestricted 55,000
   261-3910 Revenue 55,000

   To record the receipt of funds from the sale of beach stickers

   Subsidiary journal entry would be:

   261-4000 Subsidiary Revenue Control 55,000
   261-4240 Other Non-Utility Usage Charges 55,000
3. Expenditures - Expenditures are handled in the same manner as the General Fund.

261-3930 Expenditures 45,000
261-1040 Cash - Unrestricted 45,000

To record the expenditure for lifeguard stipends

The subsidiary entry would be:

261-5350 Recreational expenditures 45,000
261-5000 Subsidiary Appropriation Control 45,000

Adjusting Entries - There are no adjusting entries

Closing Entry – Two closing entries are required and since the fund does not retain the surplus, the surplus is transferred to the General Fund.

4. The budgetary entries are closed.

261-3830 APPROPRIATIONS 50,000
261-3815 ESTIMATED REVENUE 50,000

To close the budget entries for the beach offset receipt fund

5. The actual entries are closed and the surplus is transferred to the General Fund.

261-3910 Revenue 55,000
261-3930 Expenditures 45,000
261-1040 Cash - Unrestricted 10,000

To close revenue and expenditures and to transfer surplus to the General Fund

**Title 5 Betterment Loan Program - Other Special Revenue Fund**

A 1997 program allows the Water Pollution Abatement Trust (WPAT) to grant $20,000 to individuals communities to administer a loan program to residents to upgrade their septic systems. There is a one-time grant of $20,000 ($2,000 of which is withheld by the trust pending completion of the program) and up to $500,000 in interest-free loans per community to be reloaned to residents for repairs to septic systems. To account for this program two Special Revenue Funds need to be established. One to initiate and administer the program and the other to account for the loans to residents. Special
Revenue Fund 276 is to initiate and administer the program. Special Revenue Fund 277 is to account for the loans.

Entries for Special Revenue Fund 276, Title 5 Administration and GLTOAG

1. The Community receives a grant from WPAT.
   
   276-1040  Cash - Unrestricted  18,000  
   276-3910  Revenue  18,000  
   
   To record the receipt of grant funds.

2. The community expends administrative funds from the grant.
   
   276-3930  Expenditures  18,000  
   276-1040  Cash - Unrestricted  18,000  
   
   To record expenditures made in compliance with grant.

3. The community records the amount of the grant withheld by WPAT.
   
   276-1720  Due from Commonwealth of Massachusetts  2,000  
   276-2670  Deferred Revenue - Intergovernmental  2,000  
   
   To record balance of grant payable when loan is approved.

4. In the General Long-term Obligation Account Group (GLTOAG), the Accountant records the bonds.
   
   050-3760  Bonds Authorized (Memorandum)  200,000  
   050-3770  Bonds Authorized - Offset (Memorandum)  200,000  
   
   To record City Council/Town Meeting vote authorizing borrowing.

5. The community receives a $50,000 loan from the WPAT.
   
   276-1040  Cash - Unrestricted  50,000  
   276-2720  Bond Anticipation Notes Payable  50,000  
   
   To record loan proceeds received from WPAT.
6. The community pays for the repairs to the septic system.

276-3930 Expenditures 40,000
276-1040 Cash - Unrestricted 40,000

To record expenditures for engineering, contractors and inspectors.

7. The community executes a note.

276-2720 Bond Anticipation Notes Payable 200,000
276-3920 Other Financing Sources 200,000

To convert BANS to long-term debt upon notification by MWPAT. (Entry #5 plus additional advances of $150,000)

8. The Accountant records the bonds in the GLTOAG.

050-1996 Amounts to be Provided for Payment of Bonds 200,000
050-2995 Bonds Payable - Outside Debt Limit - WPAT 200,000

To record General Long-Term Obligation

Entries for Special Revenue Fund 277, Title 5 Loans

The Accountant establishes a Special Revenue Fund, 277, Title 5 Loans

9. The community grants a loan to a resident.

277-1440 Apportioned Assessments - Not Yet Due 50,000
277-2660 Deferred Revenue - Special Assessments 50,000

To record the commitment of apportioned Title 5 Betterments by the Board of Assessors.

10. The first payment of the loan becomes due.

277-1420 Apportioned Assessments Added to Taxes 10,000
277-1430 Committed Interest Added to Taxes 500
277-1440 Apportioned Assessments - Not Yet Due 10,000
277-2660 Deferred Revenue - Special Assessments 500
To record commitment of apportioned betterments added to taxes together with committed interest.

11. The resident pays the loan payments.

277-1040  Cash - Unrestricted  10,500
277-1420  Apportioned Assessments Added to Taxes  10,000
277-1430  Committed Interest Added to Taxes  500

To record collection of Title 5 Betterments

12. The community recognizes the revenue from the loan payment.

277-2660  Deferred Revenue - Special Assessments  10,500
277-3910  Revenue  10,500

To recognize revenue collected

13. The community repays the WPAT.

277-3930  Expenditure  8,000
277-1040  Cash - Unrestricted  8,000

To record repayment of loan to WPAT

14. The Accountant records the bond payment in the GLTOAG.

050-2995  Bonds Payable - Outside Debt Limit - WPAT  8,000
050-1996  Amounts to be Provided for Payment of Bonds  8,000

To record the current maturities of bond principal

050-3770  Bonds Authorized - Offset (Memorandum)  200,000
050-3760  Bonds Authorized - (Memorandum)  200,000

To record the issuance of Title 5 loans

Gifts and Donations

Gifts and donations may be accepted by the community pursuant to the provisions of M.G.L. Chapter 44, §53A. These amounts may be expended without appropriation, however, must be spent in accordance with the provisions of the gift or donation.
1. A resident donates $10,000 to the community for the purpose of establishing a park. The Accountant establishes fund 251, Grants and Gifts, and records the proceeds.

   251-1040  Cash - Unrestricted 10,000
   251-3910  Revenue 10,000

   To record the gift of a citizen

2. The government hires a contractor to build the park. The contractor submits a bill for services.

   251-3930  Expenditures 9,000
   251-2010  Warrants Payable 9,000

   To record the submission of the bill of the contractor and placement on the warrant

3. The warrant is approved and sent to the Treasurer for disbursement.

   251-2010  Warrants Payable 9,000
   251-1040  Cash - Unrestricted 9,000

   To record the disbursement of funds to the contractor

4. The contractor presents the final bill for the completion of the park and the bill is placed on a warrant.

   251-3930  Expenditures 1,000
   251-2010  Warrants Payable 1,000

   To record the disbursement of funds to the contractor

5. The warrant is approved and sent to the Treasurer for disbursement.

   251-2010  Warrants Payable 1,000
   251-1040  Cash - Unrestricted 1,000

   To record the disbursement of funds to the contractor
CHAPTER 11 - CAPITAL PROJECTS FUND

Capital Projects Funds are used to account for the purchase or construction of major capital facilities not properly accounted for in the Proprietary Funds. Capital Projects Funds are generally not used to account for the acquisition of furniture, fixtures, equipment or other relatively short-lived assets.

A clear distinction should be made between Capital Projects, which are projects for the construction of major facilities such as a new Town or City Hall, and capital outlay expenditures, which are for the purchase of relatively short-lived assets such as those referred to above. Capital projects may be distinguished by at least one, and usually all, of the following characteristics, while capital outlay expenditures normally have none of them:

- Financing provided in whole or in part by the issuance of long-term obligations;
- Expenditures made during more than one fiscal year;
- Expenditures are “project-oriented,” (thus, not a regular part of the ongoing operations of the local unit of government).

Generally, a separate fund is required for each project. This is particularly important when projects are funded in full or in part by long-term obligations or intergovernmental revenues in order to demonstrate that proceeds have been used for the intended purposes. However, when a group of related projects is financed in whole or in part by a single long-term obligation, a single fund may be used to account for all related projects.

Budget

As with other governmental funds, the budget for capital projects will be integrated into the accounting records. In Massachusetts where the project authorization is generally for the entire project rather than on the portion of the project to be completed in the particular fiscal year, a memorandum entry should be made to record the total authorized project costs.

Capital Project Accounting

As with the other governmental funds, the basis of accounting on which Capital Project Funds will be reported is the modified accrual basis. Year-end adjusting entries will be recorded.

Many capital projects are partially financed by state or federal grants. In order to maintain control over these items, the grant award should be recorded in a memorandum entry when official, formal notification of the grant is received from the granting agency. If Municipal Finance Oversight Board approval is also required (Chapter 46, Acts of 2003), this should be obtained before recording the grant. The
receivable will be recorded when terms of the grant have been satisfied and application for funds, if required, has been submitted.

The accounting for temporary loans in anticipation of either grant reimbursement or long-term debt proceeds requires special comment. Since expenditures in capital projects are generally made prior to the time that grant revenues or bond proceeds are received, it could be expected that the projects' operations would result in a deficit fund balance, sometimes referred to as an "artificial deficit". If this situation should occur, such a deficit and the reasons for it should be shown as a footnote to the financial statements. If there is no short-term borrowing for the project, the deficit will be deducted from free cash.

At the completion of the project, unused bond proceeds may be reallocated pursuant to M.G.L. Chapter 44, §20. In brief, this allows the unused funds to be appropriated for any purpose for which the municipality could normally borrow for an equal or longer period of time; or, if the amount is less than $1,000, it may be used to reduce the principal of the capital project borrowing. This transfer is shown as the third year's transaction.

A permanent record should be retained by each municipality setting forth the details of each capital project completed. This record should include a description of the project, authorization date, completion date, authorized cost, and full details relating to the financing of the project and its actual cost.

All debt service related transactions are recorded in: the General Fund, proprietary funds, debt service funds established by special legislation or the General Long-Term Obligations Account Group (GLTOAG). Interest earned on the investment of the proceeds from bonds and notes is payable to the General Fund (M.G.L. Chapter 44, §53). In addition, premiums related to these issuances are accounted for in the General Fund.

Interest incurred on temporary borrowing by a capital project will be funded by an appropriation from the General Fund. All related interest revenue and debt expenditures are recorded in the General Fund.

**Illustrative Journal Entries**

The journal entries in the remainder of this chapter illustrate capital projects fund accounting for a project involving the construction of a new fire station, which is to be completed over two fiscal years. Other facts related to the project include the following:

- Total project cost approved by the appropriate authority is $10,000,000;
- Financing to be provided from:
  -- Initially through temporary borrowing
  -- $5,000,000 from bonds which are expected to be issued at the end of the first year
  -- $5,000,000 from federal grant reimbursements
• Plans call for awarding the total project to a single contractor to simplify management responsibilities;
• The contract to be awarded will include a 10% holdback pending satisfactory completion of the project.

Accounting for the activities of the Capital Projects Fund is depicted through a series of journal entries in the following pages. They are presented in the following sequence:

First Year's Transactions

Memorandum Entries

The following four memorandum accounts are used in this fund and will be explained later in the chapter:
Uniform Massachusetts Accounting System – August, 2007

301-3730   PROJECT AUTHORIZED
301-3740   PROJECT AUTHORIZED - OFFSET
301-3710   STATE AND FEDERAL GRANTS AWARDED
301-3720   STATE AND FEDERAL GRANTS – OFFSET

In addition, two other memorandum accounts exist: BONDS AUTHORIZED AND BONDS AUTHORIZED – OFFSET. These accounts appear in the General Long-Term Obligations Account Group and are used to control Town Meeting or City Council bond authorizations. See the Long-Term Obligations Account Group chapter for further detail.

Although memorandum entries are not required under the system, they are recommended to provide greater control over the project, grants and bond authorizations. Memorandum accounts are similar to the budgetary control accounts (3800 series of UMAS accounts) and as such they should be in CAPITAL letters. At the completion of the project, the memorandum entries should be reversed or otherwise closed out.

Budgetary and Memorandum Entries

1. The focus of the budgetary entries in the capital projects fund is on the fiscal period. However, where projects are expected to take more than one year to complete, it will simplify the monitoring process if some record is also made of the total project cost at its inception. The following entry illustrates the memorandum entry made to record the total authorized cost for the project. This entry is not necessary if the project is to be completed and is appropriated in the current fiscal period.

   301-3730   PROJECT AUTHORIZED (MEMORANDUM) 10,000,000
   301-3740   PROJECT AUTHORIZED – OFFSET
               (MEMORANDUM) 10,000,000

   To record the total estimated cost of the project

2. At the beginning of the fiscal year, the budget for the capital project should be recorded. The budget for this project has been prepared based on the estimated $10 million cost, half from bonds and half from grants.

   301-3815   ESTIMATED REVENUE 5,000,000
   301-3820   ESTIMATED OTHER FINANCING SOURCES 5,000,000
   301-3830   APPROPRIATIONS 10,000,000

   To record the budget for the year

Subsidiary ledger entries are not illustrated in this chapter as they are maintained in the same manner as the General Fund.
When the bonds to be issued in connection with the project are authorized, an entry should be recorded in the General Long-Term Obligation Account Group.

3A. When the grant is awarded the following memorandum entry should be made.

```
301-3710   STATE AND FEDERAL GRANTS AWARDED
           (MEMORANDUM)  5,000,000
301-3720   STATE AND FEDERAL GRANTS AWARDED-
           OFFSET (MEMORANDUM)    5,000,000
```

To record the award of grants for the project

3B. When the grant is awarded the memorandum entry for the project authorization is reversed for the amount of the grant.

```
301-3740   PROJECT AUTHORIZED - OFFSET (MEMORANDUM)5,000,000
301-3730   PROJECT AUTHORIZED (MEMORANDUM)    5,000,000
```

To reverse the project authorization

**Temporary Borrowing**

Short-term notes may be sold to finance the initial capital project expenditures pending bond issuance or grant reimbursement. To the extent that such borrowing is not immediately needed, the available cash should be invested.

4. Short-term borrowing is completed in anticipation of reimbursement from the federal government and issuance of bonds.

```
301-1040   Cash - Unrestricted  5,000,000
301-2720   Bond Anticipation Notes Payable   2,500,000
301-2730   Grant Anticipation Notes Payable   2,500,000
```

To record short-term borrowing to finance capital projects

**Project Expenditures**

The local government typically retains some funds until the project is officially accepted. Thus, a Contracts Payable – Retained Percentage account is used to record the amount retained.
5A. All expenditures should be made on an approved warrant. Expenditure entries remain the same whether or not an encumbrance system is used.

<table>

To record the budget for the year

Subsidiary ledger entries are not illustrated in this chapter as they are maintained in the same manner as the General Fund.

When the bonds to be issued in connection with the project are authorized, an entry should be recorded in the General Long-Term Obligation Account Group.

7. When the grant is awarded the following memorandum entry should be made.
To record the award of grants for the project

Temporary Borrowing

Short-term notes may be sold to finance the initial capital project expenditures pending bond issuance or grant reimbursement. To the extent that such borrowing is not immediately needed, the available cash should be invested.

8. Short-term borrowing is completed in anticipation of reimbursement from the federal government and issuance of bonds.

To record short-term borrowing to finance capital projects

Project Expenditures

The local government typically retains some funds until the project is officially accepted. Thus, a Contracts Payable – Retained Percentage account is used to record the amount retained.

9. All expenditures should be made on an approved warrant. Expenditure entries remain the same whether or not an encumbrance system is used.

To record the expenditures per warrant #________
Project Revenues

The financing of the project will be provided initially through short-term borrowing. Grant reimbursement requests will be submitted to the grantor as expenditures are incurred. Such amounts will be recorded as revenue when collected.

Grants

To minimize the interest expenditures associated with short-term borrowing for reimbursable type grants, such grants should be applied for as soon after incurring the expenditures as the grant terms allow.

10. The granting agency is billed for its share (50%) of the expenditures per the grant agreement.

301-1710 Due from Federal Government 250,000
301-2670 Deferred Revenue - Intergovernmental 250,000

To record the application to granting agency for reimbursement.

11. The memorandum accounts are adjusted for the amount of the grant billed.

301-3720 STATE AND FEDERAL GRANTS AWARDED – OFFSET (MEMORANDUM) 250,000
301-3710 STATE AND FEDERAL GRANTS AWARDED (MEMORANDUM) 250,000

To adjust for grant billed.

12. Cash is collected from the granting agency.

301-1040 Cash Unrestricted 250,000
301-1710 Due from Federal Government 250,000

To record collections on grant.

13. The revenue from the grant receipts is recorded.

301-2670 Deferred Revenue - Intergovernmental 250,000
301-3910 Revenue 250,000

To record the revenue from grant receipts.
Serial Bond Issues

When serial bonds are issued, the liability is recorded in the General Long-Term Obligation Account Group. At the same time an entry would be made in the General Long-Term Obligation Account Group to reverse the bonds authorized entry. The proceeds from the bond issues are recorded in the Capital Projects Fund as an Other Financing Source.

14. The bond proceeds are recorded in the Capital Projects Fund. Any related bond issuance costs, premiums, discounts, accrued interest and other similar transactions are recorded in the General Fund.

301-1040 Cash – Unrestricted 5,000,000
301-3920 Other Financing Sources 5,000,000

To record the proceeds from the issuance of bonds.

15. The temporary loans in anticipation of bond issue are repaid and recorded in the Capital Projects Fund. Related interest expenditures are recorded in the General Fund.

301-2720 Bond Anticipation Notes Payable 2,500,000
301-1040 Cash – Unrestricted 2,500,000

To record the repayment of temporary loans per warrant #________

Encumbrances

16. When a signed contract is entered into, the full amount of the contract should be encumbered. The full amount of the contract is encumbered, even though it may exceed the amount budgeted for the current year. Purchase orders received prior to the work being performed or the goods received should be credited to account #3211, Fund Balance Reserved for Encumbrances.

301-3940 Encumbrances 9,800,000
301-3213 Fund Balance Reserved for Construction 9,800,000

To record the encumbrances for capital projects contracts

17. The encumbrances must be liquidated when invoices are received from the contractor for a portion of the work completed.

301-3213 Fund Balance Reserved for Construction 500,000
301-3940 Encumbrances 500,000
To liquidate encumbrances for portion of contract completed

**Closing Entries**

The year-end closing entries will follow the same pattern established in other governmental funds.

18. The budget entry for the fiscal year is reversed.

<table>

21,100,000 21,100,000
Second Year of the Project

Many of the second year transactions are virtually identical to those of the first year, except for the dollar amounts involved. The major differences in the second year relate to the opening entry, the maturity of investments, the payments of retainage due, and the close out of the project.

Opening Entries

The prior year's closing trial balance is journalized and entered into the general ledger to become the beginning balances. (See the Closing Trial Balance for the previous year).

20. The reservation of fund balance from the prior year must be reinstated in the accounts for the current year.

301-3213 Fund Balance Reserved For Construction 9,300,000
301-3590 Undesignated Fund Balance 9,300,000

To reinstate the prior year's reservation

Budget Entries

21. The current year's budget is recorded. The appropriation consists of $10,000,000 less $500,000 expended in the first year. The estimated revenue is 50% of the $10,000,000 project less $500,000 spent in the first year.

301-3815 ESTIMATED REVENUE 4,750,000
301-3820 ESTIMATED OTHER FINANCING SOURCES 4,750,000
301-3830 APPROPRIATIONS 9,500,000

To record the current year's budget

Project Expenditures

22. Expenditures on the project are made.

301-3930 Expenditures 9,200,000
301-1040 Cash - Unrestricted 8,480,000
301-2050 Contracts Payable - Retained Percentage 720,000

To record the expenditures per warrant #_______
23. When the project is completed, upon initial inspection the specification have been met, and the retainage is paid.

301-2050 Contracts Payable - Retained Percentage 770,000
301-1040 Cash - Unrestricted 770,000

To record the payment of retainage on contract

Project Revenues

24. Request for reimbursement of expenditures is made to the granting agency for 50% of the $9,200,000 expenditures.

301-1710 Due from Federal Government 4,600,000
301-2670 Deferred Revenue - Intergovernmental 4,600,000

To record the application to granting agency for reimbursement

25. The memorandum accounts are adjusted for the amount of the grant billed.

301-3720 STATE AND FEDERAL GRANT AWARDED – OFFSET (MEMORANDUM) 4,600,000
301-3710 STATE AND FEDERAL GRANT AWARDED – (MEMORANDUM) 4,600,000

To adjust for grant billed

26. Cash is collected on receivables from the granting agency (note that the amount received is net of 50% of $1,000 of expenditures which did not qualify for grant reimbursements).

301-1040 Cash - Unrestricted 4,599,500
301-1710 Due from Federal Government 4,599,500

To record collections on grant

27. A notice is received from the granting agency of disallowed expenditures. 50% are disallowed.

301-2670 Deferred Revenue - Intergovernmental 500
301-1710 Due from Federal Government 500

To record disallowance of reimbursement
28. The revenue from grant receipts is recorded.

301-2670  Deferred Revenue - Intergovernmental 4,599,500
301-3910  Revenue 4,599,500

To record the revenue from grant receipts

Temporary Borrowing

29. The temporary loans are repaid and are recorded in the Capital Projects Fund. Related BAN interest expenditures are recorded in the General Fund.

301-2730  Grant Anticipation Notes Payable 2,500,000
301-1040  Cash - Unrestricted 2,500,000

To record the repayment of temporary loans

Closing Entries

30. To reverse the budget entry for the fiscal year.

301-3830  APPROPRIATIONS 9,500,000
301-3815  ESTIMATED REVENUE 4,750,000
301-3820  ESTIMATED OTHER FINANCING SOURCES 4,750,000

To close the budget accounts

31. The Revenues and Other Financing Sources and the Expenditures and Other Financing Uses are closed out to fund balance.

301-3910  Revenue 4,599,500
301-3590  Undesignated Fund Balance 4,600,500
301-3930  Expenditures 9,200,000

To close the Revenue and Expenditures accounts to Undesignated Fund Balance
32. The balance of the grant that will not be realized is closed out.

301-3720 STATE AND FEDERAL GRANTS AWARDED
- OFFSET (MEMORANDUM)  150,000

301-3740 PROJECTS AUTHORIZED -OFFSET–
(MEMORANDUM)  4,500,000

301-3710 STATE AND FEDERAL GRANTS AWARDED
- (MEMORANDUM)  150,000
301-3730 PROJECTS AUTHORIZED – (MEMORANDUM)  4,500,000

To close out the grant

Closing Trial Balance

301-1040 Cash - Unrestricted  149,500
301-3590 Undesignated Fund Balance  149,500

Third Year of the Project

The balance in cash and fund balance represents serial bond proceeds that were not expended on the project. This residual equity balance must be appropriated in accordance with M.G.L. Ch. 44, §20.

Opening Entries

The prior year's closing trial balance is journalized and entered into the general ledger to become the beginning balances. (See the Closing Trial Balance for the previous year).

Operating Transfers

33. Cash is transferred to the General Fund as the appropriation will be expended in the General Fund.

301-3970 Other Financing Uses  149,500
301-1040 Cash - Unrestricted  149,500

To record transfer to the General Fund
Closing Entries

To close nominal accounts

34. The Other Financing Uses is closed out to Undesignated Fund Balance.

301-3590 Undesignated Fund Balance 149,500
301-3970 Other Financing Uses 149,500

To close other financing uses to Undesignated Fund Balance
CHAPTER 12 - PROPRIETARY FUNDS

Proprietary Fund Types

Both Enterprise Funds and Internal Service Funds are Proprietary Fund types. They use the economic resources measurement focus and the accrual basis of accounting. They carry their own assets and long-term obligations. The accounting is similar to private sector accounting. In fact, enterprise funds are required to follow Financial Accounting Standards Board (FASB) guidance issued prior to December 1, 1989, if it does not conflict with GASB guidance. Proprietary funds may, also, follow FASB guidance after December 1, 1989, if it does not conflict with GASB statements. Internal service funds may follow such guidance; but are not required to. The use of an Enterprise Fund is mandated by GASB when legal requirements or management policy requires the total cost of providing a service is to be recovered by fees and charges. Different functions or services should not be combined in one Enterprise Fund. For example, water and sewer service should be established as separate Enterprise Funds and not as a single fund.

A distinction should be made between the legal adoption of an Enterprise Fund in accordance with M.G.L. Chapter 44, §, 53F ½ and the GAAP requirement for an Enterprise Fund. When a city or town adopts an Enterprise Fund under Chapter 44 (other local governments cannot create Enterprise Funds), the fund may or may not meet the GAAP requirements for such a fund. Conversely, communities may report an Enterprise on their audited financial statements even though they have not adopted Chapter 44. Local officials should be familiar with the presentation on their audited financial statements and be prepared to answer questions from external parties.

Capitalization of Interest

One issue concerning full cost recovery is the capitalization of interest. GASB Statement 37 (amending 34) prohibits capitalization of construction period interest for capital assets used in governmental activities. Conflicting with this is FASB statement 34 “Capitalization of Interest,” which requires interest to be capitalized on construction if there is debt outstanding in the fund, even if the debt has nothing to do with the specific project.

M.G.L. Chapter 44 does not allow the issuance of debt for the payment of interest. Therefore, interest costs on projects must be raised in user charges. For more information on the capitalization of interest the reader should consult FASB’s 34 and 62 “Capitalization of Interest Cost in Situations Involving Certain Tax-Exempt Borrowings and Certain Gifts and Grants.”
Electric Light Departments

Electric Light Departments are subject to the regulations issued by state and federal energy management agencies. Electric utilities are established under M.G.L. Chapter 164 and not the Enterprise Fund statute, M.G.L. Chapter 44, §53F½. However, they are required to follow GASB pronouncements and are departments of the municipality. In addition, Electric Light Departments may voluntarily follow the guidance of FASB 71, “Accounting for the Effects of Certain Types of Regulation.” To qualify, rates must be regulated by an independent agency, the rates are designed to recover certain specific costs and it is reasonable to assume that the regulated activity can set and collect charges sufficient to recover its costs. The Accountant/Auditor should maintain control accounts and review invoices as with any other department to ensure compliance with municipal law.

Enterprise Fund Manual

The Division of Local Services has published an Enterprise Fund Manual, which gives specific guidance on the establishment, budgeting and accounting for Enterprise Funds.

Internal Service Funds

Internal Service Funds (ISFs) are funds that are used to report an activity that provides from a central source goods and services to other funds, departments or agencies. One of the primary uses of ISFs in Massachusetts is for a self-insurance activity (e.g. group health, workers compensation, building insurance and liability insurance). Another example of a basic ISF is a motor vehicle pool, where the full cost of the pool is supported by charges to other departments’ appropriations. A third example would be a central supply office. However, if full cost is not recovered by fees and charges, that is, they are financed by a separate appropriation, the use of an ISF would not be appropriate. In this case, these functions will probably be included as part of general government.

Self-insured Health Plans

A self-insured health plan is one in which the employer and employees assume the financial risk for providing health care benefits to the employees. The employer and employees pay for health related costs as they are incurred rather than for a fixed premium to an insurance carrier. Communities must adopt Chapter 32B § 3A to establish a separate fund to account for the funds provided by the employer and employees; and the costs incurred.

As previously stated the self-insurance plan assumes the risk of health costs to the plan members. This risk may be limited by the acquisition of stop loss insurance. Stop loss insurance assumes the risk of either large individual claims or an unusually large
number of individual claims. There are two main types of stop loss insurance: individual stop loss, that protects the plan from large individual claims above a certain amount;

and aggregate stop loss, that insures against a total of individual claims above a certain amount. A deposit is normally required by a plan administrator (an organization that reviews and pays the claims) when the plan is established for cash flow reasons to pay for claims paid but not yet reimbursed to the plan administrator.

An important accounting aspect of the cost of a self-insurance fund are costs that have been incurred but not reported as of the end of the fiscal year. Incurred but not reported (IBNR) claims are defined by GASB Cod. Sec. C50.113, footnote 5 as:

“IBNR includes (a) known loss events that are expected to later be presented as claims, (b) unknown loss events that are expected to become claims, and (c) expected future development on claims already reported. IBNR, therefore, is largely an estimate of loss... associated with future likely claims activity based on historical actual results that establish a reliable pattern. For example, after reviewing historical claims experience, one might find that only 40 percent of all claims are normally reported during the year of occurrence, an additional 50 percent the next year, and the remainder in the third year. This pattern would be used to estimate IBNR amounts and the timing of those amounts for financial reporting purposes.”

IBNR should be recorded as an expense (and as accounts payable on the Balance Sheet) in the Health Claims internal service fund (fund # 691).

There are various ways to calculate IBNR:

- a 3-year average of claims paid in the two months after the close of the fiscal year;

- actual claims incurred prior to the end of the fiscal year and paid in the subsequent fiscal year are determined by a review of subsequent payments and summarized;

- an actuarial analysis of the plan (participants demographics, past patterns, etc.)

In August, 2005 the legislature passed Chapter 61 of the Acts of 2005 which amended M.G.L. Chapter 32B, section 3A. The act addresses deficits that have occurred in some local governments with self-insured health plans due to their failure to accurately account for all incurred obligations and claims. All local governments that elect to self-insure their group health plan under that section will now have to conduct an annual audit of its health insurance claims trust fund. This audit can be performed as part of the annual financial audit of the government. Any year-end deficit must be funded in the succeeding year. However, special provisions apply for deficits incurred in FY 2005 for failure to accrue IBNR. See IGR 05-101 for details.
Illustrative Journal Entries for an Enterprise Fund

Accounting for the activities of the Enterprise Fund is depicted through a series of journal entries in the following pages. In most instances, the journal entries have been arranged in the order in which they would occur during the fiscal year. The entries have been grouped under the following general categories:

Opening Entries
Memoranda Entries
Budgetary Entries
Expenses and Other Cash Disbursements
Revenue
Grants
Construction and Financing of Capital Projects
Fixed Assets
Other Transactions
Adjusting Entries
Closing Entries
Closing Trial Balance

The journal entries illustrate the entire accounting cycle for one fiscal year, beginning with the opening trial balance, and ending with a closing trial balance, which has been prepared after posting of the journal entries presented in the chapter.

The example chosen for an enterprise fund reflects the operations of a water department, but the same basic entries and accounting theory are applicable to other Enterprise Funds.

At the beginning of the year, the enterprise has under construction a water treatment plant for which the total authorized project cost is $5,000,000. The project will be funded by a federal grant, which will pay for 75% of the cost. The balance will be funded through the issue of 20-year serial bonds. As of July 1, the beginning of the year, there had been $850,000 of costs incurred on the project. Grant reimbursement requests, submitted to the federal government under the terms of the grant, amounted to $637,500, of which amount there was still $140,000 receivable from the government at the beginning of the year.

Many of the water and sewer projects in Massachusetts are funded through the Massachusetts Water Pollution Abatement Trust. For an example of the accounting for these loans see Appendix H.

There have been included, in the opening trial balances, memorandum accounts for Projects Authorized, Grants Awarded and Bonds Authorized. As has been noted previously, the use of such accounts is recommended for control purposes. However, such amounts should not be included in the financial reports issued by an enterprise.
Opening Entries

The opening entries record the opening trial balance carried over from the prior year and restores the accounts to the basis of accounting on which they will be maintained during the year.

1. The trial balance after final adjustment at the close of the prior year-end is brought forward and recorded as the current year’s beginning trial balance, including memoranda accounts.

To record the opening balances in the Water Enterprise Fund per the trial balance at the close of the prior year

Memoranda Entries

The beginning trial balance included the balance in memoranda accounts established in the prior year to facilitate the control over authorized project costs and approved state
and federal grants. The two entries that follow adjust these memoranda accounts for the current year’s activities and would be made at the end of the fiscal year:

1A. The anticipated expenses for the year on the project are recorded:

<table>

To record operating transfers-in
Subsidiary ledger entry for this journal entry would be:

650-4970  Interfund Operating Transfers In 117,593
650-4000  Subsidiary Revenue Control 117,593

5. The budgetary entries for the capital project being constructed in the Enterprise Fund may be recorded with the annual operating budget or separately. The following entries record the estimated revenues and expenses related to this project.

650-3815  ESTIMATED REVENUE 3,112,500
650-3820  ESTIMATED OTHER FINANCING SOURCES 1,037,500
650-3830  APPROPRIATIONS 4,150,000

Subsidiary ledger entry for this journal entry would be:

650-4540  Other Federal Revenue - Direct 3,112,500
650-4910  Proceeds from Sale of Bonds 1,037,500
650-4000  Subsidiary Revenue Control 4,150,000
650-5000  Subsidiary Appropriation Control 4,150,000
650-5820  Buildings 3,000,000
650-5850  Additional Equipment 1,150,000

Expenditures and Other Cash Disbursements

There are no examples for payroll or vendor disbursements. These activities are treated the same way as in the General Fund.

Appropriation transfers - During the fiscal year a situation may develop where it becomes necessary to authorize the transfer of appropriations between departments, use of a part of the municipality's appropriation reserve account, or the use of other available funds. Although some of these transfers may have no net effect on the general ledger, they all should be reflected in the general ledger accounts to provide accounting control and an audit trail.
6. The City Council votes to transfer funds from one appropriation account to another.

\[
\begin{align*}
650-3830 & \quad \text{APPROPRIATIONS} & 2,000 \\
650-3830 & \quad \text{APPROPRIATIONS} & 2,000 \\
\end{align*}
\]

To record approved transfers between appropriations accounts Council order #_______

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
650-5430 & \quad \text{Building and Equipment Repairs and Maintenance Supplies} & 2,000 \\
650-5240 & \quad \text{Repairs and Maintenance} & 2,000 \\
\end{align*}
\]

7A. The City Council votes to appropriate available funds from other Enterprise Funds to fund an appropriation for interest expenses after the tax rate has been set and approved.

\[
\begin{align*}
650-3890 & \quad \text{BUDGETARY CONTROL} & 30,000 \\
650-3830 & \quad \text{APPROPRIATIONS} & 30,000 \\
\end{align*}
\]

To record city council an appropriation for interest expenses and transfer from another Enterprise Fund - Council order #_______

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
650-5000 & \quad \text{Subsidiary Appropriation Control} & 30,000 \\
650-5925 & \quad \text{Interest on Notes} & 30,000 \\
\end{align*}
\]

7B. The estimated source of funding for the appropriation is recorded.

\[
\begin{align*}
650-3820 & \quad \text{ESTIMATED OTHER FINANCING SOURCES} & 30,000 \\
650-3890 & \quad \text{BUDGETARY CONTROL} & 30,000 \\
\end{align*}
\]

To record the estimated financing source

Subsidiary ledger entry for the journal entry would be:

\[
\begin{align*}
650-4970 & \quad \text{Interfund Operating Transfers In} & 30,000 \\
650-4000 & \quad \text{Subsidiary Revenue Control} & 30,000 \\
\end{align*}
\]
Interfund transactions - Transactions between funds include those where one fund renders a service for another (quasi-external transaction) and those where one fund reimburses another fund for expenses initially made by it, which were properly applicable to another fund (reimbursable transaction).

8. The Water Department's office supplies are purchased by the Central Purchasing Department. Periodically, the water department is issued supplies and is required to pay for them.

650-3930 Expenses 250
650-1040 Cash - Unrestricted 250

To record the issue of office supplies from Central Purchasing and the related payment

Subsidiary ledger entry for this journal entry would be:

650-5420 Office Supplies 250
650-5000 Subsidiary Appropriation Control 250

9. The Recreation Department fills two of its vehicles with gasoline at the Water Enterprise’s gasoline pumps. This is a reimbursable type of transaction, and would be accounted for in the Enterprise Fund as a reduction of expense.

650-1040 Cash - Unrestricted 50
650-3930 Expenses 50

To record the sale of gasoline to an activity accounted for in the General Fund

Subsidiary ledger entry for this journal entry would be:

650-5000 Subsidiary Appropriation Control 50
650-5480 Vehicular Supplies 50

Revenue

The majority of the revenue in the Water Enterprise Fund, and most other Enterprise Funds, is from usage charges. If the enterprise is involved in a major capital project, there may be substantial revenue from federal and/or state grants as well. Revenue will be recorded during the fiscal year on a cash basis. Year-end adjustments will be made to convert the accounting for revenue to an accrual basis. The accounting for grants is discussed in a separate subheading.
**Usage charges** - The principal revenue in an Enterprise Fund is the charges for services. Normally, Enterprise Funds should be self-supporting. In order to achieve this objective, the rates being charged should be reviewed periodically to determine their adequacy.

10. The water bills are sent out for the fall, and a commitment warrant, agreeing to the total, is forwarded to the Accounting Officer.

650-4000 & \quad \text{Subsidiary Revenue Control} & 20 \\
\end{align*}
\]

Water liens - Unpaid water rates may be reclassified to water liens in accordance with M.G.L. Ch. 40, §42B and may be included with other taxes on the real estate tax bills. The water liens are committed by the Assessors. Revenue from water liens is recognized when collected. Even though water liens are billed on real estate bills and collected by the Collector, they are revenue to the Enterprise Fund.

16A. The commitment from the Assessors of water liens added to taxes is forwarded to the Accounting Officer.

\[
\begin{align*}
650-1330 & \quad \text{Utility Liens Added to Taxes} & 8,000 \\
650-1310 & \quad \text{User Charges Receivable} & 8,000 \\
\end{align*}
\]

To record the water liens added to taxes

16B The related Deferred Revenue accounts must be adjusted.

\[
\begin{align*}
650-2651 & \quad \text{Deferred Revenue - User Charges} & 8,000 \\
650-2653 & \quad \text{Deferred Revenue - Utility Liens} & 8,000 \\
\end{align*}
\]

To adjust the Deferred Revenue accounts for user charges taken into liens
17. Cash is collected on water liens and reported through the Treasurer's Report of Cash Received.

\[
\begin{align*}
\text{650-1040 Cash - Unrestricted} & \quad 1,000 \\
\text{650-1330 Utility Liens Added to Taxes} & \quad 1,000
\end{align*}
\]

To record the collections on water liens

18. The Assessors send the monthly summary of abatements to the Accounting Officer, which includes water liens abated.

\[
\begin{align*}
\text{650-2653 Deferred Revenue - Utility Liens} & \quad 1,977 \\
\text{650-1330 Utility Liens Added to Taxes} & \quad 1,977
\end{align*}
\]

To record the abatement of water enterprise liens for June

**Tax liens** - Unpaid water liens (M.G.L. Ch. 40, §§42(a) to (i)) can be subject to a tax lien 14 days after a demand notice of delinquency has been issued in accordance with M.G.L. Ch. 60, §53. The lien is taken by the Collector and collected by the Treasurer.

19A. The Tax Collector records the tax lien on properties for delinquent water enterprise liens.

\[
\begin{align*}
\text{650-1240 Tax Liens Receivable} & \quad 1,500 \\
\text{650-1330 Utility Liens Added to Taxes} & \quad 1,500
\end{align*}
\]

To record the taking of water liens to tax liens

19B. The related Deferred Revenue accounts must be adjusted.

\[
\begin{align*}
\text{650-2653 Deferred Revenue - Utility Liens} & \quad 1,500 \\
\text{650-2622 Deferred Revenue - Tax Liens} & \quad 1,500
\end{align*}
\]

To adjust the deferred revenue accounts to reflect the transfer to Utility Liens added to taxes
20. Payments are received on tax liens and reported on the Treasurer's Report of Cash Received.

<table>
<thead>
<tr>
<th>Account Code</th>

<td>Tax Liens Redeemed</td>
<td>450</td>
</tr>
</tbody>
</table>

22. Occasionally a water lien is transferred to tax liens and then, subsequently, it is found that the original billing was in error and must be abated. The entry to record the abatement follows:

<table>
<thead>
<tr>
<th>Account Code</th>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>650-2622</td>
<td>Deferred Revenue - Tax Liens</td>
<td>50</td>
</tr>
<tr>
<td>650-1240</td>
<td>Tax Liens Receivable</td>
<td>50</td>
</tr>
</tbody>
</table>

To record the abatement of a water lien in tax lien

(An identical entry would be made for tax liens which are disclaimed, except the explanation would indicate "disclaimed" instead of "abated").

If the Treasurer, or other custodian of tax liens, sells land of low value that is in tax lien as set forth in M.G.L. Ch. 60, §79, then a priority for recognizing revenue is established. First, the proceeds are applied to delinquent real estate taxes in tax lien, then to other taxes in tax lien, then to enterprise liens in tax liens (apportioned by their relative magnitude), then to interest and charges, and, finally, if any proceeds remain, to a liability in the General Fund called “Excess on Sale of Land of Low Value.”

Tax foreclosures - Tax liens may be subject to a foreclosure, in accordance with M.G.L. Ch. 60, §50 if they are not paid. Foreclosure proceedings are processed by the Treasurer or other tax lien custodian. In the Enterprise Funds, the accounting for
foreclosure transactions is limited to the foreclosure itself. Once the property has been foreclosed on, it becomes an asset of the General Fund so that subsequent sales, or other transactions of that particular property, are reflected in the General Fund. The accounting for foreclosures is illustrated in the two following entries.

23. The tax lien custodian forecloses on a tax lien property that had a water lien within the tax lien.

650-3970   Other Financing Uses   100  
650-1240   Tax Liens Receivable   100 

To record the foreclosure on a tax lien

Subsidiary ledger entries for this journal entry would be

650-5961   Transfer to the General Fund   100  
650-5000   Subsidiary Appropriation Control   100

24. The Revenue and the Deferred Revenue - Tax Liens are adjusted to reflect the cash received on tax lien accounts receivable.

650-2622   Deferred Revenue - Tax Liens   100  
650-3910   Revenue   100

To record the revenue from foreclosure of tax liens

Subsidiary ledger entry for this journal entry would be:

650-4000   Subsidiary Revenue Control   100  
650-4145   Tax Foreclosures   100

Other revenue - Other revenue includes cash receipts from sources that are not normally billed and do not, therefore, become formal receivables of the enterprise until the end of the fiscal year. Examples of these are the non-utility usage charges, such as rental of spare office or garage space, sale of pipe layouts to contractors, or sale of scrap metal.

25. The Water Department sells some scrap pipe to a junk dealer and the proceeds are reported through the Treasurer's Report of Cash Received.

650-1040   Cash - Unrestricted   75  
650-3910   Revenue   75

To record the receipt of cash for the sale of scrap pipe.
Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
650-4000 & \quad \text{Subsidiary Revenue Control} \quad 75 \\
650-4840 & \quad \text{Miscellaneous} \quad 75
\end{align*}
\]

**Grants**

**Intergovernmental grants** - A description of the various types of grants and the accounting for grants under this system is discussed in the chapter on Special Revenue Funds. However, since Proprietary Funds are maintained on a full accrual basis, an adjustment must be made at year-end to accrue intergovernmental revenue earned but not received.

26. The municipality makes expenditures related to the construction of the water treatment plant. Such expenditures qualify for a 75% reimbursement from the federal government under the terms of the federal grant.

\[
\begin{align*}
650-3930 & \quad \text{Expenditures} \quad 300,000 \\
650-2050 & \quad \text{Contracts Payable, Retained Percentage} \quad 30,000 \\
650-1040 & \quad \text{Cash - Unrestricted} \quad 270,000
\end{align*}
\]

To record expenditure on the capital project

Subsidiary ledger entry for this journal entry would be:

\[
\begin{align*}
650-5820 & \quad \text{Buildings} \quad 300,000 \\
650-5000 & \quad \text{Subsidiary Appropriation Control} \quad 300,000
\end{align*}
\]

27. A general government requisition is prepared requesting draw-down of federal grant funds related to the construction project. Amount requested represents 75% of qualifying expenditures.

\[
\begin{align*}
650-1710 & \quad \text{Due from Federal Government} \quad 225,000 \\
650-2670 & \quad \text{Deferred Revenue – Intergovernmental} \quad 225,000
\end{align*}
\]

To record the requisition of federal grant funds to reimburse capital projects expenditure

28. Collections on the receivable from the federal government are made and are reported through the Treasurer's Report of Cash Received.

\[
\begin{align*}
650-1040 & \quad \text{Cash - Unrestricted} \quad 225,000 \\
650-1710 & \quad \text{Due from Federal Government} \quad 225,000
\end{align*}
\]
To record the collections on receivables from the federal government

29. The revenue and the reserve for uncollected accounts are adjusted to reflect the cash received on the government receivable.

</tbody>
</table>

Construction and Financing of Capital Projects

Construction of the water treatment plant, which was started in the prior fiscal year, was completed during the present year. The expenses made during the year for the project will be classified to expense account 5890 “Construction in Progress.” At year-end, adjustments will be made to reclassify such amounts to the fixed asset accounts. The events illustrated in the following journal entries include temporary borrowing taken to finance the project, the payment of construction invoices, the sale of bonds authorized in connection with the project funding and the repayment of the temporary loans.

30. Construction invoices for several months are paid, less retainage authorized to be withheld.

<table>
<thead>
<tr>
<th>Account</th>

<tbody>
<tr>
<td>650-5850</td>
<td>Additional Equipment</td>
<td>375,000</td>
</tr>
<tr>
<td>650-5000</td>
<td>Subsidiary Appropriation Control</td>
<td>375,000</td>
</tr>
</tbody>
</table>

31. The bonds authorized for funding a portion of the project are sold at par.

<table>
<thead>
<tr>
<th>Account</th>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>650-1040</td>
<td>Cash - Unrestricted</td>
<td>1,250,000</td>
</tr>
<tr>
<td>650-2948</td>
<td>Bonds payable, Outside Debt Limit</td>
<td>1,250,000</td>
</tr>
</tbody>
</table>
To record the cash proceeds received from the sale of bonds

32A. At the same time that the entry is made to record the sale of the bonds, an entry would be made to reverse related amounts previously recorded in the bond authorization memorandum accounts.

650-3770  BONDS AUTHORIZED - OFFSET
(MEMORANDUM) 1,250,000
650-3760  BONDS AUTHORIZED -
(MEMORANDUM) 1,250,000

To reverse, from the bond authorization memoranda accounts, the amount of bonds issued in connection with the water treatment plant

32B. The local government expends the remainder of the funds for the project.

650-3930  Expenses 3,475,000
650-1040  Cash – Unrestricted 3,475,000

To record the completion of the water treatment plant.

Subsidiary ledger entry for this journal entry would be:

650-5820  Buildings 3,000,000
650-5850  Additional Equipment 475,000
650-5000  Subsidiary Appropriation Control 3,475,000

Fixed Assets

Fixed assets used by a municipality in enterprise activities should be accounted for in accordance with the principles described previously in this chapter. Amounts included in the operating budget for capital outlay, other than for capital projects discussed above, will, when expended, be charged to account 5890. When the assets acquired are significant, the cost of such assets will be reclassified to the fixed asset accounts at the end of the fiscal year.

33. Two new pick-up trucks are purchased to replace two old vehicles.

650-3930  Expenses 25,000
650-1040  Cash - Unrestricted 25,000

To record the Expenses for vehicles on warrant #_________
Subsidiary ledger entry for this journal entry would be:

650-5870  Replacement Equipment 25,000
650-5000  Subsidiary Appropriation Control 25,000

34. Through research of prior year records, it is determined that the buildings in which the water department conducts its activities were constructed by the municipality for a cost of $250,000 fifteen years ago. Such amounts should be capitalized as a fixed asset recorded at its net depreciated value, and written off over the remaining useful life of the building, which is estimated to be 10 years.

650-1920  Buildings 250,000
650-1929  Accumulated Depreciation - Buildings 150,000
650-3001  Net Assets Invested in Capital Assets - Net of Related Debt 100,000

To record as a fixed asset the net depreciated value of Water Department buildings. (Original cost of $250,000, less allowable depreciation of $150,000.)

Other Transactions

Loan authorization and issuance – Most capital projects and purchases of large equipment of an enterprise are funded, either totally or in part, by long-term borrowing in the form of issuance of serial bonds. These serial issues must be approved by either Town Meeting vote or by the City Council. The authorization is recorded when voted and reduced by either the issuance of bonds or the rescission of the authorization.

Investment of excess cash – Due to the fluctuation in cash flow of the enterprise during the year, there may be excess cash generated, which should be invested to benefit the enterprise. Certificates of deposit, securities, repurchase agreements, and treasury bills are among the vehicles in which the funds may be invested. The expenses to purchase these investments must be made through approved treasury warrants, and the principal and the interest earned on them must be reported through the Treasurer’s Report on Cash Received.

35. An investment of excess funds is made in securities repurchase agreements

650-1100  Short Term Investments 200,000
650-1040  Cash-Unrestricted 200,000

To record the investment of excess cash
36. The security repurchase agreements are sold.

650-1040 Cash 201,000
650-1110 Short Term Investments 200,000
650-3910 Revenue 1,000

To record the sale of security repurchase agreements

Subsidiary ledger entry for this journal entry would be:

650-4000 Subsidiary Revenue Control 1,000
650-4820 Earnings on Investments 1,000

37. Payment of contract retainage.

650-2050 Contract Payable, Retained Percentage 67,500
650-1040 Cash - Unrestricted 67,500

To pay contract retainage

38A. Repayment of bond anticipation notes.

650-2720 Bond Anticipation Notes 450,000
650-3930 Expenses 15,000
650-1040 Cash - Unrestricted 465,000

To repay bond anticipation notes payable

Subsidiary ledger entry for this journal entry would be:

650-5925 Interest on long-term debt 15,000
650-5000 Subsidiary Appropriation Control 15,000

Adjusting Entries

At the end of the fiscal year, the accounting for revenues in the Enterprise Fund must be converted to the accrual basis. This is accomplished by reclassifying the total balances in the "Deferred Revenue - User Charges" to revenue, net of a reasonable amount for the estimated uncollectible accounts, which will be recorded in account 1399, Allowance for Uncollectible Receivables. The calculation of the estimated uncollectible portion of each type of receivable should be based on a given municipality's actual experience. In this example, the allowance includes 5% of the
water rates receivable, 100% of water liens and 100% of tax liens. No allowance was
considered necessary for the governmental receivables.

### 38B. Adjusting Deferred Revenue for potential uncollectible accounts

<table>
<thead>
<tr>

Illustrative Journal Entries for an internal service (self insurance) Fund

Accounting for the activities of the Internal Service, self insurance Fund is depicted through a series of journal entries in the following pages. In most instances, the journal entries have been arranged in the order in which they would occur during the fiscal year. The entries have been grouped under the following general categories:

Opening Entries
Expenses
Revenue
Other Transaction
Adjusting Entries
Closing Entries
Closing Trial Balance

The journal entries illustrate the entire accounting cycle for one fiscal year, beginning with the opening trial balance, and ending with a closing trial balance, which has been prepared after posting of the journal entries presented in the chapter. Dollar values have been assigned to the entries to assist the reader in following the presentation.

The example chosen for an internal service fund reflects the operations of a self-insurance trust fund, but the same basic entries and accounting theory are applicable to other internal service funds.

Opening Entries

The opening entries record the opening trial balance carried over from the prior year and restores the accounts to the basis of accounting on which they will be maintained during the year.

1. The trial balance after final adjustment at the close of the prior year-end is brought forward and recorded as the current year's beginning trial balance, including memoranda accounts.

Expenses

2. The plan pays expenses to the plan administrator for the prior month.

\[
\begin{align*}
691-2020 & \quad \text{Accounts Payable} & 2,000,000 \\
691-1040 & \quad \text{Cash - Unrestricted} & 2,000,000 \\
\end{align*}
\]

To pay expenses of the health insurance trust funds

Revenue

3. The plan receives its monthly contributions from the employees and the local government.

\[
\begin{align*}
691-1040 & \quad \text{Cash - Unrestricted} & 1,500,000 \\
691-3910 & \quad \text{Revenue} & 1,500,000 \\
\end{align*}
\]

To record the revenue for the month

Expenses

4. The local government receives an invoice from the administrative organization for the monthly expense, health and administrative costs.

\[
\begin{align*}
691-3930 & \quad \text{Expenses} & 1,125,000 \\
691-2020 & \quad \text{Accounts Payable} & 1,125,000 \\
\end{align*}
\]

To record the administrative expense for the month.

Other Transactions

5. The administrative agency decides to reduce the deposit the local government must maintain.

\[
\begin{align*}
691-1040 & \quad \text{Cash - Unrestricted} & 50,000 \\
691-1870 & \quad \text{Deposits} & 50,000 \\
\end{align*}
\]

To record the reduction of the deposit required.
Adjusting Entries

6. Based on past experience the local government determines the incurred but not reported expense. (To be reversed in the subsequent year.)

   691-3930   Expenses  250,000
   691-2020   Accounts Payable 250,000

   To record the incurred but not reported expense for the year.

Closing Entries

7. The revenues and expenses are closed out to net assets unrestricted.

   691-3910   Revenue 1,500,000
   691-3930   Expenses 1,375,000
   691-3015   Net Assets Unrestricted 125,000

   To close the nominal accounts for the year.

Closing Trial Balance

691-1040   Cash-Unrestricted 5,550,000
691-1870   Deposits 250,000
691-2020   Accounts Payable 3,875,000
691-3015   Net Assets Unrestricted 1,925,000

5,800,000  5,800,000
CHAPTER 13 - FIDUCIARY FUNDS AND PERMANENT FUNDS

GASB 34 made significant changes to trust funds. The titles of the fund types have changed and the accounting has been modified. Non-expendable and expendable trust funds have been reclassified.

Note: In Fiduciary Fund types, account 3910, Revenue, is titled Additions. Also, account 3930, Expenditures, is entitled Deductions.

Permanent Fund Type

Permanent funds are governmental funds and use the modified accrual method of accounting. They are funds in which the principal is legally restricted and only the earnings can be used to support activities. An example from the Bureau of Accounts’ GASB 34 Implementation Guide is the Cemetery Perpetual Care fund. In the case of Cemetery Perpetual Care, the choice of investments is left to the donor or if the donor has not stipulated, the Cemetery Commissioners. These funds are similar to the former non-expendable trust funds, where the beneficiary is the government itself, and the method of accounting is modified accrual. If trusts benefit an individual, private entity or another government, the fund would be a Private Purpose Trust Fund in the Fiduciary Fund type. An example in the GASB 34 Implementation Guide is a scholarship fund. Since the permanent fund type uses the modified accrual basis of accounting, the accounting is similar to Special Revenue Funds.

Beginning entry

1. At the beginning of the year, the Cemetery Permanent Fund had the following balances.

<table>

Private Purpose Fund Type

Private Purpose Trust Funds are fiduciary funds and use the accrual method of accounting. The beneficiary of these funds are individuals, private organizations and other governments. For example, a Scholarship Fund would be a Private Purpose Trust Fund.

Note, in a Private Purpose Trust Fund, account 3910, Revenue, is titled Additions. Also, account 3930, Expenditures, is entitled Deductions.

Beginning Balance

1. At beginning of the fiscal year the Scholarship Trust Fund had the following balances.

<table>
<thead>
<tr>
<th>Account Code</th>

851-3910  Additions  5

To record the sale of investments

5. An additional $5 in interest is earned on investments but not yet received.

851-1550  Accrued Interest Receivable  5
851-3910  Additions  5

To record the interest on investments earned but not yet received

6. Several scholarships are awarded to students.

851-3930  Deductions  750
851-2020  Accounts Payable  750

To record the award of scholarships

7. The scholarships are paid to the students.

851-2020  Accounts Payable  750
851-1040  Cash - Unrestricted  750

To record the payment of scholarships

8. Closing entries

851-3910  Additions  1,010
851-3930  Deductions  750
851-3010  Net Assets Restricted  260

To close temporary accounts to Net Assets Restricted

Ending Trial Balance

851-1040  Cash - Unrestricted  255
851-1110  Short Term Investments  500
Other Fiduciary Fund Types

Other Fiduciary Fund types are: Investment Trust Funds, Pension (and other employee Benefit Fund type and Agency Funds. Investment Trust Funds are seldom used by Massachusetts local governments. Pension funds include pension system trusts and Internal Revenue Code Section 457 deferred compensation plans. Agency funds are used for funds the government is holding for another entity and, therefore, they have no equity. For example, some governments use agency funds to account for withholding taxes. Others merely pay the withholding taxes from the General Fund.

Pension Fund

1. At the beginning of the fiscal year the Pension Fund had the following balances.

   700-1040  Cash - Unrestricted          2,000
   700-1110  Short Term Investments       15,000
   700-2020  Accounts Payable             1,000
   700-3010  Net Assets Restricted        16,000

2. Amounts withheld from employees are paid to the fund.

   700-1040  Cash - Unrestricted          5,000
   700-3910  Additions                    5,000

   To record amounts received from employees

3. An appropriation from the general fund for the employer contribution is transferred to the pension fund (enterprise funds and other proprietary funds may make their own contributions).

   700-1040  Cash - Unrestricted          10,000
   700-3910  Additions                    10,000

   To record amounts received for employer contributions

4. Investments are purchased for funds not necessary to meet obligations.
700-1110  Short Term Investments  6,000  
700-1040  Cash - Unrestricted  6,000  

To record the investment of cash

5. Benefits are paid to pension fund participants.

700-3930  Deductions  5,000  
700-1040  Cash - Unrestricted  5,000  

To record the payment of benefits to plan members

6. Administrative costs are incurred.

700-3930  Deductions  500  
700-2020  Accounts Payable  500  

To record the administrative costs for the plan

7. Administrative costs are paid.

700-2020  Accounts Payable  500  
700-1040  Cash - Unrestricted  500  

To record the payment of administrative costs

Closing Entries

700-3910  Additions  15,000  
700-3930  Deductions  5,500  
700-3010  Net Assets Restricted  9,500  

Ending Trial Balance

700-1040  Cash - Unrestricted  5,500  
700-1110  Short Term Investments  21,000  
700-2020  Accounts Payable  1,000  
700-3010  Net Assets Restricted  25,500  

26,500  26,500
Agency Fund

1. At the beginning of the fiscal year the Agency had the following balances.

   - 903-1040  Cash - Unrestricted  10,000
   - 903-2120  Federal Income Tax Withholdings  5,000
   - 903-2130  State Income Tax Withholdings  2,000
   - 903-2170  Union Dues Withholdings Payable  1,000
   - 903-2180  Employee Savings Withholdings Payable  2,000

2. Amounts withheld from the previous year are paid.

   - 903-2120  Federal Income Tax Withholdings Payable  5,000
   - 903-2130  State Income Tax Withholdings Payable  2,000
   - 903-2170  Union Dues Withholdings Payable  1,000
   - 903-2180  Employee Savings Withholdings Payable  2,000
   - 903-1040  Cash - Unrestricted  10,000

   To record the payment of amounts withheld in the previous year.

3. After payroll is made funds withheld from employees are transferred to the Agency Fund.

   - 903-1040  Cash - Unrestricted  1,000
   - 903-2120  Federal Income Tax Withholdings Payable  500
   - 903-2130  State Income Tax Withholdings Payable  200
   - 903-2170  Union Dues Withholdings Payable  100
   - 903-2180  Employee Savings Withholdings Payable  200

   To record the receipt of the amounts withheld from employees.

4. The period and amount of federal income taxes withheld requires the funds to be deposited with a federal depository.

   - 903-2120  Federal Income Tax Withholdings Payable  500
   - 903-1040  Cash - Unrestricted  500

   To record the payment of federal income tax withholdings.
5. The state income taxes are required to be paid to the state.

CHAPTER 14 - THE CALCULATION OF FREE CASH

Free cash is the amount of funds in a city, town or special purpose district, which is unrestricted and available for appropriation in accordance with M.G.L. Ch. 59, §23, after certification by the Director of Accounts.

At the end of the fiscal year, the Accountant/Auditor will close the books of the governmental entity and prepare a Balance Sheet. In the past, some Accountants/Auditors relied upon the entity’s audit firm to perform the closing. In recent years, changes in Government Auditing Standards now prohibit Certified Public Accountants from performing certain functions they once performed for the governmental entity.

Every city, town and special purpose district should submit the Balance Sheet with supporting documentation to the Bureau of Accounts for determination of “free cash.” Every Regional School District should do the same for determination of “excess and deficiency.”

The Director of Accounts certifies free cash based upon the governmental entity’s balance sheet for the fiscal year ended June 30th. The balance sheet, consisting of assets, liabilities and fund balances, is prepared with the Accountant/Auditor with a target submission date of September 15th to allow appropriation consideration of such funds during fall season. A combined balance sheet with backup documentation is required from each entity. Backup documentation includes:

- Combining statements for each fund;
- Completed year-end checklist;
- Statement of Indebtedness;
- Quarterly Reconciliation of Treasurer’s Cash;
- Schedule of Outstanding Accounts Receivable;
- Detailed analysis of Undesignated Fund Balance;
- Cash Reconciliation form;
- Any other information needed to make a fair determination of the entity’s free cash position.

Cities, towns and districts that have authorized debt or had a federal or state grant approved may spend for those purposes from available unrestricted funds in anticipation of the borrowing or receipt of grant funds. Any so-called interfund or internal borrowings or advances must be repaid during the same fiscal year and be made according to rules, regulations and guidelines promulgated by the Director of Accounts (M.G.L. Ch. 44, §20A.). *Illustrative journal entries regarding interfund or internal borrowings are found in Appendix J to this Manual.*
The Basic Free Cash Calculation

BEGIN Undesignated Fund Balance
MINUS Accounts Receivable
PLUS Deferred Revenue
MINUS Debit balances in other funds
MINUS Illegally overspent appropriations (appropriations not allowed by General or Special law(s) to be overspent)
MINUS Prepaid Items
MINUS Amounts appropriated from free cash
PLUS 60 day collections from the date of mailing, net of refunds, if property tax bills were issued after May 1st
PLUS Late Payments
EQUALS Free Cash

Free Cash Calculation in Detail

BEGIN - Undesignated Fund Balance: Undesignated Fund Balance - General Fund (001-3590). This is the amount of available expendable financial resources, neither reserved nor designated. Overlay Surplus, Fund Balance Reserved for Overlay Released by the Assessors for Expenditures, (001-3220), must be closed out at the end of each fiscal year.

MINUS - Accounts Receivable: All receivables, except for property taxes, should be fully deferred. Otherwise, the amount of receivable outstanding in excess of the deferred revenue is deducted from free cash. The reason for this is that in a governmental fund, revenue is considered available only when received.

If the commitment for the succeeding fiscal year is made prior to the end of the fiscal year being examined on the Balance Sheet, the property tax receivable should be fully reserved. If cash is received for taxes of the subsequent fiscal year, revenue should not be recognized in the current fiscal year.

PLUS - Deferred Revenue: Property taxes are deferred until collected. This means that they will not be recognized as revenue until the funds are received. However, deferred property taxes are added back into the free cash calculation because the property tax will be eventually accounted for either through payment, abatement, property sale or an “Overlay” deficit raised by taxation in a subsequent fiscal year.
MINUS - Debit Balances in Other Funds: If a fund has a deficit fund balance that is the result of anticipated other governmental reimbursements or long-term borrowing, the deficit is deducted from free cash because this represents a “loan” from the General Fund to the fund in deficit. However, if the governmental entity borrows funds (i.e. BAN, GAN, SAN) by June 30th that equals or exceeds the amount of the deficit, the deficit will not reduce free cash.

MINUS - Illegally overspent appropriations (appropriations not allowed by General or Special law(s) to be overspent): If an entity overspends an appropriation, it should only be:

a. an account which by law may be overspent (e.g. overlay, snow and ice with certain conditions)
b. an account which gains the approval of the Director of Accounts to overspend (e.g. court judgments, emergencies)

Legally overspent accounts can be either appropriated for or raised on the following fiscal year's Tax Rate Recapitulation form. Illegally overspent accounts such as ordinary operating appropriations, certain capital project expenditures and expenditure driven grants will reduce free cash and must also be raised on the following fiscal year’s Tax Rate Recapitulation form.

MINUS - Prepaid Items: Free cash is reduced for prepaid items such as vacations and insurance. Prepaying an item means that the entity is using some of its resources today for tomorrow’s obligations. If a city or town adopts M.G.L. Ch. 44, §65, vacation advances will not be deducted from free cash.

MINUS - Amounts Appropriated from Free Cash: Appropriations from free cash prior to the end of the fiscal year for the following fiscal year should be reserved on the Balance Sheet. This reservation will reduce the Undesignated Fund Balance. Free cash cannot be appropriated until it is certified by the Director of Accounts. In addition, free cash cannot be appropriated to an amount greater than the amount so certified.

PLUS - 60 day Accruals: Only for governmental entities that issued a tax bill after May 1st of the fiscal year, the Bureau allows an increase to fund balance by real and personal property tax collections, net of refunds, received 60 days from the date of mailing.

PLUS - Late Payments: Other reimbursements received through September 30th for expenditures made in the prior fiscal year that resulted in deficit fund balances as of June 30th may be accrued or may be requested of the Director of Accounts that the payment be considered toward the deficit payment.
CHAPTER 15 - GENERAL FIXED ASSETS ACCOUNT GROUP AND GENERAL LONG-TERM OBLIGATIONS ACCOUNT GROUP

GFAAG and GLTOAG

GASB 34 abolished the General Fixed Assets Account Group (GFAAG) and the General Long-Term Obligations Account Group (GLTOAG). However, in order for a local government to maintain records to account for assets and long-term obligations for governmental funds (and certain fiduciary funds), UMAS has retained these groups. All assets and long-term obligations for governmental funds should be accounted for in these groups. Assets and long-term obligations for Proprietary Funds and certain Fiduciary Funds are accounted for in the specific fund with which they are associated. GASB 34 requires not only that governmental funds be adjusted to full accrual for the government-wide Statement of Net Assets, but also identify assets and long-term obligations for these funds.

Amounts to be Provided

The Chart of Accounts provides accounts for these groups. For example, the 1990 accounts in the asset section includes various “Amounts to be Provided” for the GLTOAG. It should be noted that the “Amounts to be Provided” should only appear in this account group. No other funds should use these accounts. Account 3015, “Net Assets Unrestricted”, should be used as an offset for governmental fixed assets. However, these assets will not be net of related debt. Accounts in the 1900 group are used to account for fixed assets and accumulated depreciation.

Change Pre-GASB 34

When a governmental fund acquires an asset, capital outlay expenditure is charged and an entry is made in the GFAAG for the acquisition. A change in the handling of depreciation for fixed assets from pre-GASB 34 account group usage is that at the end of the fiscal year, an entry should be made for depreciation crediting the asset and debiting the related accumulated depreciation account. This is necessary to provide information for the government-wide Statement of Net Assets.

Accounting

When a long-term obligation is incurred, the appropriate fund (usually a Capital Projects Fund) recognizes the debt as revenue and an entry is made in the GLTOAG. At the end of the fiscal year, adjusting entries are made for other long-term obligations, such as compensated absences, capital leases and judgments and claims. In addition, future payments for school construction paid from the chapter 70B program can be accounted for.
Illustrative Journal Entries

Current maturities of principal, together with related interest on a general obligations serial bond, will be appropriated and paid in the General Fund. At the same time, an entry will be made in the GLTOAG, reversing the specific bond liability and the related "Amount to be Provided."

The entries which follow illustrate the accounting for the GLTOAG and are presented in the following sequence:

Opening Entry
Memorandum Entries
Bond Issues and Payments
Closing Trial Balance

Opening Entry

At the beginning of the fiscal year, account balances from the prior year’s ending trial balance should be recorded in the general ledger.

1. The closing trial balance of the prior year is journalized and entered into the general ledger.

050-1996   Amount to be Provided for Payment of Bonds 2,000,000
050-1997   Amount to be Provided, State (Ch. 70B) 300,000
050-2940   Bonds Payable - Outside Debt Limit - School Construction 500,000
050-2912   Bonds Payable - Inside Debt Limit - Land Acquisition and Public Buildings 50,000
050-2988   Bonds Payable - Outside Debt Limit - Industrial and Economic Development 1,000,000
050-2992   Bonds Payable - Outside Debt Limit - Public Disasters and Emergencies 750,000

2,300,000 2,300,000

To record the opening balances in the general ledger
Memorandum Entries

Memorandum entries are not required for this group of accounts, but are recommended to monitor the amounts of serial loan issues authorized by the appropriate authority and the subsequent serial issues or authorization rescissions. Memorandum accounts should not be closed out at the end of the fiscal year. Such accounts should only be eliminated when zeroed out by serial issues or authorization rescissions. Although these accounts do appear in opening or closing trial balances, they are not reflected in the financial statements.

a. Serial bond issues are authorized by appropriate authority.

050-3760 Bonds Authorized 1,000,000  
050-3770 Bonds Authorized - Offset 1,000,000

To record the authorization to issue serial bonds

b. Serial bond are issued (assumes that there were authorization balances carried forward from the prior year).

050-3770 Bonds Authorized - Offset 5,000,000  
050-3760 Bonds Authorized 5,000,000

To record the issuance of bonds authorized

Bond Issues and Payments

2. Serial bond are issued in connection with a capital project recorded in the Capital Projects Funds.

050-1996 Amount to be Provided for Payment of Bonds 5,000,000  
050-2912 Bonds Payable, Inside the Debt Limit - Land Acquisition and Public Buildings 5,000,000

To record the issuance of serial bonds for a new fire station
3. Payment of current maturing principal is appropriated and paid in the General Fund.

Illustrative Journal Entries

The entries which follow illustrate the accounting for the GFAAG and are presented in the following sequence:

Opening Entry
Closing Trial Balance

Opening Entry

At the beginning of the fiscal year, account balances from the prior year’s ending trial balance should be recorded in the general ledger.

1. The closing trial balance of the prior year is journalized and entered into the general ledger.

010-1910   Land      5,000,000
010-1920   Buildings 10,000,000
010-1929   Accumulated Depreciation - Buildings  2,000,000
010-1930   Plant     15,000,000
010-1939   Accumulated Depreciation - Plant    4,000,000
010-1940   Machinery and Equipment 6,000,000
010-1949   Accumulated Depreciation - Machinery and Equipment 1,500,000
010-1950   Construction in Progress 15,000,000
010-3015   Net Assets Unrestricted 43,500,000

51,000,000  51,000,000

2. A project to build a new fire station is completed and bonded.

010-1920   Buildings 5,000,000
010-1950   Construction in Progress 5,000,000

To record as an asset the new fire station
3. Depreciation is recorded on the fixed assets.

010-3970 Other Financing Sources 3,000,000
010-1929 Accumulated Depreciation - Buildings 1,500,000
010-1939 Accumulated Depreciation - Plant 1,000,000
010-1949 Accumulated Depreciation - Machinery and Equipment 500,000

To record annual depreciation

Closing Trial Balance

4. Closing Trial Balance

APPENDIX H

Mass. Water Pollution Abatement Trust

The entries in the example are based on the following information. This information is derived from an actual MWPAT (Massachusetts Water Pollution Abatement Trust) loan. For the sake of brevity budgetary and memorandum entries are not shown. They would be the same entries as those in Chapter 11 – Capital Projects Funds and Chapter 12 – Proprietary Funds. These entries are for pools 1 to 10.

Massachusetts Water Pollution Abatement Trust
Revolving Loan Program for Local Governments

Summary of Example:

USE OF FUNDS
Amount available for Construction $3,490,950
Issuance Costs $17,292
Origination Fee $4,748
Total Use of Funds: $3,512,990

SOURCE OF FUNDS
Bond Issued $3,376,192
Premium $136,798
Total Source of Funds: $3,512,990

TOTAL DEBT SERVICE
Bond Issued $3,376,192
Interest Cost $1,760,433
Total Gross Debt Service $5,136,625
Less: MWPAT Subsidy $2,120,936
Total Net Debt Service $3,015,689

TOTAL TO BE REPAID
Principal $2,529,284
Interest $486,405
Total to be Repaid $3,015,689
Source: Schedule C

Entries if the program is operated in governmental funds.

Capital Projects Fund

1. The local government receives an interim loan from the MWPAT.

   650-1040 Cash – Unrestricted 500,000
   650-2720 Bond Anticipation Notes Payable 500,000

   To record the receipt of funds from the MWPAT.
2. The local government pays a contractor for work performed on the project.

<table>
<thead>
<tr>
<th>Account</th>

</tr>
<tr>
<td>001-4930</td>
<td>Premium on Sale of Bonds</td>
<td>136,798</td>
</tr>
</tbody>
</table>
APPENDIX H (Cont’d)

2. The local government records the first payment of interest.

001-3930 Expenditures 33,547
001-3910 Revenue 16,737
001-1040 Cash – Unrestricted 16,811

To record the payment of interest on the WPAT debt.

Subsidiary ledger entries for this journal entry would be:

001-4000 Revenue Control 16,737
001-4820 Earnings on Investments 16,737
001-5925 Interest on Notes 33,547
001-5000 Subsidiary Expenditure Control 33,547

3. The local government records the first payment of principal and interest.

001-3930 Expenditures 207,871
001-3910 Revenue 99,457
001-1040 Cash – Unrestricted 108,414

To record the payment of debt service to the MWPAT

Subsidiary ledger entries for this journal entry would be:

001-5910 Maturing Principal on Long-Term Debt 207,871
001-5000 Subsidiary Expenditure Control 207,871
001-4000 Revenue Control 99,457
001-4680 Other State Revenue 99,457

General Obligation Account Group

1. The local government records the long-term debt to the WPAT.

050-1996 Amounts to be provided for the Payment of Bonds 3,376,192
050-2995 WPAT Bonds Payable 3,376,192

To record the receipt of the proceeds of debt from WPAT.
APPENDIX H (Cont’d)

2. The local government records the repayment of loan principal to WPAT.

| 050-2995 | WPAT Bonds Payable | 207,871 |
| 050-1996 | Amounts to be provided for the Payment of Bonds | 207,871 |

To record the repayment of principle to WPAT.

Entries if the program is operated in an Enterprise Fund

1. The local government receives an interim loan from the MWPAT.

| 650-1040 | Cash – Unrestricted | 500,000 |
| 650-2720 | Bond Anticipations Notes Payable | 500,000 |

To record the issuance of Bond Anticipation Notes

2. The local government pays a contractor for work performed on the project.

| 650-1950 | Construction in Progress | 100,000 |
| 650-1040 | Cash – Unrestricted | 100,000 |

To record the payment to the contractor on the MWPAT project.

3. The local government signs a bond agreement with MWPAT and receives the proceeds.

| 650-1040 | Cash – Unrestricted | 3,490,950 |
| 650-2720 | Bond Anticipation Notes Payable | 500,000 |
| 650-3930 | Expenditures | 22,040 |
| 650-3920 | Other Financing Sources | 136,798 |
| 650-1040 | Cash – Unrestricted | 500,000 |
| 650-2995 | Bonds Payable | 3,376,192 |

To record the proceeds of the loan from MWPAT.
APPENDIX H (Cont’d)

4. The local government records the first payment of interest.

<table>
<thead>
<tr>

EXAMPLE 1

This example assumes that reimbursement of a grant will be made by the Commonwealth during the current fiscal year.

1. The Accountant received from the Treasurer a Report of Advance of Funds in lieu of Borrowing which stated that on September 1, the general fund advanced $100,000 to the capital projects fund to fund expenditures on a capital project which will be reimbursed by a state grant.

General Fund

<table>

</tr>
</tbody>
</table>

To record repayment of advance to General Fund.

**EXAMPLE 2**

This example assumes that the reimbursement from the Commonwealth of Massachusetts will not be received by June 30.

1. The Accountant received from the Treasurer a Report of Advance of Funds in lieu of Borrowing which stated that on September 1, the general fund advanced $100,000 to the capital projects fund to fund expenditures on a capital project which will be reimbursed by a state grant.
General Fund

001-1630  Due from Capital Projects Funds 100,000
001-1040  Cash - Unrestricted 100,000

To record an advance in lieu of borrowing to the capital projects fund.

Capital Projects Fund

300-1040  Cash - Unrestricted 100,000
300-2301  Due to General Fund 100,000

To record an advance in lieu of borrowing from the General Fund.

2. On December 1, the Town billed the granting agency $100,000 for reimbursement for moneys expended.

Capital Projects Fund

300-1720  Due from Commonwealth of Massachusetts 100,000
300-2760  Deferred Revenue - Intergovernmental 100,000

To record grant funds applied for.

3. The Treasurer and Accountant met on June 1, to review the outstanding advances. It was determined that reimbursement from the state was not expected to be received by June 30. On June 10 the Treasurer issued a state grant anticipation note (GAN) in the amount of $100,000 and notified the Accountant of such.

Capital Projects Fund

300-1040  Cash - Unrestricted 100,000
300-2730  Grant Anticipation Notes Payable 100,000
300-2301  Due to General Fund 100,000
300-1040  Cash - Unrestricted 100,000

To record proceeds of GAN issued June 10.

To record repayment of advance from General Fund.
General Fund

001-1040    Cash - Unrestricted  100,000
001-1630    Due from Capital Projects Funds  100,000

To record repayment of advance to General Fund.

4. The Town received $100,000 from the granting agency on September 10. The GAN was paid off on the same day.

Capital Projects Fund

300-1040    Cash - Unrestricted  100,000
300-1720    Due from Commonwealth of Massachusetts  100,000

To record grant funds received.

300-2670    Deferred Revenue - Intergovernmental  100,000
300-3910    Revenue  100,000

To recognize funds received as revenue

Subsidiary ledger entries for this entry would be:

300-4000    Subsidiary Revenue Control  100,000
300-4660    General Government Reimbursements and Distributions  100,000

300-2730    Grant Anticipation Notes Payable  100,000
300-1040    Cash - Unrestricted  100,000

To record repayment of GAN.
1. What is a revenue deficit?

A revenue deficit occurs when the current results of operations (actual revenues and expenditures exclusive of legal appropriation deficits) result in a deficit when compared to the approved budget (budgeted revenues and appropriations) for the fiscal year.

2. How does an accountant determine a revenue deficit?

Accountants should compare expenditures to appropriations during the fiscal year. They should also compare actual revenues collected to budgeted revenues (excluding property taxes) during that fiscal year. Collection of property taxes less than the amount budgeted (commitment less overlay) does not result in a revenue deficit because there is a basic assumption that the town has a lien on the property or will eventually take the property and by selling it, will collect the taxes.

At the end of the fiscal year, if actual revenues collected (excluding property taxes) are less than budgeted revenues; and appropriation balances remaining are not sufficient to cover the revenue shortfall; a revenue deficit exists.

3. How is a revenue deficit accounted for?

On the UMAS system, the revenue control in the revenue subsidiary ledger will have to be analyzed to determine if a revenue shortfall exists. The appropriation subsidiary ledger will have to be analyzed to determine the amount of appropriation balances remaining. If the appropriation balances are insufficient to cover the revenue shortfall, an adjustment to undesignated fund balance is necessary to account for the revenue deficit. The adjustment would be:

001-3593 Unreserved Fund Balance - Revenue Deficit XXXXX
001-3590 Undesignated Fund Balance XXXXX

4. How does a revenue deficit affect free cash?

A revenue deficit is required to be raised on the next year's tax rate; therefore, if it is properly recorded, it does not affect the community's free cash.
5. How should a revenue deficit be reported?

The accountant should notify the assessors in writing as to the amount of the revenue deficit for the period ending June 30. The revenue deficit should also appear as a balance in account #001-3593 “Unreserved Fund Balance – Revenue Deficit” on the community’s balance sheet as of June 30.

6. Examples of a revenue deficit:

A city finalizes its budget for a fiscal year with the following:

<table>
<thead>
<tr>
<th>Total revenues</th>
<th>$100,000</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total appropriations</td>
<td>$100,000</td>
</tr>
</tbody>
</table>

Note - In examples a through c the unfavorable revenue deficit was caused by a shortfall in state and local receipts, property taxes were fully collected.

a. At the end of the fiscal year, the city collected $90,000 and will turn back $5,000 in unspent appropriations. The city has a revenue deficit, as calculated below:

<table>
<thead>
<tr>
<th>Budget</th>
<th>Actual</th>
<th>Favorable/(Unfavorable)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Revenue</td>
<td>100,000</td>
<td>90,000</td>
</tr>
<tr>
<td>Expenditures</td>
<td>100,000</td>
<td>95,000</td>
</tr>
<tr>
<td>Revenue Deficit</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

b. At the end of the fiscal year, the city collected $90,000 and will turn back $15,000 in unspent appropriations. The city does not have a revenue deficit.

<table>
<thead>
<tr>
<th>Budget</th>
<th>Actual</th>
<th>Favorable/(Unfavorable)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Revenue</td>
<td>100,000</td>
<td>90,000</td>
</tr>
<tr>
<td>Expenditures</td>
<td>100,000</td>
<td>85,000</td>
</tr>
<tr>
<td>Revenue Surplus</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

c. At the end of the fiscal year, the city collected $90,000 and made expenditures of $105,000 which includes $5,000 for court judgments and $2,500 for snow and ice. Since the court judgements and the snow and ice expenditures in excess of their appropriations are legal deficits, they are not included in the calculation of a revenue deficit. The amount to be raised for these overdrafts is the amount in excess of the appropriation not the entire expenditure. These amounts will be included on the balance sheet as of June 30 as account #001-3595 “Unreserved Fund Balance - Court Judgments” and account #001-3592 “Unreserved Fund Balance – Appropriation Deficits” respectively.
The expenditures would be:

105,000 total expenditures
less:  5,000 court judgments
      2,500 snow and ice
97,500 total expenditures from appropriations, applicable to a revenue deficit.

<table>
<thead>
<tr>
<th>Budget</th>
<th>Actual</th>
<th>Favorable/(Unfavorable)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Revenue</td>
<td>100,000</td>
<td>90,000</td>
</tr>
<tr>
<td>Expenditures</td>
<td>100,000</td>
<td>97,500</td>
</tr>
<tr>
<td>Revenue Deficit</td>
<td>7,500</td>
<td></td>
</tr>
</tbody>
</table>

d. At the end of the fiscal year, of the $100,000 revenue budget the property tax commitment net of overlay is $60,000 and state and local revenues were $40,000. The city collected $55,000 in property taxes, $40,000 in state and local receipts and will not be turning back any appropriations. Does the city have a revenue deficit?

<table>
<thead>
<tr>
<th>Budget</th>
<th>Actual</th>
<th>Favorable/(Unfavorable)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Revenue: State/Local</td>
<td>40,000</td>
<td>40,000</td>
</tr>
<tr>
<td>Revenue: Property Taxes</td>
<td>60,000</td>
<td>55,000</td>
</tr>
<tr>
<td>Expenditures</td>
<td>100,000</td>
<td>100,000</td>
</tr>
<tr>
<td>Revenue Shortfall</td>
<td></td>
<td>5,000</td>
</tr>
</tbody>
</table>

In this example where the deficit is due to the property tax collections being less than the amount budgeted the city is not required to raise the revenue deficit. The reason as previously explained for this is that there is a basic assumption that the town has a lien on the property or will eventually take the property and by selling it, will collect the taxes.
